The Civil Rights Act of 1960 aimed to close loopholes in its 1957 predecessor that had allowed continued voter disenfranchisement for African Americans and for Mexicans in Texas. In early 1959, the newly seated Eighty-Sixth Congress had four major civil rights bills under consideration. Eventually consolidated into the 1960 Civil Rights Act, their purpose was to correct the weaknesses in the 1957 law. Mitchell's papers from 1959 to 1960 show the extent to which congressional resistance to the passage of meaningful civil rights laws contributed to the lunch counter sit-ins in Greensboro, North Carolina, and to subsequent demonstrations. The papers reveal how the repercussions of these events affected the NAACP's work in Washington and how, despite their dislike of demonstrations, NAACP officials used them to intensify the civil rights struggle. Among the act's seven titles were provisions authorizing federal inspection of local voter registration rolls and penalties for anyone attempting to interfere with voters on the basis of race or color. The law extended the powers of the US Commission on Civil Rights and broadened the legal definition of the verb to vote to encompass all elements of the process: registering, casting a ballot, and properly counting that ballot. Ultimately, Mitchell considered the 1960 act unsuccessful because Congress had failed to include key amendments that would have further strengthened the 1957 act.

In the House, representatives used parliamentary tactics to stall employment protections, school desegregation, poll-tax elimination, and other meaningful civil rights reforms. The fight would continue. The Papers of Clarence Mitchell Jr. series is a detailed record of the NAACP leader's success in bringing the legislative branch together with the judicial and executive branches to provide civil rights protections during the twentieth century.

"In this timely new book, Nan L. Maxwell examines the behavior of firms with respect to their provision of health care prior to ACA deliberations and uses those behaviors to forecast changes in employer-sponsored health insurance (ESI) once the ACA is fully implemented. Her analysis focuses on potential changes in the ESI offer due to implementation of the ACA concerning access and quality. The ACA will likely influence the behavior of virtually all firms that offered health insurance at the time of its passage. The ACA is unlikely to incentivize small firms to offer health insurance if they did not already offer it when the act was passed. The differences in ESI coverage and quality of the offer made to low-wage and high-wage workers is likely to converge when the ACA is fully implemented. Disparities in the offer of benefits other than health insurance might increase between low-wage and high-wage firms."--Publisher's website.
