Every principal and instructional leader—no matter what level—needs a playbook for instructional excellence. Josh McLaurin, an instructional and educational leader with decades of experience at various levels, explains how instructional leadership impacts student learning in this handbook for instructional excellence. Learn how to: • increase student achievement; •

execute a turnaround at a struggling school; • teach the right things in the right ways; • change teaching methods based on learning styles. The author also highlights how to teach children in a virtual environment, which has become increasingly important amid COVID-19; ways to motivate unmotivated students; and tips on hiring and retaining great teachers. Other topics include working with instructional leadership teams, increasing student engagement, and making constant improvement a priority. Great coaches have a playbook that details every play in the offense or defense. The Principal's Playbook on Instructional Leadership: 23 Things That Matter Most for Improving Student Achievement provides the playbook for instructional excellence.

Regulation of New Drug R. & D. by the Food and Drug Administration, 1974 Routledge

This hands-on school leadership guide for new and veteran principals and administrators offers practical advice for leading a school successfully. Want honest student input? Try texting. Got a group of angry parents? Arrange one-on-one meetings—you'll avoid a mob scene and give each family the attention it deserves. Trying to make a teacher feel appreciated? Shoot a quick email after stopping by his classroom and describe something cool you saw him do. It takes ten seconds but has a big impact. These tips and hundreds more are the collective wisdom of three experienced principals who know how to connect with kids, staff, families, and stakeholders, and help students succeed.

Gain a new perspective for revitalizing the assistant principalship! While assistant principals play vital administrative roles, little attention has been granted to their training, selection, motivation, and job satisfaction. In this updated edition, Catherine Marshall and Richard M. Hooley focus on understanding the assistant principalship, uncovering problems, and identifying new solutions for these important school leaders. This foundational resource provides a comprehensive study of what assistant principals do, who they are, and how these administrators-in-training can take charge of their careers. Unique issues highlighted within include Policy concerns in the assistant principal role The assistant as gateway to upper administrative mobility The importance of support and motivation The dependency on principals and their leadership style This essential handbook supports the intrinsic value of the assistant principalship, while providing direction for improving the current system, evaluating methods of recruitment, and posing new metaphors and models for the position.

This is an account of how a principal combines the rational and emotional components of leadership to lead the transformation of a school. Most attempts at reform come from the outside, with people wishing to impose a curriculum and benchmarks; this book assumes that schools can transform themselves, but only when those involved in schools (especially principals) develop self-respect and achieve self-actualization. The author believes, and has demonstrated in his colleges, that a sensitive, thoughtful, proactive leadership might yet deliver the quality outcomes that the community desires from schooling.

Putting admirable rationales of university education into practice is never easy. While it is popular to emphasize market values and competitive rankings, moral values and ideals sound way too lofty nowadays. Under tensions on campus and in society, the head of a university takes the role of striking a balance as skilfully as possible. Professor Joseph Sung is no exception to all these challenges. He has been enjoying university life with teachers and students, going through ups and downs with them. This book, a collection of 57 blog articles by Professor Sung during his tenure as the seventh Vice-Chancellor of The Chinese University of Hong Kong, tells us the stories. He talks about higher education and social responsibility,

pathways and choices our youths make, the visions he had and the challenges he faced, and life values which he wishes his students could take seriously. Though generations come and go, he still cares that they live a simple, noble and humble life. He hopes we care too.

A Blueprint for Developing Tomorrow's School Leaders Based on two years of research supported by Carnegie Corporation of New York, The Broad Foundation, and the New Schools Venture Fund, *The Principal Challenge* focuses directly on the causes and cures of the crisis in school leadership. Marc Tucker, Judy Coddling, and a stellar list of experts from the United States and abroad paint a revealing portrait of what it means to be a principal now, how and why most graduate schools of education have failed to provide the training principals need, what the military and business sectors do to create and support their leaders and managers, what the state of the art in professional training looks like, what other nations are doing to address this problem, and how to apply the very best practices in the world to solve the crisis in school leadership. This book is honest and hard-hitting. And it offers realistic solutions. Based on the thorough analysis provided by the chapter authors, the editors of *The Principal Challenge* offer an imaginative proposal for a new kind of institution that will train school principals to be turn-around artists. Drawing on the new forms of executive development programs in our business schools, they propose a similar program for school principals. The approach involves a close collaboration between the new institution and entire school districts, combining face-to-face instruction with

web-based delivery. The innovative curriculum they describe, like the best approaches in business and industry, uses carefully developed cases, simulations, games, action projects, seminars and journaling. The editors offer a clear conception of what it might mean to be an instructional leader, a way of thinking about what it takes for a principal to be a strategic thinker, an approach that principals can use to take advantage of the best current thinking on knowledge management and professional development, a conception of the principal as school designer, an emphasis on the use of data to drive planning, and a host of tested ideas that principals can use to lead their schools to better results.

Expanding a principal's formal education and training, *The Principal as Learning-Leader* is an administrator's guide to improving student achievement, showing practitioners how to focus on the individual academic performance of each and every student and to work with the school staff and community to develop a learning culture that supports student success. Norton and Kelly show current principals how to assess their present behaviors relative to learning leadership. Providing a clear definition of learning leadership and identifying successful practices most commonly implemented by true learning leaders, this book features the administrative tools and accountability strategies that will allow principals to create a culture of learning leadership among all school personnel, which is key to engaging students, and the community, in the learning process.

In a hierarchy, every employee rises to the level of their own incompetence. This simple maxim, defined by this classic book over 40 years ago, has become a beacon of truth in the world of work. From the civil service to multinational companies to hospital management, it explains why things constantly go wrong: promotion up a hierarchy inevitably leads to over-promotion and incompetence. Through barbed anecdotes and wry humour the authors define the problem and show how anyone, whether at the top or bottom of the career ladder, can avoid its pitfalls. Or, indeed, avoid promotion entirely! The Judicial Dictionary of Words and Phrases Judicially Interpreted Routledge First Published in 1994. A leader's position can be a lonely one even in the best of times. A school leader faces many challenges —some of them daunting. Principals and other school leaders benefit from good mentors, but now that many established principals are reaching retirement age a good mentor may be hard to find. What They Never Told Me in Principals School

attempts to fill the gap left by an absence of mentors. Drawing upon his many personal experiences as a principal in urban, suburban and rural schools in the USA as well as his work in a variety of international schools, Mike Connolly shares with leaders what they need to know in order to develop, be successful and feel fulfilled in the important work of educating the students of the next generations.

Using an innovative research strategy including empirical, interpretive, and narrative strands, Rod Evans reorients studies of educational administration that have been dominated by organizational theory originating in the world of industry and commerce. Building on a foundation of pedagogical and phenomenological inquiry, he examines administrators' concrete, lived experience, or "lifeworld practice." In reconstituting educational administration as pedagogical practice, Evans draws conclusions with profound implications for schools and administrators of every stripe.

Education is a right for all young people in the world, yet quality and relevant education is still elusive. Schools are searching for the perfect recipe for success in a rapidly changing world. Principals are at the focal point of educational delivery, which makes leading schools throughout the world one of the most stressful and challenging occupations. It is a profession that requires many different life, leadership, and management skills. Working with people is, at best, filled with drama, and in addition, principals lead schools crowded with impressionable and volatile children or teenagers with all their changing hormones, peer pressure, the stresses of society, and the challenges emanating from their complex family structures. Teachers are facing huge challenges in the classroom that force heads of schools to give more supportive and constructive leadership. Creating the perfect balance between discipline, compassion, maintaining academic standards, and a relevant academic path for students, all while leading a motivated and skilled staff of teachers is a mammoth task for any individual. This book is a guide to the challenges facing

a principal and the skills needed to navigate a school to success.
