*The Handbook of Korean Linguistics* Routledge  
A Frequency Dictionary of Korean is an invaluable tool for all learners of Korean, providing a list of the 5000 most frequently used words in the language. Based on the Sejong National Corpora, the largest written and spoken corpora in Korean comprised of 10 million words collected from different genres, the Dictionary provides the user with detailed information for each of the entries, including illustrative examples and English translations. The Dictionary provides a rich resource for language teaching and curriculum design, while a separate CD version provides the full text in a tab-delimited format ideally suited for use by corpus and computational linguists. With entries arranged both by frequency and alphabetically, A Frequency Dictionary of Korean enables students of all levels to get the most out of their study of vocabulary in an engaging and efficient way.

Finally a common sense approach to language learning brought to you by Sunset Books. Idioms are the seasoning of every language and give listeners and speakers a very intimate knowledge of the culture and constructs of the language. This is a one of a kind book that teaches students of both Korean and English languages how to use and understand common idioms heard on TV shows, in movies and in popular music. Users learn how to naturally use idioms that both languages share. Most students of language learn the grammar first and are lost when it

comes to idiomatic expressions like: "that's a piece of cake", meaning: easy. Idioms are the secret key to fully understanding native speech. A Piece of Cake, gives students a great selection of idioms with sentence examples and usage guidelines from a variety of topics like: business, relationships, emotions and more. The research in this book focuses on teaching students by using idioms native to their primarily spoken language. We truly hope you'll master these idioms and be on your way to understanding and speaking English and Korean more naturally.

### **The Local Construction of a Global Language**

Prabhat Prakashan  
This book lists approximately 9,000 core Korean words that can be searched with English equivalents. It's ideal for learners of Korean as a second language who want to communicate more effectively and also for learners of English who know Korean. Korean is written with two different scripts: Hangul and Hanjja (Chinese character). While Hangul is mostly used, Chinese characters should be used in order to clarify meaning

this book provides a foundational understanding in translation theory that is necessary in Korean translation. The Routledge Course in Korean Translation is essential reading for students of Korean at both undergraduate and postgraduate levels interested in translation, as well as for students and researchers with knowledge of Korean who are interested in linguistics, and cultural and communication studies. A Frequency Dictionary of Korean Vecho LLC

Intended as a companion to the popular KLEAR Textbooks in Korean Language series and designed and edited by a leading Korean linguist, this is the first volume of its kind to treat specifically the critical role of language in Korean culture and society. An introductory chapter provides the framework of the volume, defining language, culture, and society and their interrelatedness and presenting an overview of the Korean language vis-à-vis its culture and society from evolutionary and dynamic perspectives. Early on, contributors examine the invention and use of the

Korean alphabet, South Korea's "standard language" vs. North Korea's "cultured language," and Korean in contact with Chinese and Japanese. Several topics representative of Korean socio-cultural vocabulary (sound symbolic words, proverbs, calendar-related terms, kinship terms, slang expressions) are discussed, followed by a consideration of Korean honorifics and other related issues. Two chapters on Korean media, one on advertisements and the other a comparative analysis of television ads in Korea, Japan, and the U.S., follow. Finally, contributors look at salient features of the language, narrative structure, and dialectal variation. All chapters are accompanied by a set of student questions and a useful bibliography. A beginning level of proficiency in Korean is sufficient to digest the Korean examples with facility, making this volume accessible to a wide range of students. Contributors: Andrew S. Byon, Sungdai Cho, Young-A Cho, Young-mee Y. Cho, Miho Choo, Shin Ja J. Hwang, Ross King, Haejin Elizabeth Koh, Jeyseon Lee, Douglas

Ling, Duk-Soo Park, Yong-Yae Park, S. Robert Ramsey, Carol Schulz, Homin Sohn, Susan Strauss, Hye-Sook Wang, Jaehoon Yeon.

### **The Korean Language**

Routledge

This book is a complete guide for people who want to learn the Korean language, starting from the very beginning, and learn the alphabet and the correct sounds of vowels, consonants, and diphthongs. It was written for people who want an easy but systematic approach to the language. The writer is a non-native speaker who started learning the language from ZERO, just like you and spent years in Korea trying to reach a better level of proficiency in Korean. After a few weeks of study, you will study to recognize words, make sentences, and have simple (but miraculous) conversations with other Korean speakers!

Innovative Language

Learning

Start speaking Korean the fun and easy way with Korean For Dummies, a no-nonsense guide to Korean culture and the basics of Korean language. Pick up basic phrases and commonly used words so that you

can converse with Koreans in both business and personal situations. You'll learn Korean for everyday life and task-specific expressions for Korean on the go.  "Edition bilingue coréen-anglais.  
 檀香林出版社 University of Hawaii Press  
 In South Korea, English is a language of utmost importance, sought with an unprecedented zeal as an indispensable commodity in education, business, popular culture, and national policy. This book investigates how the status of English as a hegemonic language in South Korea is constructed through the mediation of language ideologies in local discourse. Adopting the framework of language ideology and its current

developments, it is argued that English in Korean society is a subject of deep-rooted ambiguities, with multiple and sometimes conflicting ideologies coexisting within a tension-ridden discursive space. The complex ways in which these ideologies are reproduced, contested, and negotiated through specific metalinguistic practices across diverse sites ultimately contribute to a local realization of the global hegemony of English as an international language. Through its insightful analysis of metalinguistic discourse in language policy debates, cross-linguistic humor, television shows, and face-to-face interaction, *The Local Construction of a Global Language* makes an original contribution to the study of language and globalization, proposing an innovative analytic approach that bridges the gap between the investigation of large-scale global forces and the study of micro-level discourse practices.

**As Much As a Rat's Tail - Korean Slang, Invective and Euphemism** University of

Hawaii Press This is a comprehensive Korean to English dictionary for language learners. Finally, here is the dictionary that learners have been waiting for: one that specifically answers the needs of English speakers who are studying Korean. Designed for learners who are a elementary to intermediate level, it contains over 5,600 Korean headwords, including the most essential contemporary words, commonly used example phrases, and business and technical terms. Along with refreshingly clear English definitions, the entries are packed with helpful extra details that make learning easier. Included are: 5,633 example sentences given in Hangul, romanizations, and English. English-Korean Word Finder allows two-directional use. Explanations of common idiomatic expressions. Special notes to clarify differences and distinctions that can be challenging for English speakers. Romanization is included for all terms and examples, to assist learners. Extensive notes on grammar and meaning enhance understanding. Especially high-frequency

words are marked. Endings and particles—very important components of the Korean language, but often overlooked in reference materials—are clearly indicated and explained. This dictionary presents, with care and expertise, all the words that are most essential for learners to know.

[Learn Korean - Must-Know Korean Slang Words & Phrases](#) Routledge

Study Korean anywhere anytime with a paperback book! This book lists 8,798 core Korean words with English equivalents including romanized pronunciation. Main entries are in Hangul (Korean alphabet) alphabetically with Chinese characters, if any, followed by romanized Korean pronunciation. Next, in the same line,

parts of speech label, and the entry's English equivalents followed by standard American pronunciation. Foreign words except from China are italicized. [Sample] dom [dom] dome [doum] dop dop neun sa ram [dop] helper [helpər] dop tta [dop] help [help] dot jja ri [dot] mat [mæt] dong [dong] copper [kapər] dong jjok [dong] east [i:st]

Korean is written with two different scripts: Hangul and Hanja (Chinese character). While Hangul is mostly used, Chinese characters must be used in order to clarify meaning and almost 80% of Korean language derives from Chinese characters.\* Please refer to the website for more information.
