Learn leadership from the best—proven insights from the power elite in business, government, and beyond View from the Top brings readers inside the corridors of power and relates the personal stories and powerful findings from the Platinum Study, a groundbreaking study of 550 elite American CEOs, senior government leaders, and nonprofit executives based on ten years of research. The largest study of its kind, the Platinum Study delves into the domains of the elite with stories that illustrate both the use and misuse of power across the landscape of prominent American institutions such as AT&T, Harvard University, Under Armour, JP Morgan Chase, Bain & Company, and

the White House. The book explores not only how leaders wield power, but it also provides readers with insight into applying the strategies of the successful in their own lives. In the United States, only a few thousand individuals make the decisions that influence the lives of over 300 million people. Whether in the government, business, higher education, or the arts, these individuals direct policy and set the terms of national debates, yet remain virtually unknown. *View from the Top* explores the real lives of the elite and the social worlds they inhabit, revealing lessons about influence at the top, and the seven principles that shape those in power. The results of the Platinum Study include unexpected truths such as: Being born into wealth is a poor predictor of leadership success. One program can set you on the path to leadership. It doesn't matter what college you attend. A leader's best work never sees the light of day. Time-crushed executives are better situated than most to manage their family lives. Crisis is the quickest way for a leader to shape an institution. Working longer does not mean working better. The book examines the different paths to power and describes the essence of leadership and the fundamental traits that distinguish a leader from the pack. For anyone seeking to sharpen their leadership skills and impact the world around them, *View from the Top: An Inside Look at How People in Power See and Shape the World* provides the roadmap to taking charge and inspiring change.

Fear has taken on an outsized role in our current cultural and political context. Manufactured threats are advanced with little to no evidence of danger, while real threats are exaggerated for self-interested gain. This steady diet of fear produces unhealthy moral lives, leading many Christians to focus more on the dangers we wish to avoid than the goods we wish to pursue. As a fearful people, we are tempted to make safety our highest good and to make virtues of suspicion, preemption, and accumulation. But this leaves the church ill-equipped to welcome the stranger, love the enemy, or give to those in need. This timely resource brings together cultural analysis and theological insight to explore a Christian response to the culture of fear. Laying out a path from fear to faithfulness, theologian Scott Bader-Saye explores practices that embody Jesus's call to place our trust in him, inviting Christian communities to take the risks of hospitality, peacemaking, and generosity. This book has been revised throughout, updated to connect with today's readers, and includes new discussion questions.

"Mira was hiding in the ladies' room. She called it that, even though someone had scratched out the word ladies' in the sign on the door, and written women's underneath..." So begins the famous feminist novel that follows the transformation of Mira Ward and her circle as the women's movement begins to have an impact on their lives.

Leaving the Atocha Station InterVarsity Press

"A funny, fresh novel about growing up African-American in 1960s Chicago" by an author who "writes like Terry McMillan's kid sister" (Entertainment Weekly). In this hilarious and insightful coming-of-age novel, author April Sinclair introduces the charming Jean "Stevie" Stevenson, a young woman raised on Chicago's South Side during an era of irrevocable social upheaval. Curious and witty, bold but naïve, Stevie grows up debating the qualities of good hair and dark skin. As the years pass, her family and neighborhood are changed by the times, from the War on Poverty to race riots and the assassination of Martin Luther King Jr., from "Black Is Beautiful" to Black Power. Against this remarkable backdrop, Stevie makes the sometimes

harrowing, often comic, always enthralling transformation into a young adult—socially aware, discovering her sexuality, and proud of her identity. "Whether she's dealing with a subject as monumental as the civil rights movement or as intimate as Stevie's first sexual encounters," writes the Los Angeles Times, "Sinclair never fails to make you laugh and never sacrifices the narrative to make a point." Winner of the Carl Sandburg Award from the Friends of the Chicago Public Library and named a best book of the year in young adult fiction by the American Library Association, *Coffee Will Make You Black* is an exquisite portrait of adolescence that will resonate with readers of all ages.

Business as mission has emerged as a significant new model for mission in the twenty-first century. Today's globalized economy has created strategic opportunities for Christian business enterprises in some of the most unlikely corners of the world. In this landmark book, economist Steve Rundle and missiologist Tom Steffen offer their paradigm for the convergence of business and missions—the Great Commission Company. Such companies intentionally create businesses in strategic locations, pursuing profits while remaining unabashedly Christian in their purpose. By establishing authentic businesses that employ local workers among the least-reached peoples of the world, they contribute to the economic health of the immediate community and also provide avenues for both physical and spiritual ministry. In an era where multinational corporations have global influence and impact, the Great Commission Company opens up new possibilities for missions-minded entrepreneurs and businesspeople who want to change the world to the glory of God. This revised and expanded edition provides new and updated case studies of Great Commission Companies in diverse contexts around the world.

Small enough to fit in your pocket, this practical little book will help you change the world as you shop! While we strive to make our vote count every four years, few of us realize that our most immediate power to shape the world is squandered on a daily basis. Every dollar we spend has the potential to create social and environmental change. In fact, it already has. The world that exists today is in large part a result of our purchasing decisions. The Better World Shopping Guide rates hundreds of products and services from A to F, so you can quickly tell the "good guys" from the "bad guys" and ensure your money is not supporting corporations that make decisions based solely on the bottom line. Drawing on decades of meticulous research, this completely revised and updated sixth edition will help you find out who actually "walks the talk" when it comes to: Environmental sustainability Human rights Community involvement Animal protection Social justice Small enough to fit in a back pocket or handbag and organized in a user-friendly format, The Better World Shopping Guide helps you reward companies who are doing good, penalize those involved in destructive activities, and change the world as you shop! Ellis Jones, PhD is the award-winning, bestselling author of five previous editions of The Better World Shopping Guide, and co-author of The Better World Handbook. A scholar of social responsibility, global citizenship, and everyday activism, he has dedicated himself to uncovering practical ways for people to make a difference in the world. He

Adam Gordon is a brilliant, if highly unreliable, young American poet on a prestigious fellowship in Madrid, struggling to establish his sense of self and his relationship to art. What is actual when our experiences are mediated by language, technology, medication, and the arts? Is poetry an essential art form, or merely a screen for the reader's projections? Instead of following the dictates of his fellowship, Adam's "research" becomes a meditation on the possibility of the genuine in the arts and beyond: are his relationships with the people he meets in Spain as fraudulent as he fears his poems are? A witness to the 2004 Madrid train bombings and their aftermath, does he participate in historic events or merely watch them pass him by? In prose that veers between the comic and tragic, the self-contemptuous and the inspired, *Leaving the Atocha Station* is a portrait of the artist as a young man in an age of Google searches, pharmaceuticals, and spectacle. Born in Topeka, Kansas, in 1979, Ben Lerner is the author of three books of poetry *The Lichtenberg Figures*, *Angle of Yaw*, and *Mean Free Path*. He has been a finalist for the National Book Award and the Northern California Book Award, a Fulbright Scholar in Spain, and the recipient of a 2010-2011 Howard Foundation Fellowship. In 2011 he became the first American to win the Preis der Stadt Münster für Internationale Poesie. *Leaving the Atocha Station* is his first novel.

From the glittering ballrooms of Manhattan to the fires of World War I, Danielle Steel takes us on an unforgettable journey in her new novel—a spellbinding tale of war, loss, history, and one woman's unbreakable spirit.... Nineteen-year-old Annabelle Worthington was born into a life of privilege, raised amid the glamour of New York society, with glorious homes on Fifth Avenue and in Newport, Rhode Island. But everything changed on a cold April day in 1912, when the sinking of the Titanic shattered her family and her privileged world forever. Finding strength within her grief, Annabelle pours herself into volunteer work, nursing the poor, igniting a passion for medicine that would shape the course of her life. But for Annabelle, first love, and a seemingly idyllic marriage, will soon bring more grief—this time caused by the secrets of the human heart. Betrayed, and pursued by a scandal she does not deserve, Annabelle flees New York for war-ravaged France, hoping to lose herself in a life of service. There, in the heart of the First World War, in a groundbreaking field hospital run by women, Annabelle finds her true calling, working as an ambulance medic on the front lines, studying medicine, saving lives. And when the war ends, Annabelle begins a new life in Paris—now a doctor, a mother, her past almost forgotten...until a fateful meeting opens her heart to the world she had left behind. Finding strength in the most unlikely of friendships, pulling together the broken fragments of her life, Annabelle will return to New York one more time—this time as a

changed woman, a woman of substance, infused with life's experience, building a future filled with hope...out of the rich soil of the past. Filled with breathtaking images and historical detail, Danielle Steel's new novel introduces one of her most unique and fascinating characters: Annabelle Worthington, a remarkable woman, a good woman, a true survivor who triumphs against overwhelming odds. For Annabelle's story is more than compelling fiction, it is a powerful celebration of life, dignity, and courage—and a testament to the human will to survive.

A Good Woman Dell

A compelling look at the B Corp movement and why socially and environmentally responsible companies are vital for everyone's future. Businesses have a big role to play in a capitalist society.

They can tip the scales toward the benefit of the few, with toxic side effects for all, or they can guide us toward better, more equitable long-term solutions. Christopher Marquis tells the story of the rise of a new corporate form—the B Corporation. Founded by a group of friends who met at Stanford, these companies undergo a rigorous certification process, overseen by the B Lab, and commit to putting social benefits, the rights of workers, community impact, and environmental stewardship on equal footing with financial shareholders. Informed by over a decade of research and animated by interviews with the movement's founders and leading figures, Marquis's book explores the rapid growth of companies choosing to certify as B Corps, both in the United States and internationally, and explains why the future of B Corporations is vital for us all.

Costa Rica is the only full-fledged and totally independent country to be entirely demilitarized. Its military was abolished in 1948, with the keys to the armory handed to the Department of Education. Socially, Costa Rica is a success story. Although 94th in the world for GDP, it is in the top 10 on various measurements of health and well-being. Citizens enjoy high standards of living that include universal access to healthcare, education, and pensions. In addition, the country practices sustainable resource management, such as reforestation and the development of solar and wind power, and it expects to be carbon neutral by 2020. Hunting is illegal. 25% of the landmass is parks and reserves. The government supports universal health care, especially maternal and child health. Costa Rica even has a Blue Zone, an area where people live extraordinarily long, healthy lives. To some extent, Costa Rica is simply lucky: it was largely inaccessible, and it had virtually no precious minerals, therefore it was mostly spared the ravages of predatory colonialism. The Costa Rican people made very good social decisions, ranging from an avowed commitment to social democracy at the national level, to local land distribution to develop stable middle class farmers. But Costa Rica's neighbors have not enjoyed nearly as much peace and prosperity. It is unlikely that Costa Rica's demilitarization and its remarkable social success are coincidental; clearly, something special is going on. Through good luck, good leadership, and good decisions, Costa Rica has become arguably the sanest and most progressive country on earth. This book examines how and why Costa Rica is safe and independent without any military at all, and what the rest of us can learn from its success.
