It's a fact: Acne affects at least 50 million American men and women of all ages, ethnicities, and skin types. Yet so few of us understand why we have acne, and what we can do to treat it. Did I wash my face the wrong way? Did I eat too much chocolate? Will that expensive new cream really work? Will my face ever look better? In *Unblemished*, Drs. Katie Rodan and Kathy Fields -- creators of Proactiv Solution, the country's #1 selling acne-care product -- refute some of the most common misunderstandings about acne and present a groundbreaking guide using only over-the-counter medications to banish breakouts forever. Based on proven medical research and their extensive personal experience treating patients, the Rodan and Fields approach works in three basic steps. Rather than spot-treating blemishes and pimples reactively, their system -- individualized for every skin color, type, and age -- treats the entire face using an easy-to-follow regimen that is designed to attack acne at its source so you can get the clear,

beautiful skin you've always wanted. You can change the face of acne -- and you can change your life.

An essential and comprehensive guide to acne for women of all ages Acne is no longer just a teenage affliction. In fact, dermatologists often refer to it as a woman's disease, and drugstore shelves are filled with acne products specifically geared toward adult women. But how do you choose from the overwhelming selection of treatments? Which products are appropriate to use as you grow older, become pregnant, or enter menopause? How can you work with a dermatologist to get the most out of prescription acne medications? Lydia Preston answers all of these questions and more, with up-to-date information drawn from her years of reporting on dermatology, as well as her own long personal experience with acne. In *Breaking Out*, she shares the wisdom of dozens of doctors and scientists who have devoted their careers to studying and treating acne, including: Guidelines for buying and using over-the-counter products Treatment for acne scars Emergency acne remedies and camouflage tips Alternative treatments, including herbal remedies, acupuncture, dietary approaches, and ways to unlock the mind-skin connection No one has to live with acne or its consequences. *Breaking Out* is an invaluable guide to understanding and combating acne that women of all ages can turn to with confidence.

Acne affects at least 50 million Americans, 80 percent of all people between the ages of 18 and 30, and millions more who are both younger and older. Yet most of us self-medicate -- rushing off to the drugstore to purchase just about anything that promises to help, only to discover nothing really works. Inevitably, we all begin to wonder if the continuing myths and misinformation about acne perpetuated by the media are actually true: Did I wash my face the wrong way? Did I eat too much chocolate? Will that expensive new cream I can't afford really work? Will my face ever look better? Drs. Katie Rodan and Kathy Fields's Proactiv treatment -- the #1 selling acne-care product in America -- has already brought relief to millions. In *Unblemished*, they debunk the misconceptions about acne and present a revolutionary guide to zapping zits forever. After years of studying acne treatment and listening to their patients' concerns, Rodan and Fields formulated The Rodan and Fields Approach, which works in three simple steps. Rather than spot-treating blemishes and pimples reactively, their system -- individualized for every skin type, age, and ethnicity -- treats the entire face using a remarkably simple regimen that really works. Including illustrations, sidebars, and detailed case studies from the doctors' own files, *Unblemished* is a blueprint to renew self- confidence and glowing, healthy skin.
