BRADLEY BEST

Twelve Years A Slave, Illustrated Edition McGraw-Hill Companies

Filled with advice from leading experts in the field, Digital Imaging demystifies computerized art for photographers, artists, and illustrators. The book provides a vital overview of terms and concepts, professional techniques, computer hardware and software, and sources of information and assistance.

The Global Smartphone A. B. Lawal

Midcentury spaces made new: A-Frame homes from rustic to ultra-modern, mountain retreats to seaside getaways. The A-Frame home surged in popularity in the 1950s, and has captured the public's imagination with its playfully modern, steep-sloping roofline ever since. The Modern A-Frame celebrates seventeen diverse accounts of these minimalist cabins reinvented for the twenty-first century. Nostalgic escapes, heritage homes, full-time simplicity, and artists at work categorize the A-frames whose engaging stories are shared. Whether fabricated from a 1960s kit or as a new build via retro inspiration, the variety of styles and homeowners in this photo-driven collection beautifully captures the romance of a classic structure, which beckons to travelers and homebuyers today, just as it did sixty years ago. Perfect for the architectural enthusiast, midcentury-minded designer, or armchair traveler. Ben Rahn has been photographing architecture and interiors for more than twenty years. He founded A-Frame Studio in 2003 out of a desire to combine his love of design with his keen photographic eye. His work has been recognized internationally and has appeared in publications such as Dwell, Wallpaper, Conde Naste Traveller, and more. He lives in Toronto, Canada.

You can choose from thousands of apps to make your Android device do just about anything you can think of -- and probably a few things you'd never imagine. There are so many Android apps available, in fact, that it's been difficult to find the best of the bunch -- until now. Best Android Apps leads you beyond the titles in Android Market's "Top Paid" and "Top Free" bins to showcase apps that will truly delight, empower, and entertain you. The authors have tested and handpicked more than 200 apps and games, each listed with a description and details highlighting the app's valuable tips and special features. Flip through the book to browse their suggestions, or head directly to the category of your choice to find the best apps to use at work, on the town, at play, at home, or on the road. Discover great Android apps to help you: Juggle tasks Connect with friends Play games Organize documents Explore what's nearby Get in shape Travel the world Find new music Dine out Manage your money ...and much more!

Salad Bar Beef Taunton Press

* Chosen as a 2020 Kirkus Prize Finalist for Young Readers' Literature! * A Malaysian folk tale comes to life in this emotionally layered, chilling middle grade debut, perfect for fans of The Book of Boy and The Jumbies. I am a dark spirit, the ghost announced grandly. I am your inheritance, your grandmother's legacy. I am yours to command. Suraya is delighted when her witch grandmother gifts her a pelesit. She names her ghostly companion Pink, and the two quickly become inseparable. But Suraya doesn't know that pelesits have a dark side—and when Pink's shadows threaten to consume them both, they must find enough light to survive . . . before they are both lost to the darkness. Fans of Holly Black's Doll Bones and Tahereh Mafi's Furthermore series will love this ghostly middle grade debut that explores jealousy, love, and the extraordinary power of friendship. [Molvania:A Land Untouched by Modern Dentistry](#) Chronicle Books

Discover amazing things about the world around you. Explore everything from dinosaurs to volcanoes, animals to slime, and rockets to rainbows! Developed by the expert Double Helix team at CSIRO, who also brought you the Hands-On Science books. Puzzles and Projects offers hours of entertainment, sparked by the wonders of science, technology, engineering and maths. Perfect for kids aged 7+.

Puzzles and Projects Penguin

The USA Today bestseller Surprise... your target. Kill... your enemy. Vanish... without a trace. From Pulitzer Prize finalist Annie Jacobsen, the untold story of the CIA's secret paramilitary units. When diplomacy fails, and war is unwise, the president calls on the CIA's Special Activities Division, a highly-classified branch of the CIA and the most effective, black operations force in the world. Originally known as the president's guerrilla warfare corps, SAD conducts risky and ruthless operations that have evolved over time to defend America from its enemies. Almost every American president since World War II has asked the CIA to conduct sabotage, subversion and, yes, assassination. With unprecedented access to forty-two men and women who proudly and secretly worked on CIA covert operations from the dawn of the Cold War to the present day, along with declassified documents and deep historical research, Pulitzer Prize finalist Annie Jacobsen unveils-like never before-a complex world of individuals working in treacherous environments populated with killers, connivers and saboteurs. Despite Hollywood notions of off-book operations and external secret hires, covert action is actually one piece in a colossal foreign policy machine. Written with the pacing of a thriller, SURPRISE, KILL, VANISH brings to vivid life the sheer pandemonium and chaos, as well as the unforgettable human will to survive and the intellectual challenge of not giving up hope that define paramilitary and intelligence work. Jacobsen's exclusive interviews-with members of the CIA's Senior Intelligence Service (equivalent to the Pentagon's generals), its counterterrorism chiefs, targeting officers, and Special Activities Division's Ground Branch operators who conduct today's close-quarters killing operations around the world-reveal, for the first time, the enormity of this shocking, controversial and morally complex terrain. Is the CIA's paramilitary army America's weaponized strength, or a liability to its principled standing in the world? Every operation reported in this book, however unsettling, is legal.

The Girl and the Ghost CSIRO PUBLISHING

A heartening picture book about a young pup who looks different from her siblings and ultimately learns that love, rather than how you look, is what makes a family. Sutton Button has always looked different from her family. While her siblings had short, stout legs, Sutton's legs were long like noodles. And while her siblings had scruffy, yellow fur, Sutton was a tricolor puppy with soft fur. But when others don't believe that Sutton and her siblings are actually related, Sutton starts to wonder if she really belongs in her family at all--until she realizes that her and her family are the same in all the most important ways and that love, rather than what you look like, is what makes a family. With heartwarming text and adorable illustrations, A Family Looks Like Love is a story about the enduring power of love and teaches readers that family comes in all shapes and sizes.

Low Stress Handling, Restraint and Behavior Modification of Dogs and Cats School of Life EVERGREEN combines carefully crafted instruction, high-interest readings, and student models with numerous sequenced practices. This two-volume EVERGREEN COMPACT provides a convenient and portable alternative for instructors who prefer smaller-trim books for their students. The Evergreen Compact instruction book contains all instruction, writing assignments, art, and readings in the regular Evergreen Ninth Edition, but the practices have been moved to the Evergreen Compact Workbook; the workbook contains all practice exercises and visual images that relate to the practices. Each book has its own Annotated Instructor's Edition that provides answers and marginal annotations, Teaching Tips, ESL Tips, and Learning Styles Tips. Important Notice: Media content

Guide to Lighting Harper Collins

"A rollicking history of the telephone system and the hackers who exploited its flaws." —Kirkus Reviews, starred review Before smartphones, back even before the Internet and personal computers, a misfit group of technophiles, blind teenagers, hippies, and outlaws figured out how to hack the world's largest machine: the telephone system. Starting with Alexander Graham Bell's revolutionary "harmonic telegraph," by the middle of the twentieth century the phone system had grown into something extraordinary, a web of cutting-edge switching machines and human operators that linked together millions of people like never before. But the network had a billion-dollar flaw, and once people discovered it, things would never be the same. Exploding the Phone tells this story in full for the first time. It traces the birth of long-distance communication and the telephone, the rise of AT&T's monopoly, the creation of the sophisticated machines that made it all work, and the discovery of Ma Bell's Achilles' heel. Phil Lapsley expertly weaves together the clandestine underground of "phone phreaks" who turned the network into their electronic playground, the mobsters who exploited its flaws to avoid the feds, the explosion of telephone hacking in the counterculture, and the war between the phreaks, the phone company, and the FBI. The product of extensive original research, Exploding the Phone is a groundbreaking, captivating book that "does for the phone phreaks what Steven Levy's Hackers did for computer pioneers" (Boing Boing). "An authoritative, jaunty and enjoyable account of their sometimes comical, sometimes impressive and sometimes disquieting misdeeds." —The Wall Street Journal "Brilliantly researched." —The Atlantic "A fantastically fun romp through the world of early phone hackers, who sought free long distance, and in the end helped launch the computer era." —The Seattle Times

How to Disappear Harper Collins

Build your photography skills step-by-step with an independent photography course that guides you through every aspect of digital photography. Includes advice and stunning images, this e-guide will help you master your photography and image-editing skills, and maximize your artistic talent in as little as 20 weeks. Digital Photography Complete Course uses a combination of tutorials, step-by-step demonstrations, practical assignments, and Q&As to help you understand and use your camera to its full capacity. Choose your own pace to work through the modules—the program is completely customizable to your schedule. As you work through the lessons, test your new knowledge and troubleshoot common issues. With the aid of helpful text and innovative graphics in Digital Photography Complete Course, you'll explore a wide range of genres: Find out how to create landscapes, portraits, still life, and action shots as you discover the full range of your camera and learn how to take professional-looking pictures you'll be proud to display.

Internet of Things (IoT) Springer Nature

This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Digital Imaging for Visual Artists Penguin

Thoroughly updated for new breakthroughs in multimedia. The internationally bestselling *Multimedia: Making it Work* has been fully revised and expanded to cover the latest technological advances in multimedia. You will learn to plan and manage multimedia projects, from dynamic CD-ROMs and DVDs to professional websites. How to Travel Macmillan

This book constitutes the refereed proceedings of the 5th International Conference on Ubiquitous Computing, UbiComp 2003, held in Seattle, WA, USA in October 2003. The 16 revised full papers and 11 technical note papers presented were carefully reviewed and selected from a total of 153 submissions. The papers are organized in topical sections on location and space, modeling and inference, context awareness, new devices and technologies, domestic environments and healthcare, social aspects and privacy, and new interfaces.

The Not So Big House Riverwest Press

A Doody's Core Title 2012 This new illustrated guide to assistive technologies and devices chronicles the use of AT/AD - technology used by individuals with disabilities to perform functions that might otherwise be difficult or impossible. This book empowers people to use assistive technologies to overcome some of their physical or mental limitations and have a more equal playing field. It

includes real-life examples about how people with disabilities are using assistive technology (AT) to assist them in daily tasks, and discusses emotional issues related to AT/AD.

Windows 11 Cengage Learning

How to Behave So Your Dog Behaves takes a scientifically sound yet practical approach to explaining dog behavior and training theory, and then shows you how to apply these concepts so you can train your dog to be well behaved. Written by one of the leading veterinary behaviorists in the country, this revised and expanded edition of the original bestseller features brand new chapters that provide the most up-to-date science of dog behavior and explains key concepts in clear, straightforward language. The user-friendly, full-color instructional drawings enhance the informative text, while the all-positive training advice helps you change undesirable behaviors without resorting to aversive corrections such as yelling, hitting, pushing, or other outdated forms of punishment. Good behavior and problem solving exercises are broken down into easy-to-read "5 Minute" sections, while "Spot" quizzes throughout the text help reinforce your grasp of the material. Science-based methods for observing, understanding, and modifying behavior are applied to everyday situations, offering numerous examples of how training exercises can be turned into fun games for both dogs and owners.

The Age of Surveillance Capitalism Back Bay Books

In this book I give you my honest views on the good and dark sides of Windows 11. There are more features, issues, hacks and tricks hiding in Windows 11 than most people will ever know. I unveiled some of them in this book. I've been a Windows user for over 20 years, and after further exploring two early builds of Windows 11, at first I had to admit that it looks rather nice, and is better than Windows 10. But I soon discovered there's a lot more than meets the eye. So I strongly advise you read this book first to help you decide if you should install or upgrade your OS to Windows 11. These are some of what you'll learn in this book: The new features and major changes since the Windows 11 insider preview was released. Why Microsoft's system health-check application, and the hardware constraints they plan to include in Windows 11 are shameful, and how they can affect your system and you. Why I suspect the rollout of Windows 11 will be relatively slow, and why it will take quite a long time before lots of people start using it. Apps experiencing troubles with Windows 11 and why Microsoft is unable to find a fix. 8 Windows 11 troubles Microsoft is currently investigating. The Microsoft's policy and how it will affect Windows 11 users when Windows 10 support ends on October 14th, 2025. How to quickly and reliably check if your system can run Windows 11. Two methods to install Windows 11 step by step (for Windows and Linux-based systems with backup and restore options for programs and files). A work around to install Windows 11 on non-supported hardware. How to dual boot your PC with Windows 11 and 10 step by step. And so much more...

Digital Photography Complete Course Tfh Publications, Incorporated

NOW A MAJOR MOTION PICTURE FROM FOX 2000 STARRING MILO VENTIMIGLIA, AMANDA SEYFRIED, AND KEVIN COSTNER MEET THE DOG WHO WILL SHOW THE WORLD HOW TO BE HUMAN The New York Times bestselling novel from Garth Stein—a heart-wrenching but deeply funny and ultimately uplifting story of family, love, loyalty, and hope—a captivating look at the wonders and absurdities of human life . . . as only a dog could tell it. "Splendid." —People "The perfect book for anyone who knows that compassion isn't only for humans, and that the relationship between two souls who are meant for each other never really comes to an end. Every now and then I'm lucky enough to read a novel I can't stop thinking about: this is one of them." —Jodi Picoult "It's impossible not to love Enzo." —Minneapolis Star Tribune "This old soul of a dog has much to teach us about being human. I loved this book." —Sara Gruen

Dragnet Nation Open Road + Grove/Atlantic

The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector. Vast wealth and power are accumulated in ominous new "behavioral futures markets," where predictions about our behavior are bought and sold, and the production of goods and services is subordinated to a new "means of behavioral modification." The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a "Big Other" operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and moving analysis lays bare the threats to twenty-first century society: a controlled "hive" of total connection that seduces with promises of total certainty for maximum profit -- at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital future -- if we let it.

A Seed Is Sleepy HarperCollins UK

Advocates the "salad bar beef production model" that is supposed to be "land and farmer friendly."
