 What is the desired outcome or goal of a bill? Is the purpose of the bill to encourage a particular type of behavior or to provide tax relief? Proposed changes should have clearly defined goals and outcomes. [...] For example, the goal of increasing the dependent tax credit is to provide tax relief for families, not to encourage families to have additional children. [...] Is the benefit substantial enough to have the desired outcome? If the goal of a proposed change is to encourage a desired behavior, the benefit must be substantial enough to encourage the desired outcome. [...] Is a \$400 property tax break - worth \$288 after accounting for federal

deductibility for a taxpayer in the 28 percent federal income tax bracket-sufficient to encourage construction of a \$40,000 second unit? Or a deduction for the value of a computer donated to a school? A taxpayer claims a deduction equal to 8.84 percent of the value of the computer. [...] However, after adjusting for federal deductibility, the donation is only worth 5.75 percent of the value of the computer for a business subject to the 35 percent federal corporate income tax rate. About the authors: Michael A. York, EA (Michael A. York & Associates, Salt Lake City, UT) literally grew up in a CPA firm - his dad didn't teach him how to fix anything, he taught Michael how to deduct it, and Michael has spent decades focusing on nothing but taxes. Andrew L. Stevens, EA, MBA (Houston Tax Advisors, Houston, TX) began working in that same tax firm in 1999, and has since gone to business school, worked in management consulting, started a business and sold it, all while remaining grounded to his roots in taxes. When Michael and Andrew sat down to compare notes, they started with the question, "What is the best thing we have found to educate clients about tax strategy?" Their answers were identical: relatable stories! No one likes code sections and very few understand tax language, but everyone can relate to (and

remember!) real stories about real people. So they wrote a book full of real stories about how real people save real money on their taxes, and the best part is that you can use these strategies, too!
