Classroom Starters for Any Occasion Learning Works
 An illustrated adaptation of the long-running bestseller *How Full Is Your Bucket?* (more than 400,000 copies sold) for kids — told through the story of a boy who learns a valuable “bucket filling” metaphor and watches it come to life as the day unfolds. Every moment matters. Each of us has an invisible bucket. When our bucket is full, we feel great. When it’s empty, we feel awful. Yet most children (and many adults) don’t realize the importance of having a full bucket throughout the day. In *How Full Is Your Bucket? For Kids*, Felix begins to see how every interaction in a day either fills or empties his bucket. Felix then realizes that everything he says or does to other people fills or empties their buckets as well. Follow along with Felix as he learns how easy it can be to fill the buckets of his classmates, teachers and family members. Before the day is over, you’ll see how Felix learns to be a great bucket filler, and in the process, discovers that filling

someone else’s bucket also fills his own.

Holidays and Seasonal Bulletin Boards Holiday House
 Presents ideas for creating bulletin boards for every month of the year.

Good News Macmillan

Celebrate special days and themes with the creative ideas in this 320-page book--bulletin boards, reproducible student activities, resource lists, parents’ letters and much, much more! Features a CD-ROM (print books) or .zip file (eBooks) chock-full of color and black & white clip art images. A valuable resource to keep close at all times!

[Keep it Simple--bulletin Board Ideas for Grades 7-12](#) Humanics Publishing Group

Designed for K-5 classrooms, these creative bulletin board ideas link Bible themes to classwork. The authors have created 110 different concepts, with complete instructions and illustrations. Following the school year, the bulletin boards can be used as springboards to promote discussion and as reminders of the central message in a particular lesson. The authors have also outlined ideas for classroom activities, suggestions for appropriate books, field trip ideas, party plans, cooperative learning activities, and Web sites. Faith lessons are generously

sprinkled throughout. A section called "Bible Heroes from A to Z" provides brief retellings of heroic deeds that bring Bible heroes to life. Even students who know their Bible well will enjoy these 5-minute short stories. The Bible has been a teaching tool since it was written, and *Good News: Thematic Bulletin Boards for Christian Classrooms* makes it easy.

Bulletin Board Displays for Mathematics Metuchen, N.J. : Scarecrow Press

Bulletin boards, banners ideas as well as ideas to save time and work. Contains reproducible pages.

Seasons to Celebrate: January to Summer (ENHANCED eBook) Good Apple

Talking math with your child is simple and even entertaining with this better approach to shapes! Written by a celebrated math educator, this innovative inquiry encourages critical thinking and sparks memorable mathematical conversations. Children and their parents answer the same question about each set of four shapes: "Which one doesn't belong?" There's no one right answer--the important thing is to have a reason why. Kids might describe the shapes as squished, smooshed, dented, or even goofy. But when they justify their thinking, they're talking math! Winner of the Mathical Book Prize for books that inspire children to see math all around them. "This is one shape book that will both challenge readers' thinking and encourage them to think outside the box."--Kirkus Reviews, STARRED review

Little Blue Truck Carson-Dellosa Publishing

You had better not monkey around when it comes to place value. The monkeys in this book can tell you why! As they bake the biggest banana cupcake ever, they need to get the amounts in the recipe correct. There's a big difference between 216 eggs and 621 eggs. Place value is the key to keeping the numbers straight. Using humorous art, easy-to-follow charts and clear explanations, this book presents the basic facts about place value while inserting some amusing monkey business.

Bulletin Boards for Holidays and Seasons Houghton Mifflin Harcourt

An entire year's worth of ideas and activities designed to keep students motivated and interested! A wide variety of patterns, parent letters, and charts accompany each project. Teachers can choose from bulletin boards that display final projects or those that involve ongoing, incentive-based activities. Topics include math, science, reading, language, music, art, self-awareness, and more.
