The objectives of corrective justice are affordable housing with reliable running water and electricity; employment for parents and guardians to make a living wage; top-notch tutors for all children who need them; equity in school buildings, personnel, and resources; adequate medical and dental care for all students; and violence-free communities and home lives. These objectives are appropriate in a nation where children recite the words "with liberty and justice for all" at the start of each school day. The authors argue that until corrective justice has been established, high-stakes testing in public schools must be discontinued."--BOOK JACKET.
