This book explores the urban school garden as a bridge between environmental action and thought. As a small-scale response to global issues around access to food and land, urban school gardens promote practical knowledge of farming as well as help renew cultural ideals of shared space and mutual support for the organic, built environment. Through a comprehensive history of school garden practice rooted in Eastern industrial cities, to case studies from four Pacific Rim regions, this book examines the practice and culture of the urban school garden as a central symbol for environmental learning. As poetically described by students, teachers, and community members in both historical and contemporary gardens, the story of the urban school garden inspires a new narrative in connecting learners to the land.

"Latin for the New Millennium, Levels 1 and 2 is a complete introductory course to the Latin language, suitable for both high school and college students, consisting of two volumes, each accompanied by a teacher's manual and students' workbooks. The strategy employed for teaching and learning incorporates the best of both the reading approach and the more abstract grammatical method. The choice of vocabulary in each chapter reflects ancient authors commonly studied for the AP Latin examinations. There are exercises designed for oral use, as well as a substantial core of more conventional exercises in each chapter. The readings, pictures, and supplementary inserts on cultural information illuminate Roman life, civilization, Roman history, and mythology, as well as the continuing use of Latin after antiquity and its vigorous literary tradition in such periods as the Middle Ages and Renaissance. Each chapter also includes derivatives, the influence of Latin vocabulary on English, and selected proverbs or common Latin sayings. Latin for the New Millennium Level 3 builds on the strong foundation of Levels 1 and 2 and provides students an in-depth experience of Caesar, Catullus, Cicero, Horace, Ovid, and Vergil as well as of the Renaissance writer Erasmus. This text provides students an introduction to unadapted Latin literature and builds their literary analysis skills."--adapted from publisher website.

Introduction to Criminal Justice Bolchazy-Carducci Publishers

From the Newbery Medal-winning author of the beloved classic From the Mixed-Up Files of Mrs. Basil E. Frankweiler comes four jewel-like short stories—one for each of the team members of an Academic Bowl team—that ask questions and demonstrate surprising answers. How had Mrs. Olinski chosen her sixth-grade Academic Bowl team? She had a number of answers. But were any of them true? How had she really chosen Noah and Nadia and Ethan and Julian? And why did they make such a good team? It was a surprise to a lot of people when Mrs. Olinski's team won the sixth-grade Academic Bowl contest at Epiphany Middle School. It was an even bigger surprise when they beat the seventh grade and the eighth grade, too. And when they went on to even greater victories, everyone began to ask: How did it happen? It happened at least partly because Noah had been the best man (quite by accident) at the wedding of Ethan's grandmother and Nadia's grandfather. It

happened because Nadia discovered that she could not let a lot of baby turtles die. It happened when Ethan could not let Julian face disaster alone. And it happened because Julian valued something important in himself and saw in the other three something he also valued. Mrs. Olinski, returning to teaching after having been injured in an automobile accident, found that her Academic Bowl team became her answer to finding confidence and success. What she did not know, at least at first, was that her team knew more than she did the answer to why they had been chosen.

The classic New York Times bestseller, with a new introduction by E.J. Dionne Jr. When The Culture of Narcissism was first published in 1979, Christopher Lasch was hailed as a "biblical prophet" (Time). Lasch's identification of narcissism as not only an individual ailment but also a burgeoning social epidemic was groundbreaking. His diagnosis of American culture is even more relevant today, predicting the limitless expansion of the anxious and grasping narcissistic self into every part of American life. The Culture of Narcissism offers an astute and urgent analysis of what we need to know in these troubled times.

#### Age Studies Peter Lang Incorporated, International Academic Publishers

Using engaging stories and a diverse cast of characters, Lisa Wade memorably delivers what C. Wright Mills described as both the terrible and the magnificent lessons of sociology. With chapters that build upon one another, Terrible Magnificent Sociology represents a new kind of introduction to sociology. Recognizing the many statuses students carry, Wade goes beyond race, class, and gender, considering inequalities of all kinds and their intersections. She also highlights the remarkable diversity of sociology, not only of its methods and approaches but also of the scholars themselves, emphasizing the contributions of women, immigrants, and people of color. The book ends with an inspiring call to action, urging students to use their sociological imaginations to improve the world in which they live.
