We live in a world populated not just by individuals but by figures, those larger-than-life people who in some way express and challenge our conventional understandings of social types. This innovative and collaborative work takes up the wide range of figures that populate the social and cultural imaginaries of contemporary Southeast Asia—some familiar only in specific places, others recognizable across the region and even globally. It puts forward a series of ethnographic portraits of figures that represent and give voice to something larger than themselves, offering a view into social life that is at once highly particular and general. They include the Muslim Television Preacher in Indonesia, Miss Beer Lao, the Rural DJ in Thailand, the Korean Soap Opera Junkie in Burma, the Filipino Seaman, and the Photo Retoucher in Vietnam. *Figures of Southeast Asian Modernity* brings together the fieldwork of over eighty scholars and covers the nine major countries of the region: Burma (Myanmar), Cambodia, Indonesia, Laos, Malaysia, the Philippines, Singapore, Thailand, and Vietnam. An introduction outlines important social transformations in Southeast Asia and key theoretical and methodological innovations that result from ethnographic attention to the study of key figures. Each section begins with an introduction by a country editor followed by short essays offering

vivid and intimate portraits set against the background of contemporary Southeast Asia. The result is a volume that combines scholarly rigor with a meaningful, up-to-date portrayal of a region of the world undergoing rapid change. A reference bibliography offers suggestions for further reading. *Figures of Southeast Asian Modernity* is an ideal teaching tool for introductory classes to Southeast Asia studies, anthropology, and geography.

The mountains of the Mediterranean world are now largely ice free, but many were repeatedly glaciated during the Quaternary ice age. This created spectacular glaciated landscapes with a rich array of glacial deposits and landforms. The glacial and glacio-fluvial records are often very well preserved and our understanding of the timing of Quaternary glaciation has very recently been transformed through the application of dating methods utilizing uranium-series and cosmogenic isotopes. Glacial records from the Mediterranean now boast some of the most robust chronologies for mountain glaciation anywhere in the world – they represent a unique archive of Quaternary environmental change of global significance. The southerly latitude and relatively small size of Mediterranean glaciers rendered them especially sensitive to Pleistocene and Holocene climate changes. This volume brings together the leading researchers and the latest research on Mediterranean glaciation. Several papers also explore glacier behaviour in the Holocene – including those glaciers of southernmost Europe at risk of disappearing this century.

The Hutts want to auction it to the highest bidder, be it the Republic or the Empire, both of whom hope to bolster their chances in the coming conflict. But the Sith are interested too, and they don't bargain with anyone; the Jedi High Council is sending someone to investigate; a mysterious Mandalorian is chasing something connected to a long-forgotten crime; while a spy plays every side at once. What Jet has unearthed will surprise all of them, and leave none of them unchanged.

NEW YORK TIMES BESTSELLER • Join Republic spy Theron Shan as he faces off against the Sith Empire itself in this epic installment of *The Old Republic*. Light side, dark side—these are just empty words. . . . There are only two sides I care about: us and them. Republic or Empire! The Sith Empire is in flux. The Emperor is missing, presumed dead, and an ambitious Sith lord's attempt to seize the throne has ended fatally. Still, Darth Karrid, commander of the fearsome Imperial battle cruiser *Ascendant Spear*, continues her relentless efforts to achieve total Sith domination of the galaxy. But Karrid's ruthless determination is more than matched by the steely resolve of Theron Shan, whose unfinished business with the Empire could change the course of the war for good. Though the son of a Jedi master, Theron does not wield the Force—but, like his renowned mother, he has the spirit of rebellion in his blood. As a top covert agent for the Republic, he struck a crucial blow against the Empire by exposing and destroying a Sith superweapon arsenal—which makes him the ideal operative for a daring and dangerous mission to end *Ascendant Spear's* reign of terror. Joined by hot-headed smuggler Teff'ith, with whom he has an inexplicable bond, and wise Jedi warrior Gnost-Dural, Darth Karrid's former master, Theron must match wits and weapons with a battle-tested crew of the most cold-blooded disciples of the Dark Side. But time is running brutally short. And if they don't seize their one chance to succeed, they will surely have countless opportunities to die.

Turkey has always been a crossroads: the point where East meets West, Europe meets Asia, and Christianity meets Islam. Turkey has also been a close and important American ally, but a series of converging political and strategic factors have now endangered its longstanding Western and democratic orientation. In *Winning Turkey*, two leading analysts explain this worrisome situation and present a plan for improving it. The stakes are clear. Turkey is the most advanced democracy in the Islamic world, bordering a number of the world's hotspots, including Iraq, Iran, and the

Caucasus. It occupies the corridor between Western markets and Caspian Sea energy reserves. A stable, Western-oriented Turkey moving toward EU membership would provide a growing market for exports, a source of needed labor, a positive influence on the Middle East, and an ally in the war on terror. The picture has darkened, however, as rising anti-Americanism, deflated hopes for EU accession, civil-military tensions, and terrorist threats have destabilized an already volatile Turkish political system. Winning Turkey designs a plan to ease tensions in this critical part of the world. In addition to proposing a "grand bargain" between Turkey and the Kurds, it advocates greater support for increased liberalism and democracy, a renewed commitment by both Europe and Turkey to promote EU membership, a historic compromise with Armenia, and greater Western engagement with Turkish Cypriots.
