These Eyes Have Seen It All... Questions Every Black Person Should Know Pickle Partners Publishing

In 1963, Carol-Anne was 13 years old and hypnotized by the civil rights movement because much of it involved children her age. She read Time magazine and watched TV newscasts flash Birmingham police attacking children, the March on Washington, Dr. King's "I Have a Dream" speech, and a church bombing. During festivities for a family wedding at a country club in Knoxville, Tennessee, she observed young, white girls at their Debutante Ball. Black, tuxedoed wait staff lined the ballroom walls and waited to serve the guests. She wondered: Are those the jobs people marched for at the March

on Washington? In early 1964, she learned that Dr. King was scheduled to speak at Temple Israel in Westport, Connecticut. Carol-Anne called Temple Israel and asked to attend. Rabbi Rubenstein invited her to the service and arranged for her to meet and talk with Dr. King. That conversation changed her life.

A Knock at Midnight Grand Central Publishing

An unprecedented and timely collection of Dr. King's speeches on labor rights and economic justice. People forget that Dr. King was every bit as committed to economic justice as he was to ending racial segregation. He fought throughout his life to connect the labor and civil rights movements, envisioning them as twin pillars for social reform. As we struggle with massive unemployment, a staggering racial wealth gap, and the near collapse of a financial system that puts profits before

people, King's prophetic writings and speeches underscore his relevance for today. They help us imagine King anew: as a human rights leader whose commitment to unions and an end to poverty was a crucial part of his civil rights agenda. Covering all the civil rights movement highlights—Montgomery, Albany, Birmingham, Selma, Chicago, and Memphis—award-winning historian Michael K. Honey introduces and traces King's dream of economic equality. Gathered in one volume for the first time, the majority of these speeches will be new to most readers. The collection begins with King's lectures to unions in the 1960s and includes his addresses during his Poor People's Campaign, culminating with his momentous "Mountaintop" speech, delivered in support of striking black sanitation workers in Memphis. Unprecedented and timely, "All Labor Has

Dignity” will more fully restore our understanding of King’s lasting vision of economic justice, bringing his demand for equality right into the present.

Asking questions is one of the most essential functions of teaching. In this book, the authors Nancy Lee Cecil and Jeanne Pfeifer show teachers how to develop both their own questioning skills and those of their students. The authors explain how to model provocative, open-ended questions, and provides many useful teacher- and student-directed questioning strategies. From these strategies, children learn how to ask questions that enable them to construct their own meaning from what they read and experience. This revised edition includes several new questioning strategies. In addition, many of the strategies found in the original edition have been updated and/or expanded to reflect today's best practices in education. The Art of Inquiry is divided into two sections. Part I identifies the many types of questions and the thinking skills they promote (such as knowledge, comprehension, analysis, and evaluation), and discusses how to foster the free flow of questions and answers. Part II provides practical questioning strategies and activities (for example, Polar Opposite, Think Aloud, and Self-Instruction) that stimulate the highest critical and creative thinking skills. The authors also show how asking the right questions can help children to understand content, learn to ask effective questions of themselves, and make clear connections between diverse thoughts.

The Cosmic Ocean shares the treasures that Paul K. Chappell, a West Point

graduate and Iraq War veteran, who grew up in a violent household, has extracted from trauma. To explain how these treasures—which take the form of timeless truths—can help us solve our personal, national, and global problems, this book uses personal stories and extensive research to journey through time, around the world, and into every facet of the human condition. To survive and progress as a global human family, Chappell explains that we need a paradigm shift that can transform our understanding of peace, justice, love, happiness, and what it means to be human. To help create this paradigm shift, The Cosmic Ocean explores diverse subjects such as empathy, rage, nonviolent struggle, war, beauty, religion, philosophy, science, Gandhi, the Iliad, slavery, human sacrifice, video games, sports, and our shared humanity.

"All Labor Has Dignity" Easton Studio Press, LLC

Dr. King’s best-selling account of the civil rights movement in Birmingham during the spring and summer of 1963 On April 16, 1963, as the violent events of the Birmingham campaign unfolded in the city’s streets, Dr. Martin Luther King, Jr., composed a letter from his prison cell in response to local religious leaders’ criticism of the campaign. The resulting piece of extraordinary protest writing, “Letter from Birmingham Jail,” was widely circulated and published in numerous periodicals. After the conclusion of the campaign and the March on Washington for Jobs and Freedom in 1963, King further developed the ideas introduced in the letter in *Why We Can’t Wait*, which tells the story of African American activism in the spring and summer of 1963. During this time, Birmingham, Alabama, was perhaps the most racially segregated city in the United States, but the campaign launched by King, Fred Shuttlesworth, and others demonstrated to the world the power of nonviolent direct action. Often applauded as King’s most incisive and eloquent book, *Why We Can’t Wait* recounts the Birmingham campaign in vivid detail, while underscoring why 1963 was such a crucial year for the civil rights movement. Disappointed by the slow pace of school desegregation and civil rights

legislation, King observed that by 1963—during which the country celebrated the one-hundredth anniversary of the Emancipation Proclamation—Asia and Africa were “moving with jetlike speed toward gaining political independence but we still creep at a horse-and-buggy pace.” King examines the history of the civil rights struggle, noting tasks that future generations must accomplish to bring about full equality, and asserts that African Americans have already waited over three centuries for civil rights and that it is time to be proactive: “For years now, I have heard the word ‘Wait!’ It rings in the ear of every Negro with piercing familiarity. This ‘Wait’ has almost always meant ‘Never.’ We must come to see, with one of our distinguished jurists, that ‘justice too long delayed is justice denied.’”

Bernice King, the youngest daughter of Martin Luther King, Jr., and Coretta Scott King, is an ordained minister, an attorney, and one of this country's most admired

speakers. As this remarkable collection of her sermons and speeches makes clear, she shares with her father a rare gift for oratory and the wisdom and compassion to inspire others. The collection begins with words designed to "disturb the comfortable." Tackling such controversial subjects as our disaffected youth, gun control, and the death penalty, King paints a compelling picture of the spiritual decay and deep-seated racism that infects our society. In the second part of the book, a selection of sermons focusing on "comforting the disturbed," King's belief in the power of faith to restore our communities, morally and spiritually, rings forth. The church, she asserts, must return to its helping and healing mission, and each of us, looking into our hearts, must put aside our differences and remember that each human life is precious.
