How to Be a Detective

Simon and Schuster

An e-original short story that sets the stage for bestselling author Diane Chamberlain's novel *Necessary Lies* (September 2013). The *First Lie* gives readers an early glimpse into the life of thirteen-year-old Ivy Hart. It's 1958 in rural North Carolina, where Ivy lives with her grandmother and sister on a tobacco farm. As tenant farmers, Ivy and her family don't have much freedom, though she and her best friend, Henry, often sneak away in search of adventure...and their truest selves. But life on the farm takes a turn when Ivy's teenage sister gives birth—all the while maintaining her silence about the baby's father. Soon Ivy finds herself navigating the space between adolescence and adulthood as she tries to unravel a dark web of family secrets and make sense of her ever-evolving life in the segregated South. Advance praise for Diane Chamberlain's *Necessary Lies*: "It will steal your heart."—Katrina

Kittle, author of *The Blessings of the Animals* "An emotional powerhouse." —Mary Alice Monroe, New York Times bestselling author of *Beach House Memories* "Enthralling...[it] transfixed me from the very first pages, and its vivid and sympathetic characters haunted me long after the last."—Christina Schwarz, New York Times bestselling author of *Drowning Ruth* and *Riverboat Roulette* Simon and Schuster Nancy goes undercover at the exclusive Green Club when George's cousin, a candidate for city council, is targeted by a mysterious saboteur who threatens the plans to build a new sports complex. Simultaneous. *A Taxonomy of Love* Simon and Schuster When Tabby Easterland wakes on her twelfth birthday to find herself magically transformed into the twenty-five-year-old "Ms. Mulligan," she must rely on her friends—the southern belle Dolly Hargrave and the urban detective wannabe Kat Dorsett—to help solve the mystery and restore Tabby to her true self before it's too late. *Captive Heart* Simon and Schuster

Reproduction of the original: *Blood Atonement and the Origin of Plural Marriage* by Jr. Joseph F Smith, Richard G. Evans **Discipline and Punish** University-Press.org Based on the TV series *Nancy Drew*, the most-watched new show on the CW! In this prequel novel, the beloved teen sleuth investigates a sinister, once-dormant curse that may be threatening her town once more. This is Nancy Drew for today, perfect for fans of *Riverdale*, *The Chilling Adventures of Sabrina*, and *Stranger Things*! A curse is just a mystery dressed up in a sharp, stern warning. And everyone knows that I love a mystery. Nancy Drew isn't one for ghost stories. So when the annual Horseshoe Bay Naming Day celebration is threatened by eerie warnings of an old curse, Nancy is sure someone—someone human—is behind them. And no way is she letting this person stand in the way of her best friend, Daisy, finally getting her day in the spotlight as the lead in the much-anticipated Naming Day reenactment. But as Nancy begins investigating, the so-called marks of the curse

become bolder...and more sinister. A vandalized locker and ominous notes are one thing, but soon enough lives—including Nancy's own—are at stake. Though the dreams and eerie visions plaguing Nancy are certainly just products of her own mind...right? All old towns have their traditions and histories, but as Nancy will soon discover, they don't always tell the whole story.

Betrayed Simon and Schuster

A YA romance—with a sparkling commercial voice and a dash of science—that explores a relationship over six years. The moment Spencer meets Hope the summer before seventh grade, it's something at first sight. The pair become fast friends, climbing trees and planning world travels. After years of being outshone by his older brother and teased because of his Tourette syndrome, Spencer finally feels like he belongs. But as Hope and Spencer get older and life gets messier, the clear label of "friend" gets messier, too. Through sibling feuds and family tragedies, new relationships and broken hearts, the two grow together and apart, and Spencer, an aspiring

scientist, tries to map it all out using his trusty system of taxonomy. He wants to identify and classify their relationship, but in the end, he finds that life doesn't always fit into easy-to-manage boxes, and it's this messy complexity that makes life so rich and beautiful.
