Today, with the negative news around the Chinese economy, it is easy to forget there are several sectors in China that will outperform most other investment opportunities globally for decades to come. As investors, we want to be in those sectors and get our fair share of the growth. Jukka Blomberg - a Chinese Stock Analytics Software Creator and an active China Investor - will show you how to tap into these opportunities, in which sectors to invest, how to find the most promising stocks and how to build your position. Moreover, in this book he will help you: To save money by illustrating the things to do and the things to avoid in China investing. To save time by presenting the majority of information on Chinese stocks in an easily digestible format. To make money by focusing on the fastest growing and most promising industries and companies. To minimize the odds of big losses and to maximize the odds of big gains by adopting the strategies introduced.

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. **START WITH WHY** asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. **START WITH WHY** shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

"Many hands make a miracle; People climbing together. Life on earth is so wonderful When people laugh and dance And struggle as friends, Then all their dreams achieve their ends." --from "Many Hands Make a Miracle" by Swami Kriyananda In this book Swami Kriyananda, called "the Father of the Communities Movement," shares the wisdom gained through many decades of study and practice of the principles that make modern communities thrive. Inspired by his guru, Paramhansa Yogananda, and his ideal of "world brotherhood colonies," Kriyananda brought these principles to fruition through persistent effort and inspired leadership. "Make your ideals practical," Yogananda advised, and Kriyananda took those words to heart. During his lifetime, Kriyananda (1926-2013) founded nine spiritual communities in the United States, Europe, and India. His network of Ananda communities has been hailed as the most successful in the world. The Ananda communities were formed on two basic principles--"people are more important than things" and "where there is right action, there is victory." Adherence to these principles is one of the secrets to Ananda's success. Whether you are interested in communities from a philosophical perspective or from a practical one--and wish to form your own or join with others in doing so--this book will bring you hundreds of helpful insights into the process--how to start a community, how to make it prosper even in difficult times, and how to see it continue into a bright future.

This book, written for and to the author's children, contains the information that he wanted to pass on to them before they started living their lives on their own. He realized that there was plenty he failed to teach them while he was away from home on business. This book is his attempt to put the information that he thought they would need into a form that they could read now and reference again later. It contains information about the things that they would face for the first time, such as planning and budgeting, bank accounts and writing checks, building and maintaining a good credit report, apartments and leases, and the responsibilities and costs involved in owning an automobile. It contains information that he hoped would help his children minimize the mistakes that they were sure to make. After he wrote it, he realized that ANYONE who was about to start living life on their own could benefit from this information. This book contains information about the most important things YOU'LL need to know before you start living life on your own.

Clinical psychology is a quickly growing profession, yet it is a challenging one: the preparation is arduous, the training is highly selective, and the results – an established and financially successful practice – are not easy to achieve. This book explains how to prepare for and surmount all of the hurdles presented to those who hope to eventually develop a lucrative and rewarding practice in clinical psychology. It is the first of its kind to focus primarily on financial success, though it does also look at the personal stresses and rewards of the profession. The author provides tips from his own experience and from other financially successful private practice psychologists and offers business techniques and pointers that are not explained in training programs. Undergraduate students contemplating a career in psychology will find advice on preparing for the GRE, applying to graduate schools, and getting involved in research and clinical work. For graduate students, an overview of a graduate clinical psychology program, preparing and completing a dissertation, and gaining experience in psychological testing are provided. Chapters then focus on how to build and manage a private practice, the best ways to manage personal and business finances, and how to practice good self-care. Additionally, the book includes a chapter by an expert on student-loan repayment that examines how to best work through the process of paying back student loans while building a practice.
