In an era when corporate and political leaders are using their power to control every aspect of the schooling process in North America, there has been surprisingly little research on the impact of textbook content on students. The contributors of this volume and its partner (*The New Politics of the Textbook: Problematizing the Portrayal of Marginalized Groups in Textbooks*) guide educators, school administrators, academics, and other concerned citizens to unpack the political, social, and cultural influences inherent in the textbooks of core content areas such as math, science, English, and social science. They urge readers to reconsider the role textbooks play in the creation of students' political, social, and moral development and in perpetuating asymmetrical social and economic relationships, where social actors are bestowed unearned privileges and entitlements based upon their race, gender, sexuality, class, religion and linguistic background. Finally, they suggest ways to resist the hegemony of those texts through critical analyses, critical questioning, and critical pedagogies.

 Excerpt from *Human Conduct: A Textbook in General Philosophy and Applied Psychology for Students in High Schools, Academies, Junior Colleges, and for the General Reader* The second distinguishing feature of the work is the effort to emotionalize the instruction. It is not ideas alone, but ideas warmed with emotion, that get carried into action. Hence the author's chief effort was to build up strong impressions and emotionalized 'attitudes rather than merely to give speculative knowledge. This was attempted partly through the use of such arguments and such relative emphasis as are calculated to arouse feeling, and particularly through the use of literary quotations embodied in the text Wherever it seemed that they could contribute toward building up a dynamic attitude. For this reason, too, anything that might tend

to break the force of the impression was avoided. Qualifying phrases which strict scientific accuracy would sometimes require have been omitted for the sake of clearness and emphasis. In conducting this course the teacher should lead in a reaction upon the text. The typical question should not be What does the book say? But Is the author. Right? Give examples from your own experience, How does this principle apply to such and such practical situation? Etc. A number of such questions, supplementary to the text and calling for reaction upon it, is appended to each chapter. It will, of course, be obvious how intimately a work such as this bears upon the vexed problem of moral training in the high school. It undertakes to provide the student with principles for the control of conduct and, as such, constitutes moral instruction in the broadest sense. The author believes that moral instruction in the high school must take on a more systematic and intellectual form than in the grades, but a less philosophical form than in the college, and hopes that this book may be of some service in providing a basis for such instruction. 'Baverstock is to book marketing what Gray is to anatomy; the undisputed champion.' Richard Charkin, Executive Director of Bloomsbury Publishing and President Elect of the International Publishers Association Over four editions, Alison Baverstock's How to Market Books has established itself as the industry standard text on marketing for the publishing industry, and the go-to reference guide for professionals and students alike. With the publishing world changing like never before, and the marketing and selling of content venturing into uncharted technological territory, this much needed new edition seeks to highlight the role of the marketer in this rapidly changing landscape. The new edition is thoroughly updated and offers a radical reworking and reorganisation of the previous edition, suffusing the book with references to online/digital marketing. The book maintains the accessible and supportive style of previous editions but also now offers: a number of new case studies detailed coverage of individual market segments checklists and summaries of key points several new chapters a foreword by Michael J Baker, Professor Emeritus of Marketing, Strathclyde University.

 Most people don't like the sound of their voice - but for some, their vocal and communication habits are holding back professional success. Typical problems include: - Voice pitches too high, nasal, gravelly, etc. - Mumbling, swallowing of words - Speech too soft--people constantly asking to speak up - Speaking too fast - Difficulty making small talk - Difficulty making eye contact - Stage fright - Interrupting others Other books address some of these issues but are not grounded in speech science and professional expertise. With dozens of years under her belt as a Ph.D. speech therapist and pathologist, Carol Fleming can get every reader to the right solutions quickly.

 Empower black boys to dream, believe, achieve Schools that routinely fail Black boys are not extraordinary. In fact, they are all-too ordinary. If we are to succeed in positively shifting outcomes for Black boys and young men, we must first change the way school is "done." That's where the eight in ten teachers who are White women fit in . . . and this urgently needed resource is written specifically for them as a way to help them understand, respect and connect with all of their students. So much more than a call to call to action—but that, too!—*The Guide for White Women Who Teach Black Boys* brings together research, activities, personal stories, and video interviews to help us all embrace the deep realities and thrilling potential of this crucial American task. With Eddie, Ali, and Marguerite as your mentors, you will learn how to: Develop learning environments that help Black boys feel a sense of belonging, nurturance, challenge, and love at school Change school culture so that Black boys can show

up in the wholeness of their selves Overcome your unconscious bias and forge authentic connections with your Black male students If you are a teacher who is afraid to talk about race, that's okay. Fear is a normal human emotion and racial competence is a skill that can be learned. We promise that reading this extraordinary guide will be a life-changing first step forward . . . for both you and the students you serve. About the Authors Dr. Eddie Moore, Jr., has pursued and achieved success in academia, business, diversity, leadership, and community service. In 1996, he started America & MOORE, LLC to provide comprehensive diversity, privilege, and leadership trainings/workshops. Dr. Moore is recognized as one of the nation's top motivational speakers and educators, especially for his work with students K-16. Dr. Moore is the Founder/Program Director for the White Privilege Conference, one of the top national and international conferences for participants who want to move beyond dialogue and into action around issues of diversity, power, privilege, and leadership. Ali Michael, Ph.D., is the co-founder and director of the Race Institute for K-12 Educators, and the author of *Raising Race Questions: Whiteness, Inquiry, and Education*, winner of the 2017 Society of Professors of Education Outstanding Book Award. How to Say No. How to Say No is a lot more than a self help book. It's an extraordinary and interesting read, on how we some-times lose ourselves during the process of life, and how we may need to develop certain tools to find our way back. This book with help you to understand your limits, follow your in-tuition and set boundaries. It will benefit you by giving you the skills to identify your needs and to prioritise what it is you should be taking on. It will lead you towards understanding why you yes when you really mean to say no, and will help you find and develop your own voice. Sometimes, we are so busy looking after everybody else that we forget to value ourselves. This can be seen in the workplace, with a tricky boss, within certain family dynamics and within social groups and friendships. We lose sight of who we are and what our needs are, finding it difficult to say no to working extra hours, lending money or even, lending an ear. How to Say No will teach you how to prioritize, to follow your intuition, to practice self-care, and how to garner respect, and to give respect, in all aspects of life. It will help you set boundaries, to learn the beautiful art of communication, and im-portantly, to know when you should say yes and when you should say no. This book is about finding your own self worth, learning to love yourself again, to value yourself for the good, kind, compassionate and skilled person you are, and allowing yourself to grow, not just physically but emotionally too. It will inspire you to learn, according to your own capacity, and to grow spiritually and emotionally. It will challenge you in ways you need to be challenged, while also, reminding you to love and ac-cept yourself for who you are. More than anything, the words in this book are going to benefit you, helping you grow, emotionally, in ways that you could never imagine. With just a little work, a little self evaluation and a lot of reflection, you are going to grow, How to Say No has been set out in a way that you can read everything in one go, or take your time, chapter by chapter. Settle in, get a pen and paper to make a few notes, and get ready for a journey that is going to change your life. Learn to trust yourself, your intuition and your own voice. Benefits of How To Say No: - Stronger relation-ships Higher self-esteem Higher EQ Self confidence Social suc-cess Work success Skills upliftment Life satisfaction.

Mainstream textbooks present economics as an objective science free from value judgements; that settles disputes by testing hypotheses; that applies a pre-determined body of principles; and contains policy prescriptions supported by a consensus of professional opinion. The Economics Anti-Textbook argues that this is a myth - one which is not only dangerously misleading but also bland and boring. It challenges the mainstream textbooks' assumptions, arguments, models and evidence. It puts the controversy and excitement back into economics to reveal a fascinating and a vibrant field of study - one which is more an 'art of persuasion' than it is a science. The Economics Anti-Textbook's chapters parallel the major topics in the typical text, beginning with a boiled-down account of them before presenting an analysis and critique. Drawing on the work of leading economists, the Anti-Textbook lays bare the blind spots in the texts and their sins of omission and commission. It shows where hidden value judgements are made and when contrary evidence is ignored. It shows the claims made without any evidence and the alternative theories that aren't mentioned. It shows the importance of power, social context and legal framework. The Economics Anti-Textbook is the students' guide to decoding the textbooks and shows how real economics is much more interesting than most economists are willing to let on.

[The University of Oregon Extension Monitor](#) Simon and Schuster Mainstream textbooks present economics as an objective science, free from value judgements. The Microeconomics Anti-Textbook demonstrates this to be a myth - one which serves to make such textbooks not only off-puttingly bland, but also dangerously misleading in their justification of the status quo and neglect of alternatives. In this fully updated and expanded edition of their celebrated book, Professors Rod Hill and Tony Myatt lay out the essentials of each topic in the standard texts in a clear and concise way, before presenting an 'anti-text' analysis and critique. Challenging the assumptions, arguments, and models, Hill and Myatt provide the essential guide to decoding the textbooks, and show that real economics is far more interesting - and subversive - than the simplistic version presented to students.
