 Shortlisted for the SYRCA 2013 Diamond Willow Award, selected as an American Library Association 2012 Notable Children's Book, a Booklist Editors' Choice, nominated for the OLA Golden Oak Tree Award, and a finalist for the Ruth and Sylvia Schwartz Children's Book Awards: Young Adult/Middle Reader Award, the Governor General's Literary Awards: Children's Text and the Canadian Library Association Book of the Year for Children Award There's not much that upsets young Valli. Even though her days are spent picking coal and fighting with her cousins, life in the coal town of Jharia, India, is the only life she knows. The only sight that fills her with terror are the monsters who live on the other side of the train tracks -- the lepers. Valli and the other children throw stones at them. No matter how hard her life is, she tells herself, at least she will never be one of them. Then she discovers that she is not living with family after all, that her "aunt" was a stranger who was paid money to take Valli off her own family's hands. She decides to leave Jharia ... and so begins a series of adventures that takes her to Kolkata, the city of the gods. It's not so bad. Valli finds that she really doesn't need much to live. She can "borrow" the things she needs and then pass them on to people who need them more than she does. It helps that though her bare feet become raw wounds as she makes her way around the city, she somehow feels no pain. But when she happens to meet a doctor on the ghats by the river, Valli learns that she has leprosy. Despite being given a chance to receive medical care, she cannot bear the thought that she is one of those monsters she has always feared, and she flees, to an uncertain life on the street. What do Henry Ford, Thomas Edison, Mae West, Howard Hughes, John Madden, the Partridge Family, Ken Kesey, The Who, and Barbie have in common? Each had a home on wheels--be it an old converted school bus, a massive RV cruiser, or elegant house car. These celebrity motorhomes are only the frosting on the cake in Douglas Keister's entertaining and informative new book *Mobile Mansions*. From the eclectic to the exquisite, the luxurious to the rare, Keister's incredible photography showcases the history and diversity of some of the most historic and lovingly restored RVs on the road today. Keister documents an amazing range of vehicles, including small camp cars from the 1920s, house cars from the 1930s, campers from the 1950s and finally modern-day motorhomes that first emerged in the 1960s. Well-known brands like Winnebago, GMC, and Travco are featured as well as one-of-a-kind vehicles like the Lamsteed Kampcar, built by Anheuser Busch, the Zeppelin House Car, and Buckminster Fuller's Dymaxion car. Step inside a wide variety of motorhomes, from diminutive camp cars to diesel-belching, lumbering leviathans complete with saunas, balconies, and gourmet kitchens. *Mobile Mansions* details this fascinating chapter of America's history with lively text, luscious full color photographs, rare vintage photographs and offers a concise history of the recreational vehicle.

This is Thomas King's first literary novel in 15 years and follows on the success of the award-winning and bestselling *The Inconvenient Indian* and his beloved *Green Grass, Running Water* and *Truth and Bright Water*, both of which continue to be taught in Canadian schools and universities. *Green Grass, Running Water* is widely considered a contemporary Canadian classic. In *The Back of the Turtle*, Gabriel returns to Smoke River, the reserve where his mother grew up and to which she returned with Gabriel's sister. The reserve is deserted after an environmental disaster killed the population, including Gabriel's family, and the

wildlife. Gabriel, a brilliant scientist working for DowSanto, created GreenSweep, and indirectly led to the crisis. Now he has come to see the damage and to kill himself in the sea. But as he prepares to let the water take him, he sees a young girl in the waves. Plunging in, he saves her, and soon is saving others. Who are these people with their long black hair and almond eyes who have fallen from the sky? Filled with brilliant characters, trademark wit, wordplay and a thorough knowledge of native myth and story-telling, this novel is a masterpiece by one of our most important writers.

**Pygmalia---A Contemporary Western Novel** Hogarth  
 Disgracefully, many of the sickest people on the planet have been almost wholly ignored by the medical community. The mold avoidance approach described in this book was developed with the goal of helping these extremely ill and stubbornly treatment-resistant individuals (often described as having myalgic encephalomyelitis, chronic fatigue syndrome, chronic Lyme, fibromyalgia, multiple chemical sensitivity, Gulf War illness, POTS or toxic mold illness). The underlying premise of the approach presented here is that many or all of these individuals suffer from a severe hyperreactivity to certain kinds of mold toxins. This approach suggests that insofar as individuals are reacting to very low levels of these mold toxins, decreasing exposures to a level that does not prompt a reaction will allow movement toward wellness to be achieved. Both of the authors of this book were very sick with this kind of illness for many years and have become mostly recovered as a result of this approach. During recent years,

many other individuals who were very ill with this sort of disease also have experienced major improvements as a result of following this approach. This book is designed to share the basics of the approach with a broader audience, so that more sufferers can learn about it and decide if it might be worth pursuing.

An ambitious, Baileys prize-nominated debut set in an unforgettable place, introducing a powerful new voice in fiction. The Shore: a group of small islands in the Chesapeake Bay, just off the coast of Virginia. The Shore is clumps of evergreens, wild ponies, oyster-shell roads, tumble-down houses, unwanted pregnancies, murder, and dark magic in the marshes. Sanctuary to some but nightmare to others, it's a place that generations of families both wealthy and destitute have inhabited, fled, and returned to for hundreds of years. From a half-Shawnee Indian's bold choice to escape an abusive home only to find herself with a man who will one day try to kill her, to a brave young girl's determination to protect her younger sister as methamphetamine ravages their family, the characters in this remarkable novel have deep connections to the land, and a resilience that only the place they call home could create. Through a series of interconnecting narratives that recalls the work of David Mitchell and Jennifer Egan, Sara Taylor brings to life the small miracles and miseries of

a community of outsiders, and the bonds of blood and fate that connect them all. Spanning over a century, dreamlike and yet impossibly real, profound and playful, The Shore is a breathtakingly ambitious and accomplished work of fiction by a young writer of remarkable promise.

"Readers who choose the book for the attraction of Navajo code talking and the heat of battle will come away with more than they ever expected to find."—Booklist, starred review Throughout World War II, in the conflict fought against Japan, Navajo code talkers were a crucial part of the U.S. effort, sending messages back and forth in an unbreakable code that used their native language. They braved some of the heaviest fighting of the war, and with their code, they saved countless American lives. Yet their story remained classified for more than twenty years. But now Joseph Bruchac brings their stories to life for young adults through the riveting fictional tale of Ned Begay, a sixteen-year-old Navajo boy who becomes a code talker. His grueling journey is eye-opening and inspiring. This deeply affecting novel honors all of those young men, like Ned, who dared to serve, and it honors the culture and language of the Navajo Indians. An ALA Best Book for Young Adults "Nonsensational and accurate, Bruchac's tale is quietly inspiring..."—School Library Journal
