Get Rich, Don't Bitch "I
don't have time to deal

with my money."
"Managing money and
investing is too
intimidating." "I'm not
a numbers person."
"My husband takes
care of our finances."
"I'm just not good with
money." Jean Chatzky
has heard all the
excuses for why

women don't deal with their finances. She used to make them herself. For the first time, Jean tells you how she made every financial mistake in the book—not paying her bills, going into credit card debt, letting her 401(k) lapse—before finally making the decision to take control of her money and her future. Whether you've made these mistakes or you want to avoid them, if you're ready to take charge of your financial life then this is the book for you. In it, Jean shares these valuable lessons:

- Where to start
- How to decode financial jargon (it's easier than you think)
- How to get over your "I'm not smart enough to deal with money" feelings
- Why being a "good-enough investor" will

make you more money in the long-term (while trying to be a "great investor" will drive you crazy)

- Why you might think you are bad at math, and why that doesn't have to be true
- How (and where) to save your money
- Why women make better investors—and higher returns—than men

Jean is famous for her ability to explain money and investing. In a clear and accessible way, she breaks down all the scariest parts of dealing with money—from investing in stocks to saving for your retirement—to make them doable, easy, and yes, even enjoyable. She also includes throughout a "Map to a Million," great tips on easy and quick financial changes you can make

immediately . . . that really add up! Are You Ready to Be Rich? If you want to get rich, if you want to be wealthier than you are today, you really need to do only four things. That's right, just four things. • You need to make a decent living • You need to spend less than you make • You need to invest the money you don't spend so that it can work as hard for you as you're working for yourself • And you need to protect yourself and this financial world you've built so that a disaster—big or small—doesn't take it all away from you. Everything else is just window-dressing. The fees—and how to avoid them. The advisors—and how to hire them. The deals. The scams. The ins.

The outs. They are all interesting. Some of them are even quite important. But until you have conquered the heart of the matter, they are all minutia. The four cornerstones, by contrast, are the meat and potatoes of your financial life. If you do those things today, you'll start getting rich tomorrow. And once you feel set financially, you'll be able to start focusing on the truly important things in life. —from the Introduction

The Facts of Business Life Apress Lifestyle journalism has experienced enormous growth in the media over the past two decades, but scholars in the fields of journalism and communication studies have so far paid relatively little attention to a field that is still sometimes seen as "not real journalism". There is now an urgent need for in-depth exploration and contextualisation of this field, with its increasing relevance for 21st century consumer cultures. For the first time, this book

presents a wide range of studies which have engaged with the field of lifestyle journalism in order to outline the various political, economic, social and cultural tensions within it. Taking a comparative view, the collection includes studies covering four continents, including countries such as Australia, China, Norway, Denmark, Singapore, the UK and the USA. While keeping the broader lifestyle field in mind, the chapters focus on a variety of sub-fields such as travel, music, food, health, fashion and personal technology journalism. This volume provides a fascinating account of the different facets of lifestyle journalism, and charts the way forward for a more

sustained analysis of the field. This book was originally published as a special issue of Journalism Practice.

Make Money Taking Surveys - Guide to Taking Paid Surveys Online Make Money Taking Surveys - The Book is jam packed with ideas and facts about working from home taking paid surveys. More than 250 sites where you can participate in paid surveys to make money and influence the type of products that are on the market. You will find plenty of tips on how to build a business by taking online surveys, and what you will need to do when you decide to begin taking paid surveys. Why Surveys? You might ask, why

would a company pay for my opinion? The answer is that market research is a cornerstone of sales. When companies develop products their first step is to figure out what consumers want. To do this they often enlist the help of a market research firm. Large corporations will even have their own market research departments to help them find out what consumers want or need. The key to this research lies in finding people willing and able to answer questions about products, lifestyle, and experiences. These companies spend a lot of money making sure that the products they develop will be marketable to consumers, and a chunk of that money

can easily be yours.

entrepreneur in the first place THEN THE FACTS OF BUSINESS LIFE IS FOR YOU!

Written by a successful business owner with four decades of experience, *The Facts of Business Life* is full of real-world concepts that owners must use and embrace if they want to become and stay successful. This multiple award-winning book has been endorsed by some of America's top business leaders, like Steve Forbes and Ken Fisher, and has been recognized as "one of the best five business books of the year" and "a must read for entrepreneurs or those wanting to be one." McBean begins with clear explanations and real-life examples of the seven Facts of Business Life that

every successful business owner knows and executes consistently, including exactly what they are as well as how and when to use them. He then goes on to show how those facts impact on the five levels every successful business passes through, from "Ownership and Opportunity" to "Moving On When It's Time to Go," explaining that while the facts themselves remain the same, as a business becomes successful and moves through its life cycle, the way they are applied must change to fit changing circumstances. But there are even more reasons why this breakthrough business book is a must read, including: Its principles are based on the author's own

experience in starting and running successful businesses in a variety of industries. It shows that the most successful businesspeople create profitable opportunities rather than wait for them to present themselves. It enables readers to analyze the likelihood of their own success based on the characteristics most successful owners have. It reveals the #1 priority for all owners and their employees, and why every owner needs to continually focus on it (Hint: it's not being profitable). It emphasizes that becoming successful is no guarantee that success will last, and that success itself can be a trap that eventually leads to failure. It shows that a business's culture isn't

just a mission statement but also the processes created to operate the business and the employees who implement them. It discusses the steps that must be taken even before a business is started to increase the odds of its becoming a lasting success. It covers every step in a business' life cycle, including the last one, showing that the best time to exit a business is when you don't have to, and that unless you pick that time, someone else will. MANY BUSINESS BOOKS INCREASE THEIR READERS' KNOWLEDGE—THE FACTS OF BUSINESS LIFE NOT ONLY INCREASES THAT KNOWLEDGE, IT SHOWS YOU HOW TO TURN IT INTO PROFITS.
