Cosmopolitan: A Bartender's Life is a memoir of the bartending life structured as a day in the life at Passerby, the bar owned and run by Toby Cecchini. It is, as well, a rich study of human nature—of the sometimes annoying, sometimes outlandish behavior of the human animal under the influence of alcohol, lust, and the sheer desire to bust loose and party. It's not a pretty picture, but it's always compelling through the gimlet-eyed gaze of the author. As his typical day progresses, from the almost pastoral quiet of opening the bar and setting up to the gathering rush of customers dropping in after work to the sheer madness of catering to a crazed crush of funseekers, Toby Cecchini muses over a life spent in the service industry and the fascinating particulars of his chosen profession. Topics touched on include dealing with regulars, both welcome and not; sex and the bartender; cocktail connoisseurs (and drinks he refuses to make); learning the bartending ropes of the Odeon when young and newly arrived in New York; the sheer man-killing pace of keeping those drinks coming at flood tide; and the manifold varieties of weirdness and bad behavior that every bartender has to learn how to manage. *Cosmopolitan: A Bartender's Life* is the hip, behind-the-scenes look at the frenzied yet undeniably fun atmosphere of that great establishment—the bar—and Toby Cecchini is, by turns, witty, acute, mordant, and lyrical in

dealing with the realities of his job, shedding plenty of light on the hidden corners of what people do when they go out at night.

Created by Natan Last, a senior at Brown University, three-time intern with Will Shortz, and in 2008 the youngest person to have a puzzle published in the Sunday New York Times, Word kicks the crossword puzzle squarely into the 21st century for a new generation of puzzle-lovers, replacing fusty crossword-ese with hip cultural references, modern wordplay, and a lively mix of high-and-low-brow pop trivia. A Word puzzle begins with the shared knowledge of a literate but not-so-reverent generation, and celebrates the knowingness with a deft touch. Your parents' crosswords make solvers feel smart. Word puzzles make solvers feel smart and cool, getting the references to The Daily Show, Mario Brothers, the Goo Goo Dolls, and a hefty dose of nostalgia (the name of the motel in Psycho). But they also know the core curriculum: Charlotte Bronte's Jane, Roman generals, Berlioz and von Bismarck, Homer—and not just Homer Simpson. The puzzles are constructed with all the smarts of a daily Times crossword: themes, interconnected clues, titles that unlock the overall puzzle (solve all the clues and the circle letters will spell out a famous name at Hogwarts). Assisting Mr. Last is a group of five more top “under 25” constructors, all of whom have published puzzles in The New York Times.

The Jungle portrays the harsh conditions and exploited lives of immigrants in the United States in Chicago and similar industrialized cities. The book depicts working-class poverty, the lack of social supports, harsh and unpleasant living and working conditions, and a hopelessness among many workers. The primary purpose of the novel in describing the meat industry and its working conditions was to advance socialism in the United States. The main character in the book, Jurgis Rudkus, a Lithuanian immigrant, tries to make ends meet in Chicago. The book begins with his wife Ona and his wedding feast. He and his family live near the stockyards and meatpacking district where many immigrants, who do not know much English, work. He takes a job at Brown's slaughterhouse. Jurgis had thought the US would offer more freedom, but he finds working-conditions harsh. He and his young wife struggle to survive as they fall deeply into debt and become prey to con men. Hoping to buy a house, they exhaust their savings on the down payment for a substandard slum house, which they cannot afford. The family is eventually evicted after their money is taken.

The former owner/proprietor of the beloved appetizing store on Manhattan's Lower East Side tells the delightful, mouthwatering story of an immigrant family's journey from a pushcart in 1907 to “New York's most hallowed shrine to the miracle of caviar, smoked salmon, ethereal herring, and silken chopped liver” (The New York Times Magazine). When Joel Russ started peddling herring from a barrel shortly after his arrival in America from Poland, he could not have imagined that he was giving birth to a gastronomic legend. Here is the story of this “Louvre of lox” (The Sunday Times, London): its humble beginnings, the struggle to keep it going during the Great Depression,

the food rationing of World War II, the passing of the torch to the next generation as the flight from the Lower East Side was beginning, the heartbreaking years of neighborhood blight, and the almost miraculous renaissance of an area from which hundreds of other family-owned stores had fled. Filled with delightful anecdotes about how a ferociously hardworking family turned a passion for selling perfectly smoked and pickled fish into an institution with a devoted national clientele, Mark Russ Federman's reminiscences combine a heartwarming and triumphant immigrant saga with a panoramic history of twentieth-century New York, a meditation on the creation and selling of gourmet food by a family that has mastered this art, and an enchanting behind-the-scenes look at four generations of people who are just a little bit crazy on the subject of fish. From the award-winning champion of culinary simplicity who gave us the bestselling *How to Cook Everything* and *How to Cook Everything Vegetarian* comes *Food Matters*, a plan for responsible eating that's as good for the planet as it is for your weight and your health. We are finally starting to acknowledge the threat carbon emissions pose to our ozone layer, but few people have focused on the extent to which our consumption of meat contributes to global warming. Think about it this way: In terms of energy consumption, serving a typical family-of-four steak dinner is the rough equivalent of driving around in an SUV for three hours while leaving all the lights on at home. Bittman offers a no-nonsense rundown on how government policy, big business marketing, and global economics influence what we choose to put on the table each evening. He demystifies buzzwords like "organic," "sustainable," and "local" and offers straightforward, budget-conscious advice that will help you make small changes that will shrink your carbon footprint -- and your waistline. Flexible, simple, and non-doctrinaire, the plan is based on hard science but gives you plenty of leeway to tailor your food choices to your lifestyle, schedule, and level of commitment. Bittman, a food writer who loves to eat and eats out frequently, lost thirty-five pounds and saw marked improvement in his blood levels by simply cutting meat and processed foods out of two of his three daily meals. But the simple truth, as he points out, is that as long as you eat more vegetables and whole grains, the result will be better health for you and for the world in which we live. Unlike most things that are virtuous and healthful, Bittman's plan doesn't involve sacrifice. From Spinach and Sweet Potato Salad with Warm Bacon Dressing to Breakfast Bread Pudding, the recipes in *Food Matters* are flavorful and sophisticated. A month's worth of meal plans shows you how Bittman chooses to eat and offers proof of how satisfying a mindful and responsible diet can be. Cheaper, healthier, and socially sound, *Food Matters* represents the future of American eating. The fiftieth anniversary edition of the essay that is now recognized as the first major work of feminist art theory—published together with author Linda Nochlin's reflections three decades later. Many scholars have called Linda Nochlin's seminal essay on women artists the first real attempt at a feminist history of art. In her revolutionary essay, Nochlin refused to answer the question of why there had been no “great women artists” on its own corrupted terms, and instead, she dismantled the very concept of greatness, unraveling the basic assumptions that created the male-centric genius in art. With unparalleled insight and wit, Nochlin questioned the acceptance of a white male viewpoint in art history. And future freedom, as she saw it, requires women to leap into the unknown and risk demolishing the art world's institutions in order to rebuild them anew. In this stand-alone anniversary edition, Nochlin's essay is published alongside its reappraisal, “Thirty Years After.” Written in an era of thriving feminist theory, as well as queer theory, race, and postcolonial studies, “Thirty Years After” is a striking reflection on the emergence of a whole new canon. With reference to Joan Mitchell, Louise Bourgeois, Cindy Sherman, and many more, Nochlin diagnoses the state of women and art with unmatched precision and verve. “Why Have There Been No Great Women Artists?” has become a slogan and rallying cry that resonates across culture and society. In the 2020s, Nochlin's message could not be more urgent: as she put it in 2015, “There is still a long way to go.”

From a Pulitzer Prize-winning investigative reporter at The New York Times comes the troubling story of the rise of the processed food industry -- and how it used salt, sugar, and fat to addict us. *Salt Sugar Fat* is a journey into the highly secretive world of the processed food giants, and the story of how they have deployed these three essential ingredients, over the past five decades, to dominate the North American diet. This is an eye-opening book that demonstrates how the makers of these foods have chosen, time and again, to double down on their efforts to increase consumption and profits, gambling that consumers and regulators would never figure them out. With meticulous original reporting, access to confidential files and memos, and numerous sources from deep inside the industry, it shows how these companies have pushed ahead, despite their own misgivings (never aired publicly). *Salt Sugar Fat* is the story of how we got here, and it will hold the food giants accountable for the social costs that keep climbing even as some of the industry's own say, "Enough already."
