Central Debates in British Politics

Palgrave Macmillan

The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed, the duties of the state, and its role in the wider world. Powerful processes - from the development of democracy, the changing nature of the social contract, war, and economic dislocation - have challenged, and at times threatened to overwhelm,

both governors and governed. Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics. This Handbook shows the ways in which political historians have responded to these challenges, providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies. It comprises thirty-three thematic essays by leading and emerging scholars in the field. Collectively, these essays assess and rethink the nature of modern British political history itself and suggest

avenues and questions for future research. The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought-provoking 'long view' for those interested in current political challenges.

[Sources in British Political History, 1900-1951](#) Routledge

Where and who do we want to be? How might we get there? What might happen if we stay on our current course? In *The Future of British Politics*, comedian Frankie Boyle takes a characteristically acerbic look at some of the forces that will be key

in coming years, from Scottish independence and post-colonial entitlement to big tech surveillance and the looming climate catastrophe. Despite his fears that 'soon the only red tape in this country will be across the finish line of the compulsory Food Bank Olympics', he manages to locate some hopeful signs amid the gloom, reminding us that 'despair is a moment that pretends to be permanent'. This brief but mighty book is one of five that comprise the first set of FUTURES essays. Each standalone book presents the author's original vision of a singular aspect of the future which inspires in them hope or reticence, optimism or fear. Read individually, these essays will inform, entertain and challenge. Together, they form a picture of what might lie ahead, and ask the reader to imagine how we might make the transition from here to there, from now to then.

Devolution and British Politics Oxford University Press

First published in 2003. Routledge is an imprint of Taylor & Francis, an informa company.

[Race, Government and Politics in Britain](#)

Politico's Publishing

Describing key political and economic decisions or events, this book discusses Britain's economic decline in the post war period. It offers an alternative approach to improving its performance, known as the strategic alignment of national and corporate competitiveness.

[The Oxford Handbook of Modern British Political History, 1800-2000](#) Prentice Hall PTR

This student mainstay continues to be organised around constitutional themes, with new material on local elections, the politics of the centre and the limits of state power. Essential for all introductory students of British politics and current affairs.

Democracy and Political Culture Oxford University Press, USA

A history of political debate and theory in England (later Britain) between the English Reformation and French Revolution.

The Politics of Decline Springer
Using a unique dataset spanning fifty years of policy-making in Britain, this book traces how topics like the economy, international affairs, and crime have shifted in importance. It takes a new

approach to agenda setting called focused adaptation, and sheds new light on key points of change in British politics, such as Thatcherism and New Labour.

British Politics Today Hurst Publishers

An exploration of political traditions and their usage in explanations of British politics. This book includes an evaluation of both classical and critical approaches to the British Political Tradition. It also analyses more recent uses of political tradition by Bevir, Rhodes and Marquand.

The Political Geography of Contemporary Britain Palgrave Macmillan

Asking why some politicians succeed in moving into the highest offices of state while others fail, this text examines the relative lack of women, black and working class Members of Parliament, and whether this evident social bias matters for political representation.

[Policy Agendas in British Politics](#) Routledge

This is a succinct, timely introduction to one of the most highly charged political questions which has dominated British politics since 1945: Britain's position in Europe. The study traces the evolution of British policy towards Europe since 1945, presenting the full international context as

well as the impact on domestic party politics - including an analysis of the divisions in the Conservative Party under John Major.

Languages of Politics in Nineteenth-Century Britain MacMillan

As a survey of recent trends in British politics and a study of what governments can achieve, it will be an essential item in reading lists for British politics courses.'

The Times Higher Education Supplement .
British Politics Springer

From 1970 to 1977 a major project to uncover source material for students of contemporary British history and politics was undertaken at the British Library of Political and Economic Science. Financed by the Social Science Research Council, and under the direction of Dr Chris Cook, this project has attempted a unique and systematic operation to locate, and then to make readily available, those archives that provide the indispensable source material for the contemporary historian. This volume (the fifth in the series) provides a guide to the papers of propagandists who were influential in British public life. Included in this volume are the papers of such persons as

newspaper editors, leading economists, social reformers, socialist thinkers, trade unionists, industrialists and a variety of theologians and philanthropists. In all, this volume not only completes the findings of the project but opens up the archive sources of a hitherto neglected area of research into contemporary social and political history.

Austerity and Political Choice in Britain
Routledge

Exploring British Politics is a concise, comprehensive, and accessible guide to the subject. Fully updated and revised, the new edition covers developments since 2016 in the role of the executive, Parliament, the civil service, political parties, general elections, party ideology and membership, as well as examining turmoil and leadership battles within the Labour and Conservative parties, the politics of growing inequality, demographic trends and their political consequences, and the future of the UK itself. Stimulating critical analysis and lively debate, it provides new perspectives on two key themes - the health of British democracy and the transition from traditional models of government to more flexible forms of

'governance'. Key features include: a comprehensive analysis of the 2019 general election, Brexit developments since the 2016 Referendum to today's ongoing negotiations, and the shadow cast by the COVID-19 global pandemic and its implications; topical coverage of the fall of the Corbyn and May leaderships, the new Starmer and Johnson era, the rise and fall of the 'Change UK' party, the economic crisis, the role of special advisers, new social movements such as Extinction Rebellion and Black Lives Matter, and much more; extensive guides to further reading at the end of each chapter; and rich illustrations visually representing examples and data. Whilst the book provides an essential historical background, contemporary issues are to the fore throughout and readers are encouraged to assess critically received wisdoms and develop their own thoughts and ideas. Whether studying the subject for the first time or revisiting it, Exploring British Politics is the ideal undergraduate text.

Exploring British Politics Palgrave
Macmillan

The authors provide a revealing account of

how the making of foreign policy in Britain bypasses the democratic process.

British Political Parties Psychology Press

This work, based on over 60 interviews (between 1986 and 1990) with politicians from each of the major British political parties, is concerned with an examination of the environmentalism/politics interface and how the major parties are responding in real terms to the environmental challenge.

The Death of Consensus Pergamon

The key aim of this new book is to show how economic decline has always been a highly politicised concept, forming a central part of post-war political argument. In doing so, Tomlinson reveals how the term has been used in such ways as to advance particular political causes.

British Political Facts Springer

Central Debates in British

Politics Routledge

Political Participation and Democracy in Britain Springer

New Labour and Secondary Education, 1994-2010 assesses New Labour's policy towards secondary education in Britain. It shows that, in many respects, New Labour education policy was a continuation of the

policies pursued by the education ministers of Margaret Thatcher and John Major.

British Party Politics and Ideology after New Labour Unbound Publishing

The UK's Changing Democracy presents a uniquely democratic perspective on all aspects of UK politics, at the centre in Westminster and Whitehall, and in all the devolved nations. The 2016 referendum vote to leave the EU marked a turning point in the UK's political system. In the previous two decades, the country had undergone a series of democratic reforms, during which it seemed to evolve into a more typical European liberal democracy. The establishment of a Supreme Court, adoption of the Human Rights Act, Scottish, Welsh and Northern Irish devolution, proportional electoral systems, executive mayors and the growth in multi-party competition all marked profound changes to the British political tradition. Brexit may now bring some of these developments to a juddering halt. The UK's previous 'exceptionalism' from European patterns looks certain to continue indefinitely. 'Taking back control' of regulations, trade, immigration and

much more is the biggest change in UK governance for half a century. It has already produced enduring crises for the party system, Parliament and the core executive, with uniquely contested governance over critical issues, and a rapidly changing political landscape. Other recent trends are no less fast-moving, such as the revival of two-party dominance in England, the re-creation of some mass membership parties and the disruptive challenges of social media. In this context, an in-depth assessment of the quality of the UK's democracy is essential. Each of the 2018 Democratic Audit's 37 short chapters starts with clear criteria for what democracy requires in that part of the nation's political life and outlines key recent developments before a SWOT analysis (of strengths, weaknesses, opportunities and threats) crystallises the current situation. A small number of core issues are then explored in more depth. Set against the global rise of debased semi-democracies, the book's approach returns our focus firmly to the big issues around the quality and sustainability of the UK's liberal democracy.

Political Traditions and UK Politics C Q

Press College
Central Debates in British Politics focuses
on British politics in a changing social,

economic and institutional context. The
book explores issues and debates using a
variety of approaches and techniques. It is

written and edited by a team of leading
experts who analyse key issues in a highly
structured and thematic manner.
