Finding Edward Actar D, Inc.

After a hot—and very rare—one-night stand, Rachel Westover knows her life's never going to be the same. For one, she tells everyone at work she's happily married to that sexy fling, Jack Kellerman, to get a promotion. She's never going to see him again, so it's not as if her little white lie is hurting anyone! Of course, she didn't count on her imaginary husband suddenly showing up at her office.... Jack

had been wondering what happened to the gorgeous creature who slipped away from him six months ago. He's always wanted to see her again and find out why. When he finds out everyone thinks they're married, and he's asked to go on Rachel's annual company retreat, Jack can't say no. Spend four days in a secluded cabin with a gorgeous woman? Life doesn't get any better... or any more complicated!

An oral history of the JFK autopsy Anyone

interested in the greatest mystery of the 20th century will benefit from the historic perspective of the attendees of President Kennedy's autopsy. For the first time in their own words these witnesses to history give firsthand accounts of what took place in the autopsy morgue at Bethesda, Maryland, on the night on November 22, 1963. Author William Matson Law set out on a personal quest to reach an understanding of the circumstances underpinning the assassination of John F. Kennedy. His investigation led him to the autopsy on the president's body at the National Naval Medical Center. In the Eye

of History comprises conversations with eight individuals who agreed to talk: Dennis David, Paul O'Connor, James Jenkins, Jerrol Custer, Harold Rydberg, Saundra Spencer, and ex-FBI Special Agents James Sibert and Frances O'Neill. These eyewitnesses relate their stories comprehensively, and Law allows them to tell it as they remember it without attempting to fit any pro- or anticonspiracy agenda. The book also features a DVD featuring these firsthand interviews.

This book brings together in a unique perspective aspects of natural history dioramas, their history, construction and rationale, interpretation and educational importance, from a number of different countries, from the west coast of the USA, across Europe to China. It describes the journey of dioramas from their inception through development to visions of their future. A complementary journey is that of visitors and their individual sense making and construction of their understanding from their own starting points, often interacting with others (e.g. teachers, peers, parents) as well as media (e.g. labels). Dioramas have been, hitherto, a rather neglected area of museum exhibits but a renaissance is beginning for them and their educational importance in contributing to people's understanding of the natural world. This volume showcases how dioramas can reach a wide audience and increase access to biological knowledge.

The Last Lecture The Stationery Office Renowned for Goodbye to a River, his now-classic meditation on the natural and

human history of Texas, as well as for his masterful ability as a prose stylist, John Graves has become the dean of Texas letters for a legion of admiring readers and fellow writers. Yet apart from his own largely autobiographical works, including *Hard Scrabble*, *From a Limestone Ledge*, and *Myself and Strangers*, surprisingly little has been written about Graves's life or his work. John Graves, Writer seeks to fill that gap with interviews, appreciations, and critical essays that offer many new insights into the man himself, as well as the themes and concerns that animate his writing. The volume opens with the transcript of a revealing, often humorous symposium session in which Graves responds to comments and stories from his old friend Sam Hynes, his former student and contemporary art critic Dave Hickey, and co-editor Mark Busby. Following this is a more formal interview of Graves by Dave Hamrick, who draws the author out on issues relating to each of his major works. John Graves's friends Bill Wittliff, Rick Bass, Bill Broyles, John R. Erickson, Bill Harvey, and James Ward Lee speak to the powerful influence that Graves has had on fellow writers. In

addition to these personal observations, nine scholars analyze essential aspects of Graves's work. These include the place of *Goodbye to a River* within environmental literature and how its writing was a rite of passage for its author; Graves as a prose stylist and a literary, rather than polemical, writer; the ways in which Graves's major works present different aspects of a single narrative about our relationship to the land; the question of gender in Graves's work; and Graves's sometimes contentious relationship with *Texas Monthly* magazine. Mark Busby introduces the volume with a critical overview of Graves's life and work, and Don Graham concludes it with a discussion of Graves's reception and literary reputation. A bibliography of works by and about Graves rounds out the book. John Graves, *Writer* confirms Graves's stature not only within Texas letters, but also within American environmental writing, where Graves deserves to be more widely known.

First translation into English on the occasion of the 150th anniversary of the publication of the *General Theory of Urbanization 1867* by Ildefons Cerdà, an essential work on urban development. In 1867 Ildefons Cerdà published his "Teoria general de la urbanització". In this text, the "science of building cities", understood as a phenomenon, became a new discipline with a broad economic, social and cultural impact on the life of the people of the city. Coinciding with 150 years since its publication, its first translation into English is being presented along with the publishing online at urbanization.org with the statistics transformed into interactive graphics and open data, with the aim of expanding the knowledge of Cerdà's work and encouraging debate on the process of "urbanization" in the future. Co-published with the Institute for Advanced Architecture of Catalonia in collaboration with the Diputació de Barcelona, the Generalitat de Catalunya through Incasòl. Bloomberg Philanthropies contributed as a collaborator for the international di usion of the project.

Though The Velvet Underground were critically and commercially unsuccessful in their time, in ensuing decades they have become a constant touchstone in art rock, punk, post-punk, indie, avant pop and alternative rock. In the 1970s and 80s Lou Reed, John Cale and Nico produced a number of works that traveled a path between art and pop. In 1993 the original band members of Reed, Cale, Morrison and Tucker briefly reunited for live appearances, and afterwards Reed, Cale and briefly Tucker, continued to produce music that travelled the idiosyncratic path begun in New York in the mid-1960s. The influence of the band and band members, mediated and promoted through famous fans such as David Bowie and Brian Eno, seems only to have expanded since the

late 1960s. In 1996 the Velvet Underground were inducted into the Rock and Roll Hall of Fame, demonstrating how far the band had traveled in 30 years from an avant-garde cult to the mainstream recognition of their key contributions to popular music. In these collected essays, Pattie and Albiez present the first academic book-length collection on The Velvet Underground. The book covers a range of topics including the band's relationship to US literature, to youth and cultural movements of the 1960s and beyond and to European culture - and examines these contexts from the 1960s through to the present day.

Who is the Antichrist? Bible prophecy of the end time talks about this mysterious figure. Is he the one identified as the "man of sin" and the "false prophet"? Or is there more to the story than that? The answer is deeply personal and forces Christians to examine the very core of their relationship with Jesus Christ. Inside this booklet: - Standing against Christ - Heresies denying Jesus as God in the flesh - A man who would make himself as God - The coming "Abomination of Desolation" - Jesus Christ is coming as conquering King" - What the Bible really says about antichrist - The ultimate antichrist" - Stand strong with Christ

After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. "We cannot change the cards we are dealt, just how we play the hand." —Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was

our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—"Really Achieving Your Childhood Dreams"—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have . . . and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.
