The Contemporary Field Of Violence Is The Study Of A

Downloaded from dev.mabts.edu by guest

HAILIE TALAN

The Routledge International Handbook of Domestic Violence and Abuse Emerald Group Publishing
 This edition includes newly contributed and updated articles utilizing the latest research and studies in the areas of violence, abuse, and victims' rights from experts in the field. It has a stronger focus on emerging issues and policies in the field of victimology than other comparable texts. It utilizes the latest research and studies in the areas of violence, abuse, and victims, rights. It focuses on the emerging issues and policies in the fields of victim rights and crime prevention. New 3 Part organization with the more common victimizing crimes first, followed by responses to victimizations, and then newer issues and types of victimizations in Part 3. There is a new chapters on human trafficking and cyber crime. There is a major expansion of the human services response and school victimizations. It is updated throughout with new data and research.

Domestic and Family Violence Routledge

Now in its Second Edition, *Current Controversies on Family Violence* contains thoughtful--often heated--discussions that highlight the most current controversies, research, and policy directions in the family violence area. This volume includes chapters by academic and public policy researchers, therapists, lawyers, victim advocates and educators. Some of the controversies in the First Edition have been deleted while new ones have been added. Chapters in this Second Edition also are shorter and more accessible to readers who are not already experts in family violence.

Contemporary Issues in Domestic Violence SAGE Publications

This book brings together the fields of theatre, gender studies, and psychology/sociology in order to explore the relationships between what happens when women engage in violence, how the events and their reception intercept with cultural understandings of gender, how plays thoughtfully depict this topic, and how their productions impact audiences. Truthful portrayals force consideration of both the startling reality of women's violence — not how it's been sensationalized or demonized or sexualized, but how it is — and what parameters, what possibilities, should exist for its enactment in life and live theatre. These women appear in a wide array of contexts: they are mothers, daughters, lovers, streetfighters, boxers, soldiers, and dominatrixes. Who they are and why they choose to use violence varies dramatically. They stage resistance and challenge normative expectations for women. This fascinating and balanced study will appeal to anyone interested in gender/feminism issues and theatre.

Springer

Literature in the child abuse and child protection arena has tended to adopt either a practice or legal perspective. Drawing on their expertise as researchers and leaders in their field, Julia Davison and Antonia Bifulco offer a comprehensive and cohesive book on child abuse and child protection, drawing on both criminological and psychological perspectives on all forms of child maltreatment and child protection practice together with impacts on the victims. This book considers a range of areas, from definitions of child abuse and discussions of its prevalence, to an examination of the experiences of children in care, to international perspectives on children within the criminal justice system, to the emergence of online child abuse and the increasing awareness of historical abuse. Each chapter draws together key elements in the field, including prevalence and definition, different disciplinary approaches; different practice challenges; international impacts; and technological issues. Brief case studies throughout the book reflect the voice or experience of the child, ensuring that the focus remains on the child at the centre of the abuse. Balancing coverage of theory and research and considering implications for practice and policy, this book will appeal to a range of disciplines, including criminology, psychology, psychiatry, social work and law.

Family Interventions in Domestic Violence Cambridge University Press

This book makes an important contribution to the international understanding of domestic violence

and shares the latest knowledge of what causes and sustains domestic violence between intimate partners, as well as the effectiveness of responses in working with adult and child victims, and those who act abusively towards their partners. Drawing upon a wide range of contemporary research from across the globe, it recognises that domestic violence is both universal, but also shaped by local cultures and contexts. Divided into seven parts: • Introduction. • Theoretical perspectives on domestic violence and abuse. • Domestic violence and abuse across the life-course. • Manifestations of domestic violence and abuse. • Responding to domestic violence and abuse. • Researching domestic violence and abuse. • Concluding thoughts. It will be of interest to all academics and students working in social work, allied health, sociology, criminology and gender studies as well as policy professionals looking for new approaches to the subject.

Rethinking Domestic Violence Routledge

This book is the first to examine gender and violence in Australian literature. It argues that literary texts by Australian women writers offer unique ways of understanding the social problem of gendered violence, bringing this often private and suppressed issue into the public sphere. It draws on the international field of violence studies to investigate how Australian women writers challenge the victim paradigm and figure women's agencies. In doing so, it provides a theoretical context for the increasing number of contemporary literary works by Australian women writers that directly address gendered violence, an issue that has taken on urgent social and political currency. By analysing Australian women's literary representations of gendered violence, this book rethinks victimhood and agency, particularly from a feminist perspective. One of its major innovations is that it examines mainstream Australian women's writing alongside that of Indigenous and minoritised women. In doing so it provides insights into the interconnectedness of Australia's diverse settler, Indigenous and diasporic histories in chapters that examine intimate partner violence, violence against Indigenous women and girls, family violence and violence against children, and the war and political violence.

A Typology of Domestic Violence SAGE Publications

Despite mounting references to the "transgenerational transmission of violence," we still lack a compelling understanding of the linkage between the interpersonal violence of early life and the criminal violence of adulthood. In *Prologue to Violence*, Abby Stein draws on the gripping narratives of 65 incarcerated subjects and extensive material from law enforcement files to remedy this lacuna in both the forensic and psychodynamic literature. In the process, she calls into question prevailing beliefs about criminal character and motivation. For Stein the early trauma to which adult criminals are subjected remains unformulated and, as such, unavailable for reflection. Contrary to common belief, these criminals, especially sex murderers, do not commit their crimes in a rational or fully conscious way. They are not driven by deviant fantasy, their psychopathy is not inborn, and they rarely commit acts of violence "without conscience." Stein's interdisciplinary analysis of her data infuses contemporary relational psychoanalysis with the insights of neuroscience, traumatology, criminology, and cognitive and narrative psychology. A powerful challenge to offender treatment programs to address the shaping impact of childhood trauma rather than merely to "correct" the cognitions of violent offenders, *Prologue to Violence* will be equally compelling to researchers and academics investigating child abuse and adult violence. Its mental health readership will be broad and deep, ranging beyond clinicians who work with offender populations to all therapists who wrestle with experiences of dissociation and aggressive enactment in everyday life.

Handbook of Psychological Approaches with Violent Offenders Springer Publishing Company
 This volume is an interdisciplinary exploration of our understanding of the causes and consequences of violence. Represented in its chapters are noted scholars from a variety of fields including psychology, anthropology, law, and literature. The contributions reflect a broad scope of inquiry and diverse levels of analysis. With an underlying evolutionary theme each of the contributors invoke their separate areas of expertise, offering empirical and theoretical insights to this complex subject.

The multi-faceted aspect of the book is meant to engender new perspectives that will synthesize current knowledge and lead to a more nuanced understanding of an ever timely issue in human behavior. Of additional interest, is a foreword written by world renowned psychologist, Steven Pinker, and an afterword by noted evolutionary scholar, Richard Dawkins.

Victims of Crime Springer Science & Business Media

Every year, millions of women across the world turn to the law to help them live free from intimate partner violence. They engage with child protection services and police and apply for civil protection orders. They seek family court orders to keep their children safe from violent fathers, and take special visa pathways to avoid deportation following their separation from an abuser. Women are often driven to interact with the law to counteract their abuser's myriad legal applications against them. While separation may seem like a solution, often the abuse just gets worse. Countless women who have experienced intimate partner violence are enmeshed in overlapping, complex, and often inconsistent legal processes. They have both fleeting and longer-term connections with the legal system. Women, Intimate Partner Violence, and the Law explores how women from many different backgrounds interact with the law in response to intimate partner violence, over time. Drawing on their experiences of seeking help from the law, this book highlights the many failures of the legal system to provide safety for women and their children. The women's stories show how abusers often harness aspects of the legal process to continue their abuse. Heather Douglas reveals women's complex experiences of using law as a response to intimate partner violence. Douglas interviewed women three times over three years to reveal their journey through the legal process. On occasion, the legal system allowed some women closure. However, circular and unexpected outcomes were a common experience. The resulting book showcases the level of endurance, tenacity, and patience it takes women to seek help and receive protection through law. This book shows how the legal system is failing too often to keep women and their children safe and how it might do better.

Out of the Darkness Routledge

Since the 1970s the issue of intimate partner violence (IPV) has been explained through the patriarchal desire of men to control and dominate women, but this gendered perspective limits both our understanding of IPV and its treatment. Intimate Partner Violence: New Perspectives in Research and Practice is the first book of its kind to present a detailed and rigorous critique of current domestic violence research and practice within the same volume. In this challenging new text, with contributions from the UK, the US, and Canada, the subject is assessed from a more holistic position. It provides a critical analysis of the issue of domestic violence including issues that are often not part of the mainstream discussion. Each of the chapters tackles a different area of research or practice, from a critical review of contemporary topics in domestic violence research, including a critical review of men's use of violence in relationships, a consideration of male victims, IPV within the LGBTQ+ community, perceptions of perpetrators and victims, and IPV within adolescent populations. The second half of the book examines challenges and opportunities for professionals working in the field and includes an analysis of an evidence informed perpetrator programme, the challenges faced working with male victims, and a discussion of the impact of domestic violence on children. Culminating with a series of evidence-based recommendations to bridge the divide between academic and practitioner stakeholders and to inform future working practices, this is an essential resource for students and practitioners alike.

Violence Routledge

This edited volume includes chapters, written by experts in the field, dealing with the social-scientific study of the causes, patterns, and consequences of violent crime and homicide in the contemporary world. The themes range from domestic abuse to racial violence and killings in the United States and across the world.

Violence Against Women Oxford University Press

This open access book draws on a broad study on violence against men, from both male and female partners in Norway, to contribute to the research on intimate partner violence. It identifies similarities in men's experiences and backgrounds, including in their perceptions of their own victimisation. Marianne Inez Lien and Jørgen Lorentzen argue that the traditional gender power model should be modified and supplemented, and propose that we consider violence in terms of psychological supremacy, rather than in terms of femininity and masculinity. Men's Experiences of Violence in Intimate Relationships will appeal to students and scholars across a range of areas including criminology, sociology and family violence, and gender studies.

Intimate Partner Violence, Risk and Security UPNE

Reassesses thirty years of domestic violence research and demonstrates three forms of partner violence, distinctive in their origins, effects, and treatments

Child Abuse and Protection Routledge

Family Violence From a Global PerspectiveSAGE Publications

Intimate Violence Routledge

The past quarter-century has witnessed a dramatic upsurge of violent crime in the United States and abroad. In this country, the rise in violent criminal activity has been consistently documented in such published accounts as the Uniform Crime Reports and the Statistical Handbook on Violence in America, published by the FBI and the Violence Research Group, respectively. Further, social scientists-particularly those working in the fields of sociology and psychology-have provided a convergence of findings attesting to the magnitude of one of today's most significant social problems: domestic violence (e. g. , spouse, child, and elder abuse). Such efforts have served as the impetus for heightened clinical and investigative activity in the area of violent behavior. Indeed, a wide range of mental health experts (such as psychologists, psychiatrists, social workers, counselors, and rehabilitation specialists) have endeavored to focus on strategies and issues in research and treatment for violent individuals and their victims. The purpose of this book is to provide a comprehensive and timely examination of current psychological approaches with violent criminal offenders. Despite the fact that we continue to have much to learn about perpetrators of violent acts, in recent an increasingly large body of empirical data have been adduced about this years issue. However, these data generally have appeared in disparate journals and books. That being the case, it is our belief that such a handbook now is warranted.

Current Controversies on Family Violence Purdue University Press

What impels human beings to harm others -- family members or strangers? And how can these impulses and actions be prevented or controlled? Heightened public awareness of, and concern about, what is widely perceived as a recent explosion of violence -- on a spectrum from domestic abuse to street crime -- has motivated behavioral and social scientists to cast new light on old questions. Many hypotheses have been offered. This volume sorts, structures, and evaluates them. The author draws on contemporary research and theory in varied fields--sociology, clinical psychology, psychiatry, social work, neuropsychology, behavioral genetics, child development, and education--to present a uniquely balanced, integrated, and readable summary of what we currently know about the causes and effects of violence. Throughout, she emphasizes the necessity of distinguishing among different types of violent behavior and of realizing that nature and nurture interact in human development. Controversial issues such as physical punishment and violent television programming receive special attention making this volume an important resource for all those concerned with violent offenders and their victims -- and for their students and trainees. In this third edition of Understanding Violence, author Elizabeth Kandel Englander draws on contemporary research and theory in varied fields to present a uniquely balanced, integrated, and readable summary of what we currently know about the causes and effects of violence, particularly its effect on children. The goal of this textbook is to give a critical review of the most relevant and important areas of research on street and family violence, examining why it is that people become violent. Between 1994 and 2004 the United States benefited from a dramatic decline in rates of violent crime. However, as the economy has weakened in recent years and tougher times have returned, the crime rate has shown signs of a modest

Family Violence Across the Lifespan SAGE

A comprehensive overview of the integrative study of violence Violence continues to be one of the most urgent global public health problems that contemporary society faces. Suicides and homicides are increasing at an alarming rate, particularly in younger age groups and lower-income countries. Historically, the study of violence has been fragmented across disparate fields of study with little cross-disciplinary collaboration, thus creating a roadblock to decoding the underlying processes that give rise to violence and hindering efforts in research and prevention. Violence: An Interdisciplinary Approach to Causes, Consequences, and Cures assembles and organizes current information into one comprehensive volume, introducing students to the multiple sectors, disciplines, and practices that collectively comprise the study of violence. This innovative textbook presents a unified perspective that integrates the sociological, biological, politico-economic, structural, and environmental underpinnings of violence. Each chapter examines a distinct point of learning, beginning with an overview of the content and concluding with discussion questions and an analytical summary. The chapters focus on key domains of research encouraging interdisciplinary investigation and helping students to develop critical analytical skills and form their own conclusions. Fills a significant gap in the field by providing a coherent text that consolidates information on the multiple aspects of violence Examines current legal, medical, public health, and policy approaches to violence prevention and their application within a global context Illustrates how similar causes of violence may have dissimilar manifestations Presents a multidisciplinary examination of the symptoms and underlying processes of violence Offers a thorough yet accessible learning framework to undergraduate and graduate students without prior knowledge of the study of violence More than just an accumulation of facts and data, this essential text offers a broad introduction to a thinking process that can produce rigorous scholarship across disciplines and lead to a deeper understanding of violence in its many forms.

Gender and Sexuality Justice in Asia Springer

This collection, based on papers from the 4th International Family Violence Research Conference, call for a collaborative approach to the study of family violence and examine theory, methodology, assessment, interventions and ethical concerns related to both child and wife abuse.

Family Violence From a Global Perspective Routledge

Contemporary Issues in Domestic Violence is a text book which explores today's domestic violence topics. The fourteen chapters focus on a broad array of domestic violence issues such as LGBT, Elder, Stalking, and Culture specific to name a few. Each chapter offers insight into a specific area while providing the student with material they can both intellectually digest and discuss. The inclusion of exercises and graphics add to the texts teach ability. Students who use this text should not only understand domestic violence issues but also how its impact on our society.

Homicide and Violent Crime Springer

This book brings together a group of innovative scholars examining the contemporary issue of effecting gender and sexuality justice in the context of Asia, consonant with engendering a just, equitable and sustainable development for all. These grassroots initiatives are woven through three complementary sections of the book: gender justice in Asia, sexuality justice in Asia, and finding resolutions through conflict. The book foregrounds strategies that aim to call out and challenge existing gender and sexuality injustices with regard to women and the LGBTIQ+ community by: assessing the efficacy of gender mainstreaming policies through micro-credit schemes for women in East Java, Indonesia; proliferating the signifiers of the hijab (veil) by postmodern Malay-Muslim women or 'Hijabistas' within the consumerist culture of Malaysia; making visible the injustices of the Syariah legal system for non-Muslim women, and ground-breaking legislation that could potentially recognise same-sex marriages in Thailand; privileging the narratives of gay women diplomats within the highly masculinised field of diplomacy in the Asia-Pacific region; foregrounding the narratives of Filipino gay men, intimate partner violence among young Indonesian Christian young people, masculine-identifying lesbians in Singapore, young LGBT people in rural Vietnam, and a Chinese-Muslim Malaysian female-to-male transgender person; and proposing new ways of becoming an inclusive church through the radical act of befriending persons living with HIV and AIDS in Southeast Asia. This book celebrates diverse and inclusive voices and strategies of gender and sexual agents of change in envisioning and bringing to fruition a just and transformative society for all. It is of interest to students and scholars researching gender and sexuality in areas of development studies, international relations, socio-legal studies, and literary studies.
