The Fairy Books of Many Colors Volume

Compiled by Andrew Lang - Britain's answer to the Grimms. A stunning and exciting read for children. Here, then, are 39 tales and fancies brought from all quarters: we see that the peoples of the world, no matter their origin, are fond of just the same kinds of adventures. In this volume you will find tales and stories like:

The Cat's Elopement, How the Dragon Was Tricked, The Goblin and the Grocer, The House in the Wood, The Man Without a Heart, The Golden Lion, The Sprig of Rosemary and many more All people in the world tell nursery tales to their children. The Japanese tell them, the Chinese, the American Indians and the Eskimos to pass the long wintry nights. Native South Africans tell them, Greeks, as did the old Egyptians, when Moses had not long been rescued out of the bulrushes. The Germans, French, Spanish, Italians, Danes and Highlanders tell them, and the

stories are apt to be like each other everywhere. Courage, youth, beauty, kindness, have many trials, but they always win the battle; while witches, giants, unfriendly cruel people, are on the losing hand. So it ought to be, and so, on the whole, it is and will be; and that is all the moral of fairy tales. We cannot all be young, alas! and pretty, and strong; but nothing prevents us from being kind, and no kind man, woman, or beast or bird, ever comes to anything but good in these oldest fables of the world. So far all the tales are true, and no further. A child who

has read the Blue and Red and Yellow Fairy Books will, if he or she examines and compares, find some old friends with new faces in the Pink Fairy Book. But the Japanese tales will probably be new to many; the Tanuki is a creature whose acquaintance few have made before. There are also tales from Sicily, Catalonia, Sweden, Denmark and Africa. Tales of monsters and mermaids, princes and giants, and beautiful princesses, who are, if possible, always prettier than ever. So find a comfy chair and sit back and enjoy these tales from yesteryear in the knowledge that the purchase of this book has helped raise funds for charity.

This carefully crafted ebook collection includes following historical novels: "Ben-Hur: A Tale of the Christ" describes the adventures of Judah Ben-Hur, Jewish prince from Jerusalem who gets enslaved by the Romans. He is taken to Rome where he becomes a charioteer and a Christian. Running in parallel with Judah's narrative is the unfolding story of Jesus, who comes from the same region and is a similar age. "The Fair God: The Last of the 'Tzins" is a magnificent tale of the conflict

between the Spanish Conquistadors and the Aztecs. The Cortez's conquest of Mexico is a central theme and the novel gives an account of the descent of the Aztec Empire. "The Prince of India: Why Constantinople Fell" is a tale of the Fall of Byzantine Empire, seen through the eyes of Indian Prince in service of the Turkish Sultan. Lew Wallace (1827-1905) was an American lawyer, Union general in the American Civil War, politician, diplomat and author, best known for his historical adventure story, Ben-Hur: A Tale of the Christ, a bestselling novel that has been called "the most influential Christian book of the nineteenth century." He wrote several historical novels and biographies of American generals.

Separating truth from hype, this book introduces readers to the topic of life extension in a holistic manner that provides scientific, historical, and cultural perspectives. While the story of 16th-century explorer Juan Ponce de León

futilely searching for the Fountain of Youth is likely a myth, it is true that for many centuries, mankind has sought "a cure for aging." Today, the anti-aging and longevity industry is a multibillion-dollar industry, and medical advances are continuing to find ways to add to our time on earth. *Finding the Fountain of Youth: The Science and Controversy behind Extending Life and Cheating Death* introduces readers to the topic of life extension in a holistic manner, examining the topic through scientific, historical, and cultural perspectives. It also highlights key medical and ethical controversies related to this particular area of gerontology and serves as a gateway for further research and study. The book's chapters address the history of movements to remain youthful, from ancient times through the modern era; past medical advances that significantly extended the average lifespan; and our cultural obsession with "staying young" that has spawned the anti-aging industry. Readers will learn about basic principles of aging and anti-aging, as well as the science behind the methods—both proven and hypothetical—that serve to extend the

lifespan. The final section of the book examines controversial issues and debates related to life extension, such as global overpopulation, length of life versus quality of life, and socioeconomic concerns.

A girl doesn't have a date for the school dance—until her dad makes one for her in his lab. "Lily—meet Stitchy." A family enjoys a nice Thanksgiving dinner—until they are interrupted by a torrent of turkeys out for revenge. A princess meets a pea-brained suitor. And the battle of two red hot pepper weenies ends in flames. Critically-acclaimed author and master of the macabre David Lubar returns from a journey into the darkest depths of his brain with thirty-five more warped and creepy tales. And in the tradition of the three previous Weenie collections—*In the Land of the Lawn Weenies*, *Invasion of the Road Weenies*, and *The Curse of the Campfire Weenies*—he reveals the inspiration behind each story at the end of

the book. Don't be a weenie. Read these stories...if you dare! At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
