A guide to creating vegan versions of pantry staples—from dairy and meat substitutes such as vegan yogurt, mayo, bacon, and cheese, to dressings,

sauces, cookies, and more. Kitchen crafters know the pleasure of making their own staples and specialty foods, whether it's cultured sour cream or a stellar soup stock. It's a fresher, healthier, more natural approach to eating and living. Now vegans who are sick of buying over-processed, over-packaged products can finally join the homemade revolution. Studded with full-color photos, *The Homemade Vegan Pantry* celebrates beautiful, handcrafted foods that don't take a ton of time, from ice cream and pizza dough, to granola and breakfast sausage. Miyoko Schinner guides readers through the techniques for making French-style buttercreams, roasted tomatoes, and pasta without special equipment. Her easy methods make "slow food" fast, and full of flavor. *The Homemade Vegan Pantry* raises the bar on plant-based cuisine, not only for vegans and vegetarians, but also for the growing number of Americans looking to eat lighter and healthier, and anyone interested in a handcrafted approach to food.

2019 James Beard Foundation Book Award Nominee "Black Girl Baking has a rhythm and a realness to it." - Carla Hall, Chef and television personality *Invigorating and Creative Recipes to Ignite Your Senses* For Jerrelle Guy, food has always been what has shaped her—her body, her character, her experiences and her palate. Growing up as the sensitive, slightly awkward child of three in a race-conscious space, she decided early on that she'd rather spend her time eating cookies and honey buns than taking on the weight of worldly issues. It helped her see that good food is the most powerful way to connect, understand and heal. Inspired by this realization, each one of her recipes tells a story. Orange Peel Pound Cake brings back memories of summer days eating Florida oranges at Big Ma's house, Rosketti cookies reimagine the treats her mother ate growing up in Guam, and Plaited Dukkah Bread parallels the braids worked into her hair as a child. Jerrelle leads you on a sensual baking journey using the five senses, retelling and reinventing food memories while using ingredients that make her feel more in control and more connected to the world and the person she has become. Whole flours, less refined sugar and vegan alternatives make it easier to celebrate those sweet moments that made her who she is today. Escape everyday life and get lost in the aromas, sounds, sights, textures and tastes of Black Girl Baking.

Created by the expert hosts of the popular Well-Fed Women Podcast, a step-by-step food and fitness plan for women, that teaches them how to improve their health by changing the quality—not the quantity—of the food they eat. To eat your way to better health, you don't need to limit your calorie intake, or cut out carbs or fat. You don't need to count "points." Better health doesn't come from limits. It comes from focusing on the quality of food that you eat—not the quantity. Instead of limiting your food intake you should be enriching it, argue Noelle Tarr and Stefani Ruper. The popular hosts of the Well-Fed Women Podcast want you to focus on the good things you eat. They want to make sure you get enough food so that your body has the fuel and nourishment it needs to support a healthy, long, and energetic life. Noelle and Stefani know about eating for health firsthand. They, too, struggled with confusing and frustrating medical conditions, including infertility, digestive issues, acne, polycystic ovarian syndrome, hypothyroidism, and anemia. They discovered that the secret to improving wellness was actually more food: they ditched the diet books, calorie counters, and scales, and started eating their way to health. In *Coconuts and Kettlebells*, you'll eat at least 2,000 calories a day thanks to a

delicious selection of dishes that are all gluten-free, grain-free, and paleo. Within those 2,000 calories, setting a minimum intakes of protein, fat, and carbohydrates instead of the usual maximums will ensure that your diet is full of nutrients, while also providing flexibility to enjoy what you're eating. Noelle and Stefani identify the Big Four foods—grains, dairy, vegetable oils, and refined sugar—that cause the most health problems among women. While many diets require you to eliminate these foods entirely, *Coconuts and Kettlebells* provides an easy-to-follow step-by-step program to test these foods and determine which you need to cut back on—and which you don't—to feel better. To help you discover how your body responds to the Big Four, you'll choose from two simple 4-week meal plans: one for the Butter Lover (people who tend to feel more satisfied eating higher ratios of fats) and one for the Bread Lover (people who tend to feel more satisfied eating higher ratios of carbs). Each meal plan comes with a weekly shopping list, a guide to kitchen tools and equipment, and instructions on how to batch cook, meal prep, and stock the pantry. In addition, you'll have access to over 75 gluten-free and paleo-friendly flavor-packed recipes (free of the Big Four foods) for every meal of the day, including: Coconut Chai Latte Kale and Bacon Breakfast Skillet Apple Pie Smoothie Thai Coconut Curry Shrimp Moroccan Lamb Meatballs Shrimp and Cabbage Stir Fry Parsnip and Carrot Fries Mango Jalapeno Salsa Chocolate Cherry Energy Bites Lemon Raspberry Mini Cheesecakes To go along with the meal plans, Noelle and Stefani also provide three 4-week fitness plans tailored to three experience levels: beginner, intermediate, and advanced. All of the workouts can be done anywhere—at your home or on the road—and take no more than thirty minutes. A comprehensive whole body program to get and keep you healthy inside and out, *Coconuts and Kettlebells* provides the knowledge and tools you need to heal in a way that is effortless, rewarding, confidence-boosting, and everlasting. *Coconuts and Kettlebells* is illustrated with color photos throughout.

An instant New York Times bestseller and Reese Witherspoon Book Club pick from beloved author Alice Hoffman—the spellbinding prequel to *Practical Magic*. Find your magic. For the Owens family, love is a curse that began in 1620, when Maria Owens was charged with witchery for loving the wrong man. Hundreds of years later, in New York City at the cusp of the sixties, when the whole world is about to change, Susanna Owens knows that her three children are dangerously unique. Difficult Franny, with skin as pale as milk and blood red hair, shy and beautiful Jet, who can read other people's thoughts, and charismatic Vincent, who began looking for trouble on the day he could walk. From the start Susanna sets down rules for her children: No walking in the moonlight, no red shoes, no wearing black, no cats, no crows, no candles, no books about magic. And most importantly, never, ever, fall in love. But when her children visit their Aunt Isabelle, in the small Massachusetts town where the Owens family has been blamed for everything that has ever gone wrong, they uncover family secrets and begin to understand the truth of who they are. Yet, the children cannot escape love even if they try, just as they cannot escape the pains of the human heart. The two beautiful sisters will grow up to be the memorable aunts in *Practical Magic*, while Vincent, their beloved brother, will leave an unexpected legacy. Alice Hoffman delivers “fairy-tale promise with real-life struggle” (*The New York Times Book Review*) in a story how the only remedy for being human is to be true to yourself. Thrilling and exquisite, real and fantastical, *The Rules of Magic* is “irresistible...the kind of book you race through, then pause at the last forty pages, savoring your final moments with the characters” (*USA TODAY*, 4/4 stars).

Five years ago, popular blogger Brandi Doming of The Vegan 8 became a vegan, overhauling the way she and her family ate after a health diagnosis for her husband. The effects have been life-changing. Her recipes rely on refreshingly short ingredient lists that are ideal for anyone new to plant-based cooking or seeking simplified, wholesome, family-friendly options for weeknight dinners. All of the recipes are dairy-free and most are oil-free, gluten-free, and nut-free (if not, Brandi offers suitable alternatives), and ideally tailored to meet the needs of an array of health conditions. Each of the 100 recipes uses just 8 or fewer ingredients (not including salt, pepper, or water) to create satisfying, comforting meals from breakfast to dessert that your family—even the non-vegans--will love. Try Bakery-Style Blueberry Muffins, Fool 'Em "Cream Cheese" Spinach-Artichoke Dip, Cajun Veggie and Potato Chowder, Skillet Baked Mac n' Cheese, and No-Bake Chocolate Espresso Fudge Cake.

SILVER WINNER for the 2022 Taste Canada Award for Single-Subject Cookbooks *SHORTLISTED for the 2021 Gourmand World Cookbook Award* A sustainable lifestyle starts in the kitchen with these use-what-you-have, spend-less-money recipes and tips, from the friendly voice behind @ZeroWasteChef. In her decade of living with as little plastic, food waste, and stuff as possible, Anne-Marie Bonneau, who blogs under the moniker Zero-Waste Chef, has preached that "zero-waste" is above all an intention, not a hard-and-fast rule. Because, sure, one person eliminating all their waste is great, but thousands of people doing 20 percent better will have a much bigger impact. And you likely already have all the tools you need to begin. In her debut book, Bonneau gives readers the facts to motivate them to do better, the simple (and usually free) fixes to ease them into wasting less, and finally, the recipes and strategies to turn them into self-reliant, money-saving cooks and makers. Rescue a hunk of bread from being sent to the landfill by making Mexican Hot Chocolate Bread Pudding, or revive some sad greens to make a pesto. Save 10 dollars (and the plastic tub) at the supermarket with Yes Whey, You Can Make Ricotta Cheese, then use the cheese in a galette and the leftover whey to make sourdough tortillas. With 75 vegan and vegetarian recipes for cooking with scraps, creating fermented staples, and using up all your groceries before they go bad--including end-of-recipe notes on what to do with your ingredients next--Bonneau lays out an attainable vision for a zero-waste kitchen.
