NEAL RODGERS

Farm Mechanics Hassell Street Press

Instructions and requirements for earning the merit badge in orienteering using a map and a compass to follow a cross-country course.

Joan Crawford Boy Scouts of Amer

Growing up in suburban Detroit, David Hahn was fascinated by science. While he was working on his Atomic Energy badge for the Boy Scouts, David's obsessive attention turned to nuclear energy. Throwing caution to the wind, he plunged into a new project: building a model nuclear reactor in his backyard garden shed. Posing as a physics professor, David solicited information on reactor design from the U.S. government and from industry experts. Following blueprints he found in an outdated physics textbook, David cobbled together a crude device that threw off toxic levels of radiation. His wholly unsupervised project finally sparked an environmental emergency that put his town's forty thousand suburbanites at risk. The EPA ended up burying his lab at a radioactive dumpsite in Utah. This offbeat account of ambition and, ultimately, hubris has the narrative energy of a first-rate thriller.

Citizenship in the Community John Wiley & Sons

From the founder of "clicker" training, the widely praised humane approach to shaping animal behavior, comes a fascinating book—part memoir, part insight into how animals and people think and behave. A celebrated pioneer in the field of no-punishment animal training, Karen Pryor is responsible for developing clicker training—an all-positive, safe, effective way to modify and shape animal behavior—and she has changed the lives of millions of animals. Practical, engrossing, and full of fascinating stories about Pryor's interactions with animals of all sorts, *Reaching the Animal Mind* presents the sum total of her life's work. She explains the science behind clicker training, how and why it works, and offers step-by-step instructions on how you can clicker-train any animal in your life. For bonus video clips, slide shows, articles, downloadable exercises, and links expanding on the contents of the book, go to ReachingtheAnimalMind.com.

Reaching the Animal Mind

In the first biography of Joan Crawford to give the full, uncensored story, bestselling author David Bret tells Crawford's rags to riches climb, from working in a Kansas City laundry to collecting an Oscar for her defining role in Mildred Pierce, and on to her devotion to Christian Science and reliance on vodka. He discusses the star's legendary relationship with Clark Gable, her countless love affairs, her marriages -- three of them to gay men -- and her obsession with rough sex. Bret divulges what really happened that led her to disinherit two of her four children, earning her the nickname "Mommie Dearest," as well as how her loathed mother forced Crawford to work as a prostitute, appear in pornographic films, and sleep her way to the top. Bret analyzes Crawford's films, many of which were constructed purely as vehicles where actress and character were often indistinguishable. Overtly generous towards her coterie of gay friends, she was heartless towards her enemies, particularly Bette Davis, her co-star in *Whatever Happened to Baby Jane*, with whom she shared a

lifelong feud. Drawing on a wealth of unpublished material and interviews, David Bret presents a unique, fascinating portrait of a single-minded, uncompromising woman.

The Eagle Court of Honor Book

A handbook for earning the Boy Scout merit badge in Citizenship in the world.

Personal Management

The FBI Identification Division was established in 1924 when the records of the National Bureau of Criminal Investigation and the Leavenworth Penitentiary Bureau were consolidated in Washington, D.C. The original collection of only 810,000 fingerprint cards has expanded into many millions. The establishment of the FBI Identification Division resulted from the fact that police officials of the Nation saw the need for a centralized pooling of all fingerprint cards and all arrest records. The Federal Bureau of Investigation offers identification service free of charge for official use to all law enforcement agencies in this country and to foreign law enforcement agencies which cooperate in the International Exchange of Identification Data. Through this centralization of records it is now possible for an

officer to have available a positive source of information relative to the past activities of an individual in his custody. It is the Bureau's present policy to give preferred attention to all arrest fingerprint cards since it is realized that speed is essential in this service. In order that the FBI Identification Division can provide maximum service to all law enforcement agencies, it is essential that standard fingerprint cards and other forms furnished by the FBI be utilized. Fingerprints must be clear and distinct and complete name and descriptive data required on the form should be furnished in all instances. Fingerprints should be submitted promptly since delay might result in release of a fugitive prior to notification to the law enforcement agency seeking his apprehension. When it is known to a law enforcement agency that a subject under arrest is an employee of the U.S. Government or a member of the Armed Forces, a notation should be placed in the space for "occupation" on the front of the fingerprint card. Data such as location of agency or military post of assignment may be added beside the space reserved for the photograph on the reverse side of the card.
