If you want your startup to succeed, you need to understand why startups fail.

“Whether you’re a first-time founder or looking to bring innovation into a corporate environment, *Why Startups Fail* is essential reading.”—Eric Ries, founder and CEO, LTSE, and New York Times bestselling author of *The Lean Startup* and *The Startup Way* Why do startups fail? That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn’t answer it. So he launched a multiyear research project to find out. In *Why Startups Fail*, Eisenmann reveals his findings: six distinct patterns that account for the vast majority of startup failures.

- **Bad Bedfellows.** Startup success is thought to rest largely on the founder’s talents and instincts. But the wrong team, investors, or partners can sink a venture just as quickly.
- **False**

Starts. In following the oft-cited advice to “fail fast” and to “launch before you’re ready,” founders risk wasting time and capital on the wrong solutions.

- **False Promises.** Success with early adopters can be misleading and give founders unwarranted confidence to expand.
- **Speed Traps.** Despite the pressure to “get big fast,” hypergrowth can spell disaster for even the most promising ventures.
- **Help Wanted.** Rapidly scaling startups need lots of capital and talent, but they can make mistakes that leave them suddenly in short supply of both.
- **Cascading Miracles.** Silicon Valley exhorts entrepreneurs to dream big. But the bigger the vision, the more things that can go wrong. Drawing on fascinating stories of ventures that failed to fulfill their early promise—from a

home-furnishings retailer to a concierge dog-walking service, from a dating app to the inventor of a sophisticated social robot, from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles—Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns, along with a wealth of strategies and tactics for avoiding them. A must-read for founders at any stage of their entrepreneurial journey, *Why Startups Fail* is not merely a guide to preventing failure but also a roadmap charting the path to startup success.

Most startups fail. But many of those failures are preventable. The Lean Startup is a new approach being adopted across the globe, changing the way

companies are built and new products are launched. Eric Ries defines a startup as an organization dedicated to creating something new under conditions of extreme uncertainty. This is just as true for one person in a garage or a group of seasoned professionals in a Fortune 500 boardroom. What they have in common is a mission to penetrate that fog of uncertainty to discover a successful path to a sustainable business. The Lean Startup approach fosters companies that are both more capital efficient and that leverage human creativity more effectively. Inspired by lessons from lean manufacturing, it relies on “validated learning,” rapid scientific experimentation, as well as a number of counter-intuitive practices that shorten product development cycles, measure

actual progress without resorting to vanity metrics, and learn what customers really want. It enables a company to shift directions with agility, altering plans inch by inch, minute by minute. Rather than wasting time creating elaborate business plans, The Lean Startup offers entrepreneurs—in companies of all sizes—a way to test their vision continuously, to adapt and adjust before it’s too late. Ries provides a scientific approach to creating and managing successful startups in a age when companies need to innovate more than ever.

“This book dispels the myths surrounding the process of starting a business, and gives hope and encouragement to people who would like to give it a try.” –Tim Berry, Founder and CEO, Palo Alto Software Creators of the World’s Most Popular “Bruce Barringer and Duane Ireland’s new book, *What’s Stopping You?* is an insightful and thought-provoking examination of nine common myths that discourage individuals from starting new businesses. ... This book is much-needed and long overdue.... The value of *What’s Stopping You?* is that it effectively debunks the false premises that too often preclude acts of business start up. *What’s Stopping You?* is an encouraging, instructive, and eloquently written book that would be a valuable addition to any

aspiring entrepreneur’s bookshelf.” Jeffrey G. Covin, Samuel and Pauline Glaubinger Professor of Entrepreneurship, Kelley School of Business, Indiana University, Bloomington, Indiana “Over the years I have observed many seemingly great business opportunities never get off the ground. Quite often, what holds these aspiring entrepreneurs back are common misconceptions about the difficulties and risks of starting a new business. In *What’s Stopping You?*, Professors Barringer and Ireland systematically break down the myths that hold many entrepreneurs back from pursuing their dreams.” Jeffrey R. Cornwall, The Jack C. Massey Chair in Entrepreneurship, Belmont University, Nashville, Tennessee “Barringer and

Ireland simultaneously demystify start-up misconceptions and empower readers to explore their own opportunity with renewed passion. Many prospective entrepreneurs feel trapped by myths, the authors carefully detail the myth's fallacies and encourage the reader to see beyond start-up stereotypes.
