Math can even be your child's favorite subject if you learn the basics well. Our Math 1 workbook offers the best way to do this with simple, colorful, and fun tasks. The exercises are specifically designed to cover the kindergarten and grade 1 curriculum. Most of the tasks can be done by your child on their own, and then you can check the results on our website with the code in the book. Independent learning and practice give confidence. The increasingly challenging tasks always build on what has been learned before, ensuring that maths is more fun and less stressful for your child. Our Math 1 practice workbook motivates children to practice counting and simple mathematics with fun drawings and varied exercises. Task types: Addition and subtraction of single-digit and double-digit numbers Odd and even numbers Number neighbors Ascending order of numbers Decomposition of numbers Greater, less, equal Place Value Shapes Measurement Time A fun, colorful first-grade math workbook that makes learning fun. Suitable for preschoolers, this colorful and progressively more challenging activity book is a real success for young children. Why should children use workbooks instead of computer programs? Handwriting requires such a complex brain activity that what you write is much more memorized than typing. People who write by hand are much more creative. Handwriting strengthens the coordinated movement of the hand and eye, develops the brain's neural pathways, spatial perception, arc movements, wrist and finger movements, fine motor movements of the hand, thus improving manual dexterity, visualization skills, and a sense of rhythm through a continuous alternation of braking and momentum. People who write by hand have better memory and think more. Combine fun with learning! Your child is sure to love the beautifully colored activities, coloring pages, and puzzles that guarantee a sense of achievement. Get this book NOW! Back to the Basics Pascal Press

Curious George is a good little monkey, and always very curious. Now George is curious about numbers. Counting from 1 to 10 is easy, but can he count all the way to 100? George has picked the perfect day to try. It's his town's 100th birthday today and everyone is coming out to celebrate! With the help of his friend, the man with the yellow hat, George learns to count from 1 to 100, making his usual monkey mischief along the way. Young minds (and little fingers) will find all kinds of wonderful things to count as they turn each colorful page. In this large format, paper-over-board book each page features familiar objects for children to count. From home (toys, shoes, plates) to the park (bugs, sticks, clouds) to school (paste, crayons, books) George finds many different things to count. A perfect book for celebrating counting, numbers and the 100th day of school.
