The studies in this volume are a result of the Social Reconstruction Survey carried out by Nuffield College, Oxford between 1941 and 1944. The

Survey studied the position and prospects of towns or areas in Britain in order to find out what was likely to happen to their industrial development with a view to planning for the post-war location of industry and distribution of population. The result is an invaluable source of empirical material for the study of British industry in the mid twentieth century. Industries covered include: \* Natural Textiles, Artificial Textiles, Carpets, Footwear \* Extensive use of statistical information for imports and exports, production costs, employment figures etc. [The Greatest Works of Gustave Flaubert](#) e-artnow

 This carefully crafted ebook: "Sentimental Education (Autobiographical Novel)" is formatted for your eReader with a functional and detailed table of contents. Sentimental Education is an autobiographical novel. The story focuses on the romantic life of a young man at the time of the French Revolution of 1848. The novel describes the life of a young man (Frédéric Moreau) living through the revolution of 1848 and the founding of the Second French Empire, and his love for an older woman. Flaubert based many of the

protagonist's experiences (including the romantic passion) on his own life. The novel's tone is by turns ironic and pessimistic; it occasionally lampoons French society. The main character, Frédéric, often gives himself to romantic flights of fancy. He is known especially for his debut novel, *Madame Bovary* and for his scrupulous devotion to his style and aesthetics. The celebrated short story writer Maupassant was a protégé of Flaubert.
