Easy Pumpkin Carving W. W. Norton

"BUST's hilarious Queen of Crosswords now has men squarely in her crosshairs." - Emily Rems, Managing Editor, BUST Magazine For every woman who has pulled her hair out trying to explain—for the 46th time—the importance of putting the toilet seat down, there's a man snickering, "Someone's on the rag." And this book is for that justifiably furious gal. The war between the sexes has raged for millennia, and It's Not PMS, It's You! is a hilarious, take-no-prisoners reconnaissance mission into the minds and souls of men and the things they do to infuriate women. Beginning with a completely scientific, fairly non-hormonal look at the history of the term "on the rag" and ending with the "Diary of a Break Up in One Full Menstrual Cycle," this lighthearted guide looks at: Who should fund the medical research into why men do what they do. (Hint: It's definitely NOT the government) - How to take a lesson from Hamlet's poor in-law management (Not to self: Don't kill your future father-in-law) - Why men hate to talk about their feelings (with four separate mentions of the word "penis") - An absolutely foolproof method for sustaining a long-term relationship, and why it could kill you

Bad Day in Minsk Random House

James Leininger was just two years old when he began having disturbing nightmares that would not stop. He screamed out in the night: 'Plane on fire!

Little man can't get out!' While nightmares are common among children, what happened next shocked those around him... James began to reveal details of planes and war tragedies that no two-year-old boy could know. His desperate parents were at a loss to help him until he said three things: 'Corsair', 'Natoma' and 'Jack Larsen'. From these tantalising clues, James's parents travelled thousands of miles and spent many long years piecing together these facts to try and find an answer that could end his torment. Finally, despite his mother's fears and his father's staunch Christian beliefs, they found only one possibility to the endless coincidences that surrounded every detail in James's life - that their son was reliving the past life of a World War II fighter pilot. Their touching story is one that will challenge sceptics and confirm the beliefs of those who already believe in life after death.

Bridge from everyday writing to writing in any situation. College students write regularly in personal and social settings, but they often find it challenging to transition successfully to academic contexts. By building from their everyday writing experience, Writing Situations with MyWritingLab prepares students to analyze, navigate, and write effectively in any situation. Author Sid Dobrin presents a rhetorical situation both nuanced and practical, grounded not only in audience, purpose, and context but also impacted by medium, methodology, and relationships among stakeholders. Writing Situations provides a framework and a process for students to apply to any writing project and any situation. Teaching and Learning Experience This program will provide a better teaching and learning experience for you and your students. Robust resources improve students' writing and allow instructors to track results. WithinMyWritingLab, students can measure how well they understand key concepts while faculty can

incorporate rubrics into meaningful assignments, grade based on desired criteria, and analyze class performance through advanced reporting. Pedagogical support helps students develop their writing process. Each project chapter includes five visual features (Road to a Strong Thesis, Side by Side, Mapping Your Situation, Prepare and Respond, and Writing Process Guidelines) that help students analyze, navigate, and respond to diverse writing situations while building an effective writing process. A variety of writing assignments accommodate a range of teaching approaches. Formal assignments in each project chapter include a traditional academic essay, a project focused on using visuals, an online or digital variation, a research-based option, and a "radical revision/ translation" project to turn a print-based essay into a multimodal project. Next generation instructor support. Contextualized and integrated instructor support includes videos, screencasts, PowerPoints, downloads, handouts for each assignment chapter--organized by chapter and housed in one place -- <http://www.pearsonhighered.com/dobrin1einfo/> -- for instructor ease of use.

One of the world's most respected voices on erotic intelligence, Esther Perel offers a bold, provocative new take on intimacy and sex. Mating in Captivity invites us to explore the paradoxical union of domesticity and sexual desire, and explains what it takes to bring lust home. Drawing on more than twenty years of experience as a couples therapist, Perel examines the complexities of sustaining desire. Through case studies and lively discussion, Perel demonstrates how more exciting, playful, and even poetic sex is possible in long-term relationships. Wise, witty, and as revelatory as it is straightforward, Mating in Captivity is a sensational book that will transform the way you live and love.

We now live in a digital society. New digital technologies have had a profound influence on everyday life, social relations, government, commerce, the economy and the production and dissemination of knowledge. People's movements in space, their purchasing habits and their online communication with others are now monitored in detail by digital technologies. We are increasingly becoming digital data subjects, whether we like it or not, and whether we choose this or not. The sub-discipline of digital sociology provides a means by which the impact, development and use of these technologies and their incorporation into social worlds, social institutions and concepts of selfhood and embodiment may be investigated, analysed and understood. This book introduces a range of interesting social, cultural and political dimensions of digital society and discusses some of the important debates occurring in research and scholarship on these aspects. It covers the new knowledge economy and big data, reconceptualising research in the digital era, the digitisation of higher education, the diversity of digital use, digital politics and citizen digital engagement, the politics of surveillance, privacy issues, the contribution of digital devices to embodiment and concepts of selfhood and many other topics. Digital Sociology is essential reading not only for students and academics in sociology, anthropology, media and communication, digital cultures, digital humanities, internet studies, science and technology studies, cultural geography and social computing, but for other readers interested in the social impact of digital technologies.

New York Times Book Review Editor's Choice "More than just a story of an abiding cultural preoccupation, The Longing For Less peels back the commodified husk of minimalism to reveal something surprising and thoroughly alive." -Jenny Odell, author of How to Do Nothing "Less is more": Everywhere we hear the mantra. Marie Kondo and other decluttering gurus promise that shedding our stuff will solve our problems. We commit to cleanse diets and strive for inbox zero. Amid the frantic pace and distraction of everyday life, we covet silence-and airy, Instagrammable spaces in which to enjoy it. The popular term for this brand of upscale austerity, "minimalism," has mostly come to stand for things to buy and consume. But minimalism has richer, deeper, and altogether more valuable gifts to offer. Kyle Chayka is one of our sharpest cultural observers. After spending years covering minimalist trends for leading publications, he now delves beneath this lifestyle's glossy surface, seeking better ways to claim the time and space we crave. He shows that our longing for less goes back further than we realize. His search leads him to the philosophical and spiritual origins of minimalism, and to the stories of artists such as Agnes Martin and Donald Judd; composers such as John Cage and Julius Eastman; architects and designers; visionaries and misfits. As Chayka looks anew at their extraordinary lives and explores the places where they worked-from Manhattan lofts to the Texas high desert and the back alleys of Kyoto-he reminds us that what we most require is presence, not absence. The result is an elegant new synthesis of our minimalist desires and our profound emotional needs.

New York Times bestselling author Christie Craig returns with her next heart-stopping romantic suspense about a woman on the run and the man eager to uncover her secrets -- for readers of Kat Martin, Rebecca Zanetti, and Mary Burton! Police detective Juan Acosta doesn't only carry scars on the outside. He's filled with guilt and anger ever since his undercover job led to the murder of those he loved the most. Now he's living for one thing: revenge. That is, until Juan meets his beautiful new neighbor. Vicki Holloway prides herself on being capable and independent, but her life is turned upside down when her sister Sara is killed by an abusive ex. Fearing for the safety of her niece, Vicki and the little girl go into hiding...resurfacing in Texas with new identities. Juan finds his once-frozen heart thawing around Vicki, but he knows she's hiding something. Juan needs answers, but Vicki isn't talking. She has to keep her secrets if she wants to keep Bell safe, which means resisting her growing feelings for the sexy, scarred man next door. But when Juan's quest for justice brings danger to her door, divulging the truth might be the only thing that keeps her alive. Includes the bonus novella Hot Target by April Hunt!

This family-sized compendium presents 250 of the greatest riddles and puzzles of all time. There are classical logic puzzles, lateral thinking puzzles, "who am I?" riddles, mathematical brain teasers, word ladders, ditloids, and a large selection of illustrated pen and paper, coins, cups, and toothpicks puzzles (please view the preview of this book for a full listing). This is the first time a collection of such breadth has been compiled and formatted especially for e-reader devices. The puzzles have been carefully organized into 25 chapters, and each question is hyperlinked to its solution, to provide utmost ease of navigation. Alongside the world's most famous riddles, are some lesser known gems, and some brand new puzzles, in print here for the first time. Our aim was to create a definitive compendium of riddles and puzzles to bring enjoyment to people of all ages. We hope you will enjoy unraveling them as much as we enjoyed creating and editing them. Here are a handful of sample riddles: Outside the Box Riddles: You need to divide a round birthday cake into eight pieces, so each of your guests will have something to eat. How can you do this by making only three straight cuts with a knife, and without moving any of the pieces? The king's two bodyguards developed an ingenious method for assuring the king's safety. With the king standing between them, they would face in opposite directions; one looking to the west and the other to the east, but at the same time, and without the use of any reflective surfaces, they would both be able to observe the king clearly. How was this possible? Pure Logic Riddles: There are two glasses. One contains water, and the other contains an equal quantity of wine. A teaspoon of water is removed and mixed into the glass of wine. A teaspoon of the wine-water mixture is then removed and mixed into the glass of water. Which of the mixtures is now purer? The sorcerer's tower was enchanted in such a way that it was able to build itself. Bricks, slates, tiles, and panes of glass, all flew to it of their own accord and danced into position. The tower doubled in size every day until after 100 days it reached a height that provided fine views over the entire realm. How many days did the tower take to reach half its full height? Lateral Thinking Puzzles: Five men are going to church. It starts to rain, and four of the men begin to run. When they arrive at the church, the four men who ran are soaking wet, whereas the fifth man, who didn't run, is completely dry. How is this possible? Think Twice Riddles: If you are running a race, and you overtake the person in second place, what place do you move into? Word Riddles: SOS is read the same forwards, backwards, and even upside-down. What four-letter word also shares these properties? Number Puzzlers: How many letters are there in the answer to this question? You have an opportunity to buy a hen. In fact, you have been offered a choice between two quite remarkable animals. One of the hens produces six dozen dozen eggs per month, and the other produces a half dozen dozen. Admittedly, both seem impressive. Does it matter which hen you choose? Traditional Poetic Riddles: Five creatures cross a field of snow; But leave a single track behind Whose loops and bows are soon, I know, Unravell'd by the mind. Coins, Cups, and Toothpicks Illustrated Riddles: A coin is dropped into an empty bottle and a cork is then inserted in the neck of the bottle. How is it possible to remove the coin without taking out the cork, or breaking the bottle? At Elsinore Books we pride ourselves on creating beautiful e-books, and devote great attention to formatting, and ease of navigation. This book contains a cleanly styled contents page that permits easy movement between puzzles. You can return at any time to the contents page by clicking on the name of each chapter.

While indigenous peoples make up around 370 million of the world's population – some 5 per cent – they constitute around one-third of the world's 900 million extremely poor rural people. Every day, indigenous communities all over the world face issues of violence and brutality. Indigenous peoples are stewards of some of the most biologically diverse areas of the globe, and their biological and cultural wealth has allowed indigenous peoples to gather a wealth of traditional knowledge which is of immense value to all humankind. The publication discusses many of the issues addressed by the Declaration on the Rights of Indigenous Peoples and is a cooperative effort of independent experts working with the Secretariat of

the Permanent Forum on Indigenous Issues. It covers poverty and well-being, culture, environment, contemporary education, health, human rights, and includes a chapter on emerging issues.
