CONRAD AYERS

The Prince Library of Alexandria

A resource book for teachers of world history at all levels. The text contains individual sections on art, gender, religion, philosophy, literature, trade and technology. Lesson plans, reading and multi-media recommendations and suggestions for classroom activities are also provided.

The Chronicle of the Discovery and Conquest of Guinea; Volume I Heinemann Educational Books

A World History of War Crimes provides a truly global history of war crimes and the involvement of the legal systems faced with these acts. Documenting the long historical arc traced by human efforts to limit warfare, from codes of war in antiquity designed to maintain a religiously conceived cosmic order to the gradual use in the modern age of the criminal trial as a means of enforcing universal norms, this book provides a comprehensive one-volume account of war and the laws that have governed conflict since the dawn of world civilizations. Throughout his narrative, Michael Bryant locates the origin and evolution of the law of war in the interplay between different cultures. While showing that no single philosophical idea underlay the law of war in world history, this volume also proves that war in global civilization has rarely been an anarchic free-for-all. Rather, from its beginnings warfare has been subject to certain constraints defined by the unique needs and cosmological understandings of the cultures that produce them. Only in late modernity has law assumed its current international humanitarian form. The criminalization of war crimes in

international courts today is only the most recent development of the ancient theme of constraining when and how war may be fought.

Chronicles of England, Scotland and Ireland The Princeton Review

One hundred years before Columbus and his fellow Europeans began their voyages of discovery, fleets of giant junks commanded by the eunuch admiral Zheng He and filled with the empire's finest porcelains, lacquerware, and silk ventured to the world's "four corners." Seven epic expeditions brought China's treasure ships across the China Seas and Indian Ocean, from Japan to the spice island of Indonesia and the Malabar Coast of India, on to the rich ports of the Persian Gulf and down the East African coast, to China's "El Dorado," and perhaps even to Australia, three hundred years before Captain Cook's landing. It was a time of exploration and expansion, but it ended in a retrenchment so complete that less than a century later, it was a crime to go to sea in a multimasted ship. In *When China Ruled the Seas*, Louise Levathes takes a fascinating and unprecedented look at this dynamic period in China's enigmatic history, focusing on the country's rise as a naval power that briefly brought half the world under its nominal authority. Drawing on eyewitness accounts, official Ming histories, and African, Arab, and Indian sources, many translated for the first time, Levathes brings readers inside China's most illustrious scientific and technological era. She sheds new light on the historical and cultural context in which this great civilization thrived, as well as the perception of China by other contemporary cultures. Beautifully illustrated and engagingly written, *When China Ruled the Seas* is the fullest picture yet of the early Ming dynasty—the last flowering of Chinese culture before the Manchu invasion.

The Portuguese Empire, 1415-1808 Cambridge University Press

"A first-rate historical page turner." —New York Times Book Review The acclaimed and bestselling account of Ferdinand Magellan's historic 60,000-

mile ocean voyage. Ferdinand Magellan's daring circumnavigation of the globe in the sixteenth century was a three-year odyssey filled with sex, violence, and amazing adventure. Now in *Over the Edge of the World*, prize-winning biographer and journalist Laurence Bergreen entwines a variety of candid, firsthand accounts, bringing to life this groundbreaking and majestic tale of discovery that changed both the way explorers would henceforth navigate the oceans and history itself. Now updated to include a new introduction commemorating the 500th anniversary of Magellan's voyage.

Public Opinion Legare Street Press

Biography of the Portuguese prince and monk who sponsored expeditions along the west coast of Africa during the late middle ages.

World Order Harper Collins

Originally published in hardcover as: Holy war. New York: HarperCollins, c2011.

Routledge

Charles Withers' book brings together work on the history of geography and the history of science with extensive archival analysis to explore how geographical knowledge has been used to shape an understanding of the nation. Using Scotland as an exemplar, the author places geographical knowledge in its wider intellectual context to afford insights into perspectives of empire, national identity and the geographies of science. In so doing, he advances a new area of geographical enquiry, the historical geography of geographical knowledge, and demonstrates how and why different forms of geographical knowledge have been used in the past to constitute national identity, and where those forms were constructed and received. The book will make an important contribution to the study of nationhood and empire and will therefore interest historians, as well as students of historical geography and historians of science. It is theoretically engaging, empirically rich and beautifully illustrated.

Red, White & Royal Blue Cambridge University Press

Geography is more than just maps and finding your destination. It is about the land, the people on that land, the delicate balance of nature, and our very interdependence upon it, despite the miracles of technology and grocery stores. It's about the effects of nature on places and people, as well as how politics, borders, cities, and towns affect our lives. The Handy Geography Answer Book traces the history of geography from Eratosthenes and Alexander von Humboldt to latitude and longitude, and the latest advances in the Global Positioning System (GPS). It provides insights into economic, social, historic, culture, religious, political, and climate geography, plus oceanography, demographics, and more. Completely revised and updated, it tours the world, its natural features, and the ever-changing mark humans make on our planet, answering 1,200 questions from the trivia (longest, hottest, tallest) to how geography has influenced history, religion, architecture, and the location of cities, including Who first had the idea that there is a magnetic North Pole? What is interesting about Google's "Streetview"? How many people are projected to live on the planet in 2050? Which state has the highest annual divorce rate? What are the largest and smallest counties in the U.S.?

Exploring World History presents new subject matter, new perspectives, and new classroom strategies for helping teachers transform their courses into intellectual adventures.

How to Be a (Young) Antiracist Bloomsbury Publishing

The #1 New York Times bestseller that sparked international dialogue is now a book for young adults! Based on the adult bestseller by Ibram X. Kendi, and co-authored by bestselling author Nic Stone, *How to be a (Young) Antiracist* will serve as a guide for teens seeking a way forward in acknowledging, identifying, and dismantling racism and injustice. The New York Times bestseller *How to be an Antiracist* by Ibram X. Kendi is shaping the way a generation thinks about race and racism. *How to be a (Young) Antiracist* is a dynamic reframing of the concepts shared in the adult book, with young adulthood front and center. Aimed at readers 12 and up, and co-authored by award-winning children's book author Nic Stone, *How to be a (Young) Antiracist* empowers teen readers to help create a more just society. Antiracism is a journey--and now young adults will have a map to carve their own path. Kendi and Stone have revised this work to provide anecdotes and data that speaks directly to the experiences and concerns of younger readers, encouraging them to think critically and build a more equitable world in doing so.

The Career and Legend of Vasco Da Gama Cambridge University Press

* Instant NEW YORK TIMES and USA TODAY bestseller * * GOODREADS CHOICE AWARD WINNER for BEST DEBUT and BEST ROMANCE of 2019 * * BEST BOOK OF THE YEAR* for VOGUE, NPR, VANITY FAIR, and more! * What happens when America's First Son falls in love with the Prince of Wales? When his mother became President, Alex Claremont-Diaz was promptly cast as the American equivalent of a young royal. Handsome, charismatic, genius—his image is pure millennial-marketing gold for the White House. There's only one problem: Alex has a beef with the actual prince, Henry, across the pond. And when the tabloids get hold of a photo involving an Alex-Henry altercation, U.S./British relations take a turn for the worse. Heads of family, state, and other handlers devise a plan for damage control: staging a truce between the two rivals. What at first begins as a fake, Instagramable friendship grows deeper, and more dangerous, than either Alex or Henry could have imagined. Soon Alex finds himself hurtling into a secret romance with a surprisingly unstuffy Henry that could derail the campaign and upend two nations and begs the question: Can love save the world after all? Where do we find the courage, and the power, to be the people we are meant to be? And how can we learn to let our true colors shine through? Casey McQuiston's *Red, White & Royal Blue* proves: true love isn't always diplomatic. "I took this with me wherever I went and stole every second I had to read! Absorbing, hilarious, tender, sexy—this book had everything I crave. I'm jealous of all the readers out there who still get to experience *Red, White & Royal Blue* for the first time!" - Christina Lauren, New York Times bestselling author of *The Unhoneymooners* "*Red, White & Royal Blue* is outrageously fun. It is romantic, sexy, witty, and thrilling. I loved every second." - Taylor Jenkins Reid, New York Times bestselling author of *Daisy Jones & The Six*

Exploring World History Visible Ink Press

The Portuguese in West Africa, 1415–1670 brings together a collection of documents - all in new English translation - that illustrate aspects of the encounters between the Portuguese and the peoples of North and West Africa in the period from 1400 to 1650. This period witnessed the diaspora of the Sephardic Jews, the emigration of Portuguese to West Africa and the islands, and the beginnings of the black diaspora associated with the slave

trade. The documents show how the Portuguese tried to understand the societies with which they came into contact and to reconcile their experience with the myths and legends inherited from classical and medieval learning. They also show how Africans reacted to the coming of Europeans, adapting Christian ideas to local beliefs and making use of exotic imports and European technologies. The documents also describe the evolution of the black Portuguese communities in Guinea and the islands, as well as the slave trade and the way that it was organized, understood, and justified.

Shakespeare's History Plays OUP Oxford

In this timely collection, an international team of Renaissance scholars analyzes the material practice behind the concept of mapping, a particular cognitive mode of gaining control over the world. Ranging widely across visual and textual artifacts implicated in the culture of mapping, from the literature of Shakespeare, Spenser, Marlowe and Jonson, to representations of body, city, nation and empire, *Literature, Mapping, and the Politics of Space in Early Modern Britain* argues for a thorough reevaluation of the impact of cartography on the shaping of social and political identities in early modern Britain.

Henry the Navigator Routledge

Winner of the Dom João de Castro Prize for Portuguese History This is the story of the first and one of the greatest colonial empires: its birth, apotheosis, and decline. By approaching the history of the Portuguese empire thematically, A. J. R. Russell-Wood is able to pursue ideas and make connections that previously have been constrained by strict chronological approaches. Using the study of movement as a focus, Russell-Wood gains unique insight into the diversity, breadth, and balance between the competing interests and priorities that characterized the Portuguese culture and its expansion spanning four centuries' events on four different continents.

The Handy Geography Answer Book Atlantic

a conviction that has guided its policies ever since. Now international affairs take place on a global basis, and these historical concepts of world order are meeting. Every region participates in questions of high policy in every other, often instantaneously. Yet there is no consensus among the major actors about the rules and limits guiding this process, or its ultimate destination. The result is mounting tension. Grounded in Kissinger's deep study of history and his experience as National Security Advisor and Secretary of State, *World Order* guides readers through crucial episodes in recent world history. Kissinger offers a unique glimpse into the inner deliberations of the Nixon administration's negotiations with Hanoi over the end of the Vietnam War, as well as Ronald Reagan's tense debates with Soviet Premier Gorbachev in Reykjavik.

The School World Routledge

Toussaint L'Ouverture was the leader of the Haitian Revolution in the late eighteenth century, in which slaves rebelled against their masters and established the first black republic. In this collection of his writings and speeches, former Haitian politician Jean-Bertrand Aristide demonstrates L'Ouverture's profound contribution to the struggle for equality.

The Dictionary of Human Geography The Life of King Henry the Fifth Outlines of the World's History, Ancient, Mediæval, and Modern, with Special Relation to the History of Civilization and the Progress of Mankind Outlines of the World's History, ancient, mediæval, and modern, etc Teaching World History: A Resource Book

Written in the 16th century, *The Prince* remains one of the most influential books on political theory. Its author, Niccolò Machiavelli was an Italian diplomat and political theorist, and is considered the father of modern political thought.

The Life of King Henry the Fifth Bloomsbury Publishing

This book provides a short, readable introduction to historical archaeology, which focuses on modern history in all its fascinating regional, cultural, and ethnic diversity. Accessibly covering key methods and concepts, including fundamental theories and principles, the history of the field, and basic definitions, *Historical Archaeology* also includes a practical look at career prospects for interested readers. Orser discusses central topics of archaeological research such as time and space, survey and excavation methods, and analytical techniques, encouraging readers to consider the possible meanings of artifacts. Drawing on the author's extensive experience as an historical archaeologist, the book's perspective ranges from the local to the global in order to demonstrate the real importance of this subject to our understanding of the world in which we live today. The third edition of this popular textbook has been significantly revised and expanded to reflect recent developments and discoveries in this exciting area of study. Each chapter includes updated case studies which demonstrate the research conducted by professional historical archaeologists. With its engaging approach to the subject, *Historical Archaeology* continues to be an ideal resource for readers who wish to be introduced to this rapidly expanding global field.

The World Book Encyclopedia Cambridge University Press

Shakespeare's history plays are central to his dramatic achievement. In recent years they have become more widely studied than ever, stimulating intensely contested interpretations, due to their relevance to central contemporary issues such as English, national identities and gender roles. Interpretations of the history plays have been transformed since the 1980s by new theoretically-informed critical approaches. Movements such as New Historicism and cultural materialism, as well as psychoanalytical and post-colonial approaches, have swept away the humanist consensus of the mid-twentieth century with its largely conservative view of the plays. The last decade has seen an emergence of feminist and gender-based readings of plays which were once thought overwhelmingly masculine in their concerns. This book provides an up-to-date critical anthology representing the best work from each of the modern theoretical perspectives. The introduction outlines the changing debate in an area which is now one of the liveliest in Shakespearean criticism.

The Kings and Queens of Britain Veritas Press

This authoritative and accessible guide to the British monarchy spans the Romano-British rulers of 55 BC to the present day House of Windsor. Generously illustrated with maps, photos, paintings, and genealogies, it contains a wealth of information on the rulers of Britain, including their policies, personalities, key dates, and legacies. There are almost 600 entries, which are organised by regions up to 1066 and by royal lines thereafter. Feature articles throughout the guide provide in-depth information on key royal topics, including Coronations, Regalia, the Tower of London, and - new to this edition - Westminster Abbey and St Paul's Cathedral. Revised and updated to include recent events, such as the second marriage of Prince

Charles, this new edition also contains a topical introductory article on the changing role of the monarchy. There is a useful glossary, a list of recommended further reading, and a new appendix of recommended web links, accessed and kept up to date via a companion website.
