I have taken 30 credits worth of CLEP exams and I've passed them all by using your study guides. I actually purchased one of your study guides and failed my first test. So, I tried again with a different test and a different study guide of yours. I passed. This pattern continues for 30 credits. I graduate on June 9th thanks to you guys, so I wanted to say thank you. The guides were worth every penny. Thanks, -John S.****I would like to thank you for your study guides. The CLEP Sociology Exam Vocabulary Workbook is an awesome tool to use before a course of study as it will help you develop a strong working Insider's Language before you even begin your review. Learn the Secret to Success! After nearly 20 years of teaching Lewis Morris discovered a startling fact: Most students didn't struggle with the subject, they struggled with the language. It was never about brains or ability. His students simply didn't have the knowledge of the specific language needed to succeed. Through experimentation and research, he discovered that for any subject there was a list of essential words, that, when mastered, unlocked a student's ability to progress in the subject. Lewis called this set of vocabulary the "Insider's Words". When he applied these "Insider's Words" the results were incredible. His students began to learn with ease. He was on his way to developing the landmark series of workbooks and applications to teach this "Insider's Language" to students around the world.

"The Philadelphia Negro is a sociological study of African Americans in Philadelphia written by W. E. B. Du Bois, commissioned by the University of Pennsylvania and published in 1899 with the intent of identifying social problems present in the African American community. It was the first sociological case study of a black community in the United States and one of the earliest examples of sociology as a statistically based social science. Du Bois gathered information for the study in the period between August 1896 and December 1897. Du Bois carefully mapped every black residence, church, and business in the city's Seventh Ward, recording occupational and family structure. Du Bois's Philadelphia research was pivotal in his reformulation of the concept of race. He deduced that, "the Negro problem looked at in one way is but the old world questions of ignorance, poverty, crime, and the dislike of the stranger." He supports these claims with examples and survey analysis breakdowns throughout the journal"--Wikipedia, viewed June 10, 2022.
