LIVING A LIFE THAT MATTERS Rodale
Finalist for the 2021 National Book
Award for Nonfiction Winner of the 2022
Asian/Pacific American Award in
Literature A TIME and NPR Best Book of
the Year in 2021 This evocative memoir
of food and family history is "somehow
both mouthwatering and heartbreaking...
[and] a potent personal history" (Shelf
Awareness). Grace M. Cho grew up as

the daughter of a white American
merchant marine and the Korean bar
hostess he met abroad. They were one
of few immigrants in a xenophobic small
town during the Cold War, where identity
was politicized by everyday
details—language, cultural references,
memories, and food. When Grace was
fifteen, her dynamic mother experienced
the onset of schizophrenia, a condition
that would continue and evolve for the
rest of her life. Part food memoir, part
sociological investigation, *Tastes Like
War* is a hybrid text about a daughter's

search through intimate and global history for the roots of her mother's schizophrenia. In her mother's final years, Grace learned to cook dishes from her parent's childhood in order to invite the past into the present, and to hold space for her mother's multiple voices at the table. And through careful listening over these shared meals, Grace discovered not only the things that broke the brilliant, complicated woman who raised her—but also the things that kept her alive. “An exquisite commemoration and a potent reclamation.” —Booklist (starred review) “A wrenching, powerful account of the long-term effects of the immigrant experience.” —Kirkus Reviews

 2020 Miriam Matthews Ethnic History

Award from the Los Angeles City Historical Society Alison Rose Jefferson examines how African Americans pioneered America's “frontier of leisure” by creating communities and business projects in conjunction with their growing population in Southern California during the nation's Jim Crow era.

Crying in H Mart Feminist Press at CUNY
 Clinical practice related to sleep problems and sleep disorders has been expanding rapidly in the last few years, but scientific research is not keeping pace. Sleep apnea, insomnia, and restless legs syndrome are three examples of very common disorders for which we have little biological information. This new book cuts across a variety of medical disciplines such as

neurology, pulmonology, pediatrics, internal medicine, psychiatry, psychology, otolaryngology, and nursing, as well as other medical practices with an interest in the management of sleep pathology. This area of research is not limited to very young and old patients—sleep disorders reach across all ages and ethnicities. *Sleep Disorders and Sleep Deprivation* presents a structured analysis that explores the following: Improving awareness among the general public and health care professionals. Increasing investment in interdisciplinary somnology and sleep medicine research training and mentoring activities. Validating and developing new and existing technologies for diagnosis and treatment. This book will be of interest

to those looking to learn more about the enormous public health burden of sleep disorders and sleep deprivation and the strikingly limited capacity of the health care enterprise to identify and treat the majority of individuals suffering from sleep problems.

#1 NEW YORK TIMES BESTSELLER • “The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly.”—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE “MOST

INFLUENTIAL” (CNN), “DEFINING” (LITHUB), AND “BEST” (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE’S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without

her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though

the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health

insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

Human Agency in Medieval Society, 1100-1450 Gill & Macmillan Ltd

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent

application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread

adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Chef Interrupted Feminist Press at CUNY

A riveting thriller reminiscent of *The Hot Zone*, this true story dives into the mystery surrounding one of the most controversial and misdiagnosed conditions of our time—Lyme disease—and of Willy Burgdorfer, the man who discovered the microbe behind it, revealing his secret role in developing bug-borne biological weapons, and

raising terrifying questions about the genesis of the epidemic of tick-borne diseases affecting millions of Americans today. While on vacation on Martha's Vineyard, Kris Newby was bitten by an unseen tick. That one bite changed her life forever, pulling her into the abyss of a devastating illness that took ten doctors to diagnose and years to recover: Newby had become one of the 300,000 Americans who are afflicted with Lyme disease each year. As a science writer, she was driven to understand why this disease is so misunderstood, and its patients so mistreated. This quest led her to Willy Burgdorfer, the Lyme microbe's discoverer, who revealed that he had developed bug-borne bioweapons during the Cold War, and believed that the

Lyme epidemic was started by a military experiment gone wrong. In a superb, meticulous work of narrative journalism, *Bitten* takes readers on a journey to investigate these claims, from biological weapons facilities to interviews with biosecurity experts and microbiologists doing cutting-edge research, all the while uncovering darker truths about Willy. It also leads her to uncomfortable questions about why Lyme can be so difficult to both diagnose and treat, and why the government is so reluctant to classify chronic Lyme as a disease. A gripping, infectious page-turner, *Bitten* will shed a terrifying new light on an epidemic that is exacting an incalculable toll on us, upending much of what we believe we know about it. Paperbacks

From the author of the New York Times bestselling Natchez Burning trilogy and the Penn Cage series, and hailed by Dan Brown (The Da Vinci Code) for his “utterly consuming” suspense fiction, Greg Iles melds forensic detail with penetrating insight in this novel that delves in the heart of a killer in a Mississippi town. Some memories live deep in the soul, indelible and dangerous, waiting to be resurrected... Forensic dentist “Cat” Ferry is suspended from an FBI task force when the world-class expert is inexplicably stricken with panic attacks and blackouts while investigating a chain of brutal murders. Returning to her Mississippi hometown, Cat finds herself battling with alcohol, plagued by nightmares, and

entangled with a married detective. Then, in her childhood bedroom, some spilled chemicals reveal two bloody footprints...and the trauma of her father’s murder years earlier comes flooding back. Facing the secrets of her past, Cat races to connect them to a killer’s present-day violence. But what emerges is the frightening possibility that Cat herself might have blood on her hands... “As Southern Gothic as it gets” (Kirkus Reviews), Greg Iles’s Blood Memory “will have readers turning pages at a breakneck pace” (New Orleans Times-Picayune).

[Proceedings of the Massachusetts Historical Society](#) U of Nebraska Press
New research on aspects of the political, social and religious history of the British Isles from 10c-13c, with related material

on western Europe. The 1993 International Conference of the Haskins Society, held at the University of Houston, produced a varied collection of papers on numerous aspects of the medieval history of the British Isles, with related material on other Western European countries. The articles in this volume, most of which derive from the conference, focus strongly on the topic of religion, with stimulating essays on women religious, Archbishop Lanfranc and the Anglo-Saxon hagiographic tradition; however, other subjects are also explored, including Anglo-Norman litigation and the turbulent state of Denmark in the ninth century. Contributors: CARY L. DIER, SUSAN J. RIDYARD, K.L. MAUND, EDWARD J. SCHOENFELD, ROBIN FLEMING,

BERNARD S. BACHRACH, PATRICIA HALPIN, EMILY ALBU HANAWALT, DANIEL F. CALLAHAN, H.E.J. COWDREY, DAVID ROFFE

Fatigue Management for People with Multiple Sclerosis Crown

This revised and updated edition of the ABC of Complementary Medicine offers an authoritative introduction to complementary therapies. Taking an independent standpoint, neither promoting nor disparaging complementary therapies, this second edition includes the latest information on efficacy of treatments and provides a new emphasis on patient management. The ABC of Complementary Medicine is an invaluable guide to any doctor who encounters complementary medicine in

clinical practice.

Sleep Disorders and Sleep Deprivation
Boydell & Brewer

This inspirational “magic-infused narrative . . . is a moving account of a young writer and mother striving to claim her own agency and find her voice” (Publishers Weekly). Buying into the dream that education is the road out of poverty, a teen mom takes a chance on bettering herself and talks her way into college. But once she’s there, phallocratic narratives permeate every subject. Wryly riffing on feminist literary tropes, *We Were Witches* documents the survival of a demonized single lesbian mother as she’s beset by custody disputes, homophobia, and America’s ever-present obsession with shaming unconventional women into passive

citizenship. But even as the narrator struggles to graduate, a question uncomfortably lingers: If you’re dealing with precarious parenthood, queer identity, and debt, what is the true narrative shape of your experience?

Coping with Multiple Sclerosis Abbott Press

Tastes Like War Random House
Maria Rodale was raised on real food.

She doesn't think of eating homemade, from-scratch meals as part of a trend or movement; it has always been her life. Raised in a family of farmers, bakers, chefs, gardeners, and publishers, Maria is used to growing, cooking, reading and writing about, and eating organic, delicious food. And now, for the first time ever, she's sharing her tried-and-true family recipes. *Scratch* is full of comfort food recipes that aren't focused on any one healthy trend, but are instead innately healthy, because Maria inspires you to return to your kitchen and cook with real, organic food. Recipes like Pasta Fagiole, Maria's Fried Chicken, and Lamb & Barley Soup will be crowd pleasers for sure, but Maria throws in some unique-to-the-family recipes that are going to delight as well, such as her

Pennsylvania Dutch Dandelion Salad with Bacon Dressing, Ardie's Pasties, and Homemade Hoppin' John (a black-eyed pea stew made with smoked turkey or ham). Besides sharing her family's favorite recipes, Maria's book also gives you a peek into her life as a Rodale, with personal family portraits and stories. With this cookbook, you can eat like the Rodale family every night of the week with delicious food to make at home, from scratch. Naturally healthy, bacon included.

Treasurer's Report to the Finance Committee, Board of Regents John Wiley & Sons

In his highly readable, educational and inspiring memoir, Holocaust Survivor Ben Lesser's warm, grandfatherly tone invites the reader to do more than just

visit a time when the world went mad. He also shows how this madness came to be—and the lessons that the world still needs to learn. In this true story, the reader will see how an ordinary human being—an innocent child—not only survived the Nazi Nightmare, but achieved the American Dream.

 Meant to aid State & local emergency managers in their efforts to develop & maintain a viable all-hazard emergency operations plan. This guide clarifies the preparedness, response, & short-term

recovery planning elements that warrant inclusion in emergency operations plans. It offers the best judgment & recommendations on how to deal with the entire planning process -- from forming a planning team to writing the plan. Specific topics of discussion include: preliminary considerations, the planning process, emergency operations plan format, basic plan content, functional annex content, hazard-unique planning, & linking Federal & State operations.

Garden News Vintage

Newly illustrated and available for the first time in years, a haunting novella from the uncannily imaginative author of the national bestsellers *Swamplandia!* and *Orange World*: the story of a deadly insomnia epidemic and the lengths one

woman will go to to fight it. Trish Edgewater is the Slumber Corps' top recruiter. On the phone, at a specially organized Sleep Drive, even in a supermarket parking lot: Trish can get even the most reluctant healthy dreamer to donate sleep to an insomniac in crisis—one of hundreds of thousands of people who have totally lost the ability to sleep. Trish cries, she shakes, she shows potential donors a picture of her deceased sister, Dori: one of the first victims of the lethal insomnia plague that has swept the globe. Run by the wealthy and enigmatic Storch brothers, the Slumber Corps is at the forefront of the fight against this deadly new disease. But when Trish is confronted by "Baby A," the first universal sleep donor, and the mysterious "Donor Y," whose

horrific infectious nightmares are threatening to sweep through the precious sleep supply, her faith in the organization and in her own motives begins to falter. Fully illustrated with dreamy evocations of Russell's singular imagination and featuring a brand-new "Nightmare Appendix," *Sleep Donation* will keep readers up long into the night and long after haunt their dreams.

NOW A NETFLIX FILM This deluxe eBook edition of *The Guernsey Literary and Potato Peel Pie Society* features more than eighty additional pages of exclusive, author-approved annotations throughout the text to enrich your reading experience. You can access the

eBook annotations with a simple click or tap on your eReader via the convenient links. Access them as you read the novel or as supplemental material after finishing the entire story. There is also Random House Reader's Circle bonus content, sure to inspire discussion at book clubs everywhere. A runaway New York Times bestseller that was named one of the ten best books of the year by Time and USA Today, *The Guernsey Literary and Potato Peel Pie Society* has captivated readers around the world. Told with warmth and humor in a series of letters, this is a tale of finding connection in the most unexpected places. January 1946: As London emerges from the Second World War, writer Juliet Ashton is looking for her next book subject. Who could imagine

that she would find it in a letter from a man she's never met, a native of Guernsey, the British island once occupied by the Nazis? As Juliet begins a remarkable correspondence, she is drawn into the world of this man and his friends, all members of the Guernsey Literary and Potato Peel Pie Society, a book club formed to protect its members from arrest by the Germans. Through their letters, she learns about their island, their taste in books, and the powerful, transformative impact the Occupation has had on their lives. Captivated by their stories, she sets sail for Guernsey. What she finds there will change her forever.
