"In the Fall of 2010 I gave an assignment in my Appalachian Literature class at Berea College, telling my students to write their own version of "Where I'm From" poem based on the writing prompt and poem by George Ella Lyon, one of the preeminent Appalachian poets. I was so impressed by the results of the assignment that I felt the poems needed to be preserved in a bound document. Thus, this little book. These students completely captured the complexities of this region and their poems contain all the joys and sorrows of living in Appalachia. I am proud that they were my students and I am very proud that together we produced this record of contemporary Appalachian Life" -- Silas House

The Ascent of Humanity Yearling

"Straight up, parent tested, and funny to boot, Jamie gives you all the information you need."

—Amber Dusick, author of *Parenting: Illustrated with Crappy Pictures* A proven six-step plan to help you toilet train your preschooler quickly and successfully, from potty-training expert, Pied Piper of Poop, and social worker Jamie Glowacki. Worried about potty training? Let Jamie Glowacki, potty-training expert, show you how it's done. Her 6-step, proven process to get your toddler out of diapers and onto the toilet has already worked for tens of thousands of kids and their parents. Here's the good news: your child is probably ready to be potty trained EARLIER than you think (ideally, between 20–30 months), and it can be done FASTER than you expect (most kids get the basics in a few days—but Jamie's got you covered even if it takes a little longer). If you've ever said to yourself: ** How do I know if my kid is ready? ** Why won't my child poop in the potty? ** How do I avoid "potty power struggles"? ** How can I get their daycare provider on board? ** My kid was doing so well—why is he regressing? ** And what about nighttime?! Oh Crap! Potty Training can solve all of these (and other) common issues. This isn't theory, you're not bribing with candy, and there are no gimmicks. This is real-world, from-the-trenches potty training information—all the questions and all the ANSWERS you need to do it once and be done with diapers for good.

This clear, learner-friendly text helps today's students bridge the gap between everyday culture and critical thinking. The text covers all the basics of critical thinking, beginning where students are, not where we think they should be. Its comprehensiveness allows instructors to tailor the material to their individual teaching styles, resulting in an exceptionally versatile text.

Point of Retreat New Riders Publishing

Contemporary Mexico faces a complex crisis of violence and insecurity with high levels of impunity and the lack of an effective rule of law. These weaknesses in the rule of law are multidimensional and involve elements of institutional design, the specific content of the laws, particularities of political competition and a culture of legality in a country with severe social inequalities. This book discusses necessary institutional and legal reforms to develop the rule of law in a context of

democratic, social and economic transformations. The chapters are organized to address: 1) The concept of the 'rule of law' and its measurement; 2) The fragility of the 'rule of law' in Mexico; 3) Structural reforms and implementation challenges; 4) Social exclusion and the culture of legality. The book addresses decision-makers, civil servants, consultants, scholars, lecturers, and students focusing on public policy, rule of law, sociology of law, legislative studies and practice, impunity, and areas of political philosophy. • The book presents an interdisciplinary and integrated approach for understanding the rule of law in Mexico, taking into account national particularities, the regional context and global comparisons. • Chapters discuss recent institutional reforms in Mexico from a critical point of view and explore possible next steps to achieve effective implementation. • This book addresses the links between a weak rule of law and social phenomena like insecurity, violence, corruption and democratic deficits.

How the world's most influential companies are building business strategies that tackle the biggest global challenges. Today's business landscape is changing in fundamental ways: Natural resources are growing ever more scarce and expensive. Technology and changing consumer expectations are making transparency a fact of life. The rise of emerging economies creates vast market opportunities for companies--and better living standards for hundreds of millions. In *Sustainable Excellence*, Aron Cramer and Zachary Karabell tell the stories of the companies who are transforming themselves by responding to these paradigm shifts and in the process shaping the future. From their work with these Global 1000 companies, Cramer and Karabell know firsthand how business can successfully grapple with big-picture issues like resource scarcity, supply chain complexities, and the diverse expectations of government and the public. In *Sustainable Excellence*, they tell the story of how Coca-Cola and Greenpeace collaborated on a refrigerator that fights climate change. They show how companies like Best Buy and Nike are transforming the very products they sell to deliver more value to consumers with less waste. They recount how GE and Google created an innovative partnership that is developing "smart grids" that radically reduce energy use. And they show how business leaders like Starbucks' founder and CEO Howard Schultz put sustainable excellence at the center of his company's business strategy. Through these and other fascinating stories, *Sustainable Excellence* makes the case for a different way of doing business--one that will define both business success and economic vitality in the 21st century.

Bullshit Jobs Penguin

The author of *The More Beautiful World Our Hearts Know Is Possible* explores the history and potential future of civilization, tracing the converging crises of our age to the illusion of the separate self Our disconnection from one another and the natural world has mislaid the foundations of science, religion, money, technology, economics, medicine, and education as we know them. It has fired our near-pathological pursuit of technological Utopias even as we push ourselves and our planet to the brink of collapse. Fortunately, an Age of Reunion is emerging out of the birth pangs of an earth in crisis. Our journey of separation hasn't been a terrible mistake but an evolutionary process and an adventure in self-discovery. Even in our darkest hour, Eisenstein sees the possibility

of a more beautiful world—not through the extension of millennia-old methods of management and control but by fundamentally reimagining ourselves and our systems. We must shift away from our Babelian efforts to build ever-higher towers to heaven and instead turn out attention to creating a new kind of civilization—one designed for beauty rather than height.

The funniest and most popular sportswriter in America abandons his desk to caddy for some of the world's most famous golfers—and some celebrity duffers—with hilarious results in this New York Times bestseller. Who knows a golfer best? Who's with them every minute of every round, hears their muttering, knows whether they cheat? Their caddies, of course. So sportswriter Rick Reilly figured that he could learn a lot about the players and their game by caddying, even though he had absolutely no idea how to do it. Amazingly, some of the best golfers in the world—including Jack Nicklaus, David Duval, Tom Lehman, John Daly, Jill McGill of the LPGA tour, and Casey Martin—agreed to let Reilly carry their bags at actual PGA and LPGA Tour events. To round out his portrait of the golfing life, Reilly also persuaded Deepak Chopra and Donald Trump to take him on as a caddy, accompanied the four highest-rolling golf hustlers in Las Vegas around the course, and carried the bag for a blind golfer. Between his hilarious descriptions of his own ineptitude as a caddy and his insight into what makes the greats of golf so great, Reilly's wicked wit and an expert's eye provide readers with the next best thing to a great round of golf.

"A perfect complement to the shelves of readers who follow Jenny Han and E. Lockhart."* Part Hawaiian, part Mainlander. Perpetual new girl at school. Hanging in the shadow of her actress mother's spotlight. And now: new resident of the prominent West family's guest cottage. Bracing herself for the embarrassment of being her classmates' latest charity case, Lea is surprised when she starts becoming friends with Will and Whitney West instead—or in the case of gorgeous, unattainable Will, possibly even more than friends. And despite their differences, Whitney and Lea have a lot in common: both are navigating a tangled web of relationships, past disappointments and future hopes. As things heat up with Will, and her friendship with Whitney deepens, Lea has to decide how much she's willing to change in order to fit into their world. *Booklist

Game Architecture and Design: A New Edition is a revision of the classic that you have been waiting for! This is a detailed guide to game design and planning from first concept to the start of development, including case studies of well known games. Originally published in 1999, *Game Architecture and Design*, has been updated by the original authors Andrew Rollings and Dave Morris. They tap back into what they teach so well and update this classic with skills and techniques found in the industry today. With more than just re-usable code, it's a comprehensive study that deals specifically with the issues of game design, team building and management, and game architecture. Through the use of real-world experiences and case studies, Andrew and Dave share it all. They show you what's worked and why as well as what to avoid and how to fix any errors. This intelligent and well-argued book is a glimpse into the often-disordered world of game development. Readers will gain solid advice and know-how that can bring some order to the often-chaotic world found in game development.

From #1 New York Times bestselling author of *It Starts with Us* and *It Ends with Us*, Colleen Hoover's romantic, emotion-packed debut novel unforgettably captures all the magic and confusion of first love, as two young people forge an unlikely bond before discovering that fate has other plans for them. Following the unexpected death of her father, eighteen-year-old Layken becomes the rock for both her mother and younger brother. She appears resilient and tenacious, but inside, she's losing hope. Then she meets her new neighbor Will, a handsome twenty-one-year-old whose mere presence leaves her flustered and whose passion for poetry slams thrills her. Not long after a heart-stopping first date during which each recognizes something profound and familiar in the other, they are slammed to the core when a shocking discovery brings their new relationship to a sudden halt. Daily interactions become impossibly painful as they struggle to find a balance between the feelings that pull them together and the forces that tear them apart. Only through the poetry they share are they able to speak the truth that is in their hearts and imagine a future where love is cause for celebration, not regret.

This highly anticipated print collection gathers articles published in the much-loved *International Journal of Proof-of-Concept or Get The Fuck Out. PoC||GTFO* follows in the tradition of *Phrack* and *Uninformed* by publishing on the subjects of offensive security research, reverse engineering, and file format internals. Until now, the journal has only been available online or printed and distributed for free at hacker conferences worldwide. Consistent with the journal's quirky, biblical style, this book comes with all the trimmings: a leatherette cover, ribbon bookmark, bible paper, and gilt-edged pages. The book features more than 80 technical essays from numerous famous hackers, authors of classics like "Reliable Code Execution on a Tamagotchi," "ELFs are Dorky, Elves are Cool," "Burning a Phone," "Forget Not the Humble Timing Attack," and "A Sermon on Hacker Privilege." Twenty-four full-color pages by Ange Albertini illustrate many of the clever tricks described in the text.

For a small footballing nation, Scotland boasts a proud record of having qualified for the World Cup Finals on eight occasions. But this fantastic record is also tarred with the glorious failure of never having reached the latter stages of the tournament. Scotland '74 is a bitter-sweet celebration of the closest Scotland has ever got - so far at least - when a team of superstars managed to snatch defeat from the jaws of victory in the dying seconds. Forty years on, it still hurts. For Scotland, the World Cup Finals in West Germany in 1974 promised much. Group 2 had a talented Brazil side with Jairzinho, Rivelino and Cesar, a hard-to-pronounce Yugoslavia line-up and group minnows Zaire. But the Scotland squad boasted household names like Billy Bremner, Kenny Dalglish, Denis Law, Peter Lorimer and Joe Jordan. How could Scotland not get to the second phase of the tournament for the very first time? Well, this is the story of how, astonishingly, it just didn't happen - even though Scotland ended up as the only unbeaten team in the tournament. As history tells us, 1974 was a massive missed opportunity for Scotland, and Richard Gordon now reveals how it all went wrong in the days before the shambles of Argentina '78 and the 3-0 humbling by Morocco in 1998. Drawing on archive reports and the memories of squad members, Scotland '74 relates the story of that big adventure, encompassing a shocking start to manager Willie Ormond's reign (a 5-0 beating by England), frequent player indiscipline, and, ultimately, the on-field heartbreak that left a nation in mourning for a lost opportunity.

Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. Twelve Years a Slave is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's Uncle Tom's Cabin, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

Business as usual' isn't working. There is an emerging consensus that all is not well with today's market-centric economic model. Although it has delivered wealth over the last half-century and pulled millions out of poverty, it is recession-prone, leaves too many people unemployed, creates ecological scarcities and environmental risks, and widens the gap between the rich and the poor. In Corporation 2020, Pavan Sukhdev lays out a sweeping new vision for tomorrow's corporation: one that will increase human well being and social equity, decrease environmental risks and ecological losses, and still generate profit. Sukhdev illustrates his vision with examples ranging from Infosys's creation of human capital to Citibank's having to change its project finance policy due to rainforest destruction. From its insightful look into the history of the corporation to the thoughtful discussion of the steps needed to craft a better corporate model, Corporation 2020 offers a hopeful vision for the role of business in shaping a more equitable, sustainable future.

The difference that being female makes to the diagnosis, life and experiences of a person with an Autism Spectrum Disorder (ASD) has largely gone unresearched and unreported until recently. In this book Sarah Hendrickx has collected both academic research and personal stories about girls and women on the autism spectrum to present a picture of their feelings, thoughts and experiences at each stage of their lives. Outlining how autism presents differently and can hide itself in females and what the likely impact will be for them throughout their lifespan, the book looks at how females with ASD experience diagnosis, childhood, education, adolescence, friendships, sexuality, employment, pregnancy and parenting, and aging. It will provide invaluable guidance for the professionals who support these girls and women and it will offer women with autism a guiding light in interpreting and understanding their own life experiences through the experiences of others.
