ISABEL NIGEL

2020 Guide to Small Business Tax Planning CCH
 Small business taxes taxing you out? For most business owners, their single biggest "expense" (and headache) is dealing with their taxes. And while the just passed Congressional tax bill reduced taxes for many of the estimated 30 million small business owners in the U.S., the nation's taxes continue to be complex. Not being up-to-speed on tax rules and strategies can lead to mistakes that cost business owners thousands of dollars in fines and penalties every year. *Small Business Taxes For Dummies* assists both current and aspiring small business owners with important tax planning issues, including complete coverage of the tax changes taking effect in 2018, creating an ongoing tax routine, dealing with the IRS, and navigating audits and notices. Includes issues influencing incorporated small businesses, partnerships, and LLCs Offers expanded coverage of other business taxes including payroll and sales taxes Provides websites and other online tax resources Gives guidance to millennials juggling multiple gigs If you're a current or aspiring small business owner looking for the most up-to-date tax planning issues, this book keeps you covered.

Business Taxation NOLO

For MBA students and graduates embarking on careers in investment banking, corporate finance, strategy consulting, money management, or venture capital Through integration with traditional MBA topics, *Taxes and Business Strategy*, Fifth Edition provides a framework for understanding how taxes affect decision-making, asset prices, equilibrium returns, and the financial and operational structure of firms. Teaching and Learning Experience This program presents a better teaching and learning experience-for you and your students: *Use a text from an active author team: All 5 authors actively teach the tax and business strategy course and provide students with relevant examples from both classroom and real-world consulting experience. *Teach students the practical uses for business strategy: Students learn important concepts that can be applied to their own lives. *Reinforce learning by using in-depth analysis: Analysis and explanatory material help students understand, think about, and retain information.

Dan Pilla's Small Business Tax Guide John Wiley & Sons

A guide to assist small business owners with important tax planning issues, including coverage of the tax changes taking effect in 2018, creating an ongoing tax routine, dealing with the IRS, and navigating audits and notices.

Review of State Business Taxes Apress

More than a half-million new businesses are started every year by creative, energetic people looking to capitalize on their ideas and ingenuity. Unfortunately, only about 3 out of 10 last more than two years, and only about 50% those make it five years. A key reason small businesses fail is because of IRS problems. The tax code heaps a mountain of reporting, payment, and compliance obligations on small businesses that most business owners don't know anything about. In fact, the Government Accountability Office once counted more than 200 distinct obligations placed on the shoulders of businesses. Can you name all 200? Can you name even 20? If not, you need this book. And since the tax code was changed more than 5,900 times just since 2001, you need this book now more than ever. In the *Small Business Tax Guide*, Dan covers important topics, including: - Identifying the 15 most common mistakes small business make, and how to avoid them - - Whether an LLC, Subchapter S corporation or partnership is best for you - - Everything you need to know about hiring employees and using independent contractors - - How to properly set up and use an office in your home - - How to avoid the IRS's costly "hobby loss" rules - - How to avoid tax penalties that can kill your business - - How to properly deduct business travel and mileage expenses - - Understanding the complex new rules for business meals and entertainment expenses - - Dan's fool-proof record-keeping system to keep you out of trouble with the IRS - - Plus much, much more! It's not enough to be the creative genius behind your company. You also have to keep your company out of trouble with the IRS. Don't get clobbered for violating tax rules you never knew existed. If you currently operate or intend to operate your own small business, you need this important new book right now.

J.K. Lasser's *Small Business Taxes 2014* Taxcafe UK Limited

The Tax Rules Have Changed. Your Business Should, Too. The Tax Cut and Jobs Act of 2017 marks the biggest tax reform in more than 30 years. The changes to the tax code are complex (especially for the small-business owner), but you don't have to go it alone. CPA and Attorney Mark J. Kohler delivers a comprehensive analysis of the new tax and legal structure you desperately need to help make the new tax law work for you. In this revised edition of *The Tax and Legal Playbook*, Kohler reveals clear-cut truths about tax and legal planning and delivers a practical, play-by-play guide that helps you build wealth, save on taxes, and protect your assets. Using real-world case studies, tax-savvy tips, game plans, and discussion points, Kohler coaches you through the complexities of the tax game of the small-business owner. You'll also learn how to: Examine your business needs and pick the right business entity for you Build your personal and corporate credit in eight steps Implement affordable asset protection strategies Take advantage of underutilized business tax deductions Pick the right health-care, retirement, and estate plans Bring on partners and investors the right way Plan for your future with self-directed retirement funds Reading from cover to cover or refer to each chapter as needed, you will come away wiser and better equipped to make the best decisions for your business, your family, and yourself.

It contains over 50 chapters of practical, tried and tested tax saving techniques that your business can implement year-in, year-out, illustrated with easy to follow examples. Even those with substantial tax knowledge will uncover many useful nuggets that will help them pay less income tax, national insurance, VAT, capital gains tax and inheritance tax. The 8th edition was published in September 2020. Subjects covered include: All tax changes announced in the March 2020 Budget and the July 2020 Summer Statement How to claim a bigger tax deduction when you work from home Tax-free salaries for spouses and children (including minor children) How to claim a bigger tax deduction for travel expenses (flights, hotels, meals) How to make your entertainment costs tax deductible Tax saving strategies for e-commerce businesses Capital allowances - how they're calculated and how to maximise your claim Seven chapters on motoring tax issues (cars, vans, fuel, VAT, leasing etc) How to maximise the tax relief on your borrowings Four chapters that will show you how to claim bigger property tax deductions Tax-free benefits that can be paid to your employees Year-end tax saving strategies The pros and cons of changing your accounting date How to pay less VAT Capital gains tax - How to qualify for Entrepreneurs Relief (10% tax) Inheritance tax - Everything you need to know about Business Property Relief Fully revamped chapters on the benefits and drawbacks of using the cash basis

The Tax Bible 5starcooks

Business decision-makers need to think bottom line—and that means after taxes. Drawing upon more than fifty years of professional experience between them, authors and tax experts John Karayan and Charles Swenson deftly show managers how to get to the bottom line without getting bogged down in the details of taxes.

How To Start A Business in New Jersey John Wiley & Sons

Most small business owners and self employed individuals are more concerned about the day to day issues of running your business rather than digging through thousands of pages of IRS publications to learn what deductions they might be entitled to on their tax returns. They also do not have the funds to hire a staff of

tax attorneys to guide them through the maze known as the Internal Revenue Code. This book will be their staff of tax attorneys to guide them, and to provide them with legitimate deductions that they are entitled to take, but have not been doing so. More importantly, this book will give them methods of record keeping shortcuts designed to take less of their time, yet meet all IRS requirements. There is a lot of talk about a flat tax, and perhaps that would be a good thing. The chances of that happening anytime soon is remote, because politicians love to use (or abuse) the tax code to encourage investment, employment and other pet projects for their states. With the change of administration in the White House a few days away at the completion of this book, there will undoubtedly be many changes to the U.S. Tax Code over the coming months. They buyers of this book will be provided a six (6) month membership to taxsaver.co, (LAUNCHING IN JANUARY, 2017) where the author will be providing updates and changes to the Tax Code for its members. This book is designed to provide the reader with a quick reference not only to different deductions available to them, but also reference to the tax code and other authorities that they can use to provide to their tax preparer at tax time to support their deductions. The book covers everything that a small business owner needs to know, from a brief explanation of the tax system, start up deductions and operating expenses. It covers long term asset deductions and how to handle inventory. It amplifies information on the home office deduction, car and truck use in business, how to combine personal and business travel to make both deductible, as well as getting the most out of their ability to deduct meals and entertainment. It also touches on the many miscellaneous deductions that are available. Finally, it explains how to amend previously filed tax returns when the reader learns how much money they have left on the table in those previous returns. We also discuss strategies to avoid audits and how to handle an audit if one comes up. This book will help the reader to fit their business and circumstances to the available deductions, and start saving thousands of dollars in taxes each year which they could be used by you to grow your business. As long as the Tax Code is allowing all of these deductions and perks, why shouldn't the small business owner take advantage of them? They should keep that money to build their own business. And with our record keeping guidance and shortcuts, the owner can make their tax return virtually AUDIT PROOF.

475 Tax Deductions for Businesses and Self-Employed Individuals Entrepreneur Press

Federal and state tax laws are an integral part of business ventures, whether the business is a small sole-proprietorship, partnership or corporate entity. No matter if we like it or not, government, is a business partner which can be a burden, as well as, a useful tool for business growth. The United States Tax Code is very complicated. It is written as the Internal Revenue Code which is Title 26 of the United States Code. The Internal Revenue Code comprises some 10,000 plus pages and is further defined in the Internal Revenue Regulations which is written in some 10,000,000 plus pages. The intent of this book is to provide general guidance to small business. The books chapters provide accounting definitions, regulations and explanation in detail how business is created from its inception and what small business must do in order to be successful. Planning techniques for ongoing business ventures, as well as, retirement planning vehicles are explained. The book takes the business owner from the first day he or she opens their business, through the closure of the business. If the business owner is subjected to an examination by IRS, this book outlines the functions, procedures, rules and regulations that taxpayers and the IRS must follow.

Individuals and Small Business Tax Planning Guide Entrepreneur Press

Tax Strategies for the Small Business Owner: Reduce Your Taxes and Fatten Your Profits will help the small business owner increase profits while feeling more comfortable dealing with taxes. It begins by looking at the often overlooked critical decision small business owners face when they start a business: the choice of business entity. The book then examines all the deductions that a business owner can take legally to reduce taxes. It also provides advice business owners need to make good tax-related decisions: Should I lease or buy? Should I hire an employee or outsource the task? How much will buying a building reduce my taxes and for how long? Many people freeze up when they are forced to prepare or even think about taxes. Some receive a notice from the IRS and put it aside: They're too scared to open it! Yet taxes for the most part follow common sense rules. You just need to know what they are and how they affect your decisions. In this book, readers will learn about the different business entities, the different taxes you must deal with (primarily income taxes), documentation procedures, how to work with a tax professional, how to handle an audit, and, in general, how to use the U.S. Tax Code to your advantage. Among other things, readers learn to take full advantage of tax benefits and avoid potholes hidden in things like: Startup and ongoing expenses Cost of goods sold Depreciation Payroll Retirement plans In short, *Tax Strategies for the Small Business Owner* will not only help you relax when you deal with your taxes—it'll show you how to use tax law to your financial benefit.

Your Business Tax Kit John Wiley & Sons

"This twenty-seventh edition of *A Guide to Starting a Business in Minnesota*, like its predecessors, is intended to provide a concise, summary discussion of the major issues faced by those starting a business in Minnesota. This edition of the Guide contains three major sections: the narrative text; a Resource Directory, which provides addresses and telephone numbers of organizations referenced in the text; and the Directory of Licensed and Permits, which lists all business licenses and permits required by the State of Minnesota, the state agency which issues or administers the license or permit, and a telephone number for obtaining more information. Topics presented in the narrative text are presented in the order in which the new business owner typically must address them."--Preface

While managing hundreds of tax offices throughout the past four decades, author Chuck McCabe, has mentored numerous people who aspired to become independent tax business owners and empowered them to achieve success in this rewarding profession. The book includes the following chapters: 1. Learning Tax Preparation & Obtaining Credentials 2. Developing a Business Plan 3. Risk Management 4. Getting Started as a Tax Business Owner 5. Establishing Your Tax Office 6. Tax Office Operating Systems 7. Buying a Tax Practice 8. Marketing Planning 9. Pricing Your Services 10. Mass Media Advertising 11. Digital Marketing 12. Your Website 13. Social Media Marketing 14. Neighborhood Marketing 15. Client Retention Strategies 16. Recruiting & Training Tax Preparers 17. Employee Pre-work Training 18. Motivating & Retaining Employees 19. Continuing Education (CE) 20. Diversification for Year-round Revenue 21. IRS Circular 230, Due Diligence 22. Peer Support & Tax Professional Associations 23. Helping Your Client Deal with the IRS Accounting Today has recognized the author for multiple years in their *Top 100 Most Influential People in Accounting*. Their foundation for this recognition is: *As a veteran in the tax preparation industry, McCabe had the vision to offer support to other tax business owners who opt to remain independent by providing them with tax education and business skills so they can be successful on their own.* In addition, to facilitate peer support, in 2009, Chuck founded the LinkedIn group, Tax Business Owners of America, that now has nearly 9,000 members Chuck McCabe and his team at The Income Tax School (ITS) are committed to serve and support independent tax business owners. The ITS website www.TheIncomeTaxSchool.com, provides valuable resources, many at no charge, to support tax business entrepreneurs. This book will enable small business entrepreneurs to adopt proven best practices comparable to those used by the national tax firms. - Their goal is to ensure the success of independent tax business owners.

Small Business Taxes For Dummies John Wiley and Sons

Unlocking what drives tax morale - the intrinsic willingness to pay tax - can greatly assist governments in the design of tax policies and their administration, particularly in developing countries where compliance rates are low. This report builds on previous OECD research to identify some of the key socio-economic and institutional drivers of tax morale across developing countries,

and seeks to test for evidence of the social contract by examining the impact of public services on tax morale. It also uses new data on tax certainty as an entry point to explore tax morale in

businesses, where existing research is very limited. Finally, the report identifies a range of factors related to the tax system that may affect business decision making, how they vary across regions, and suggests some areas for future research. Overall, the

report provides a range of suggestions for further work, and how tax morale considerations can be integrated into holistic tax compliance strategies.
