Do you have a gun dog and want to have a great time working with your dog and perhaps enter a field trial? Do you want to find a training method where your dog has just as much fun as you do? Do you want to learn how to combine reward based training and field trial training? If so, this is the book for you. Retrieving for All Occasions is an accessible and inspiring book about how you can use the reward based training philosophy in your gun dog training. The book describes an approach to gun dog training that will challenge you to try something new - if you have the desire and will to do so. This book includes over 100 exercises to train a talented spaniel or retriever. The exercises are for introductory field trial classes for

spaniels and retrievers, but this book is also useful for those who have pointers or setters and want to train them for gun dog work.

**Clicker Training for Obedience**

When the complexities of modern living demanded that, for his own protection as well as his master's convenience, the dog be made controllable, the average owner sought advice from the most available source, which was, too often, some local dog-show exhibitor. Not realizing that, excepting a few praiseworthy individuals, these

exhibitors were only superficially concerned with the qualities of use and companionship, an unfortunate dog owner would accept the sight of trophies or ribbons as the credits of an expert. Growing numbers of people and dogs continued to emphasize the advantages of proper dog-behavior and when, in 1935, The American Kennel Club instituted its obedience trials, the competition necessary to focus attention on results and improvement of methods was provided. And something else was observed. It was evident that thorough obedience training does more than assure a dog's response to his master's command; capacities for learning and emotional stability could be increased and integrated as permanent qualities of character. Recently, leading magazines

of both general and specialized nature have made the public aware of the trained dog's potential, and of the recreational possibilities of dog training as a hobby. Interest in dog-training classes and other activities where dogs are dignified by usefulness, rather than merely looked at, is evidence that the dog-training public has outgrown the "make a game" and "tid-bit tossing" techniques that, by not being founded on positive and proper motivations, demonstrate the inadequacy of the master, thus promoting failure of response at those times when control is most needed, as well as contributing to the dog's feeling of insecurity. Dog owners of perspective have come to want the type of obedience upon which a blind person might stake his life, and the

emotional stability that is vital to dogs in the presence of small, unpredictable children. This classic includes the following chapters: Introduction Lesson I. Fables and Foibles Lesson II. Correct Equipment Lesson III. The Foundation Lesson IV. Heeling Lesson V. Sitting Lesson VI. The Automatic Sit Lesson VII. The Sit-Stay Lesson VIII. The Down Lesson IX. Down-Stay Lesson X. Stand-For-Examination Lesson XI. Recall Lesson XII. Finish Lesson XIII. Polishing Lesson XIV. The Throw-Chain Lesson XV. The Light Line Lesson XVI. Don't Lose It—Use It Problems

Toys, treats, and techniques are the focus of this book on dog care, which teaches readers more than a hundred

dog tricks designed to delight and exercise dogs and their owners. Whether one has a difficult dog or a charm-school puppy, part of the fun is how much a pup wants to play. With Dog Tricks in hand, anyone can teach a dog a new set of tricks. Featuring 450 step-by-step, full-color photos, the book first establishes training basics, and then shows how to enhance core training sessions with classic tricks such as “shake hands” and “roll over.” And it covers advanced obedience games; agility training; jumping, retrieving, and digging tricks; flashy frisbee tricks—and useful tricks such as finding the remote, retrieving the newspaper, and cornering the cat. Carrots and Sticks Sunshine Books (MA) Learn to communicate with your dog—using their language “Good

reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the

translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover:

- How you can get your dog to come when called by acting less like a primate and more like a dog
- Why the advice to “get dominance” over your dog can cause problems
- Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief
- How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!”

Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a

completely new way—so as to enrich that most rewarding of relationships.

Training the Best Dog Ever, originally published in hardcover as The Love That Dog Training Program, is a book based on love and kindness. It features a program of positive reinforcement and no-fail techniques that author Dawn Sylvia-Stasiewicz used to train the White House dog, Bo Obama, and each of Senator Ted Kennedy's dogs, among countless others. Training the Best Dog Ever relies on trust and treats, not choke collars; on bonding, not leash-yanking or reprimanding. The five-week training program takes only 10 to 20 minutes of practice a day and works both for puppies and for adult dogs that need to be trained out of bad habits. Illustrated with step-by-step photographs, the book covers hand-feeding; crate and potty

training; and basic cues—sit, stay, come here—as well as more complex goals, such as bite inhibition and water safety. It shows how to avoid or correct typical behavior problems, including jumping, barking, and leash-pulling. Plus: how to make your dog comfortable in the world—a dog that knows how to behave in a vet's office, is at ease around strangers, and more. In other words, the best dog ever.

*Brain Training for Dogs* Dogwise Publishing

Does your dog go bonkers when the doorbell rings or when you grab the leash to take him for a walk? If you find your dog is often difficult to control, you are not alone! The inability to get their dogs to relax and calm down is one of the most common behavioral problems

that dog owners face. This two part book will help you first identify the factors that cause this kind of behavior in dogs and then provides you with eleven key training exercises you can use to help your dog chill out in everyday situations where so many dogs get wild and crazy! First you will learn there are a large number of factors that can all play a part in a dog displaying unruly or unfocused behaviors, and in some cases high levels of stress. Each of the exercises are designed to teach your dog how to calm down, pay attention to you, relax, and respond with a new set of skills to every day situations with confidence and composure. You will improve the

relationship and achieve the ideal dog you always wanted.
