Eve is an outcast. A chimera. After years of abuse and rejection, 19-year-old Evelyn Kingston is ready for a fresh start in a new city, where no one knows her name. The esteemed Billington University in Southern California seems like the perfect place to reinvent herself-to live the life of an ordinary human. But things at Billington aren't as they seem. In a school filled with prodigies, socialites, and the leaders of tomorrow, Eve finds that the complex social hierarchy makes passing as a human much harder than she had anticipated. Even worse, Billington is harboring a secret of its own: Interlopers have infiltrated the university, and their sinister plans are targeted at chimeras-like Eve. Instantly, Eve's new life takes a drastic turn. In a time filled with chaos, is the world focusing on the wrong enemy? And when the situation at Billington shifts from hostile to dangerous, will Eve remain in the shadows, or rise up and fight?

The Republic is written by Plato, the ancient Greek philosopher. It is renowned for its detailed description of political and ethical justice and its account of the organization of the ideal state. This seminal work is regarded as one of the most important dialogues. Unlike Socratic dialogues, the Republic reflects the positive views of Plato. Socrates was Plato's teacher and the former is the main character in most of latter's dialogues. The middle dialogues that are literary and philosophical contain sensitive portrayals of characters and their interactions. They display Plato's explorations of philosophy. Plato, in the Republic, undertakes to show what justice is and why it is in each person's best interest to be just. The political discussion is undertaken to aid the ethical one. The ideal state, according to Plato, comprises three social classes: rulers, guardians (or soldiers), and producers (farmers and craftsmen). The rulers, who are philosophers, pursue the good of the entire state on the basis of their knowledge of the form of the Good and the form of the Just.

With a lifetime of experience, profound knowledge and understanding, and heartwarming

appreciation, an internationally celebrated conductor and teacher answers the questions: Why should I listen to classical music? How can I get the most from the listening experience? A protégé of Leonard Bernstein--his colleague for eighteen years--and an eminent conductor who has toured and recorded all over the world, John Mauceri helps us to reap the joys and pleasures classical music has to offer. Briefly, we learn the way a musical tradition born in ancient Greece, embraced by the Roman Empire, and subsequently nurtured by influences from across the globe, gave shape to the classical music that came to be embraced by cultures from Japan to Bolivia. Then Mauceri examines the music itself, helping us understand what it is we hear when we listen to classical music: how, by a kind of sonic metaphor, it expresses the deepest recesses of human feeling and emotion; how each piece bears the traces of its history; how the concert experience--a unique one each and every time--allows us to discover music anew. Unpretentious, graceful, instructive, this is a book for the aficionado, the novice, and anyone looking to have the love of music fired within them.

"In this magnificent book, Oliver Schuchard provides more than sixty-five exquisite black-and-white photographs spanning his thirty-eight years of photography. In addition, he explains the aesthetic rationale and techniques he used in order to produce these photographs, emphasizing the profound differences between, yet necessary interdependence of, craft and content. Although Schuchard believes that craft is important, he maintains that the idea behind the photograph and the emotional content of the image are equally vital and are, in fact, functions of one another. The author also shares components of his life experience that he believes helped shape his development as an artist and a teacher. He chose the splendid photographs included in this book from among nearly 5,000 negatives that had been exposed all over the world, from Missouri to Maine, California, Alaska, Colorado, France, Newfoundland, and Hawaii, among many other locations. Approximately 250 negatives survived the initial review, and each of those was printed before a final decision was made on which photographs were to be featured in the book. The final choices are representative of Schuchard's work and serve to substantiate his belief that craft, concept, and self must be fully understood and carefully melded for a good photograph to occur. This amazing work by award-winning photographer Oliver Schuchard will be treasured by professional and amateur photographers alike, as well as by anyone who simply enjoys superb photography."--Publishers website.

"What is anthropology? What can it tell us about the world? Why, in short, does it matter? For well over a century, cultural anthropologists have circled the globe, from Papua New Guinea to suburban England and from China to California, uncovering surprising facts and insights about how humans organize their lives and articulate their values. In the process, anthropology has done more than any other discipline to reveal what culture means--and why it matters. By weaving together examples and theories from around the world, Matthew Engelke provides a lively, accessible, and at times irreverent introduction to anthropology, covering a wide range of classic and contemporary approaches, subjects, and practitioners. Presenting a set of memorable cases, he encourages

readers to think deeply about some of the key concepts with which anthropology tries to make sense of the world--from culture and nature to authority and blood. Along the way, he shows why anthropology matters: not only because it helps us understand other cultures and points of view but also because, in the process, it reveals something about ourselves and our own cultures, too." -- Cover.

Bangladesh was once East Pakistan, the Muslim nation carved out of the Indian Subcontinent when it gained independence from Britain in 1947. As religion alone could not keep East Pakistan and West Pakistan together, Bengali-speaking East Pakistan fought for and achieved liberation in 1971. Coups and assassinations followed, and two decades later it completed its long, tumultuous transition to parliamentary government. Its history is complex and tragic—one of war, natural disaster, starvation, corruption, and political instability. First published in India by the Aleph Book Company, Salil Tripathi's lyrical, beautifully wrought tale of the difficult birth and conflict-ridden politics of this haunted land has received international critical acclaim, and his reporting has been honored with a Mumbai Press Club Red Ink Award for Excellence in Journalism. *The Colonel Who Would Not Repent* is an insightful study of a nation struggling to survive and define itself.

Teaching To Transgress Simon and Schuster

First published in 1976, Paul Johnson's exceptional study of Christianity has been loved and widely hailed for its intensive research, writing, and magnitude—"a tour de force, one of the most ambitious surveys of the history of Christianity ever attempted and perhaps the most radical" (New York Review of Books). In a highly readable companion to books on faith and history, the scholar and author Johnson has illuminated the Christian world and its fascinating history in a way that no other has. Johnson takes off in the year AD 49 with his namesake the apostle Paul. Thus beginning an ambitious quest to paint the centuries since the founding of a little-known 'Jesus Sect', *A History of Christianity* explores to a great degree the evolution of the Western world. With an unbiased and overall optimistic tone, Johnson traces the fantastic scope of the consequent sects of Christianity and the people who followed them. Information drawn from extensive and varied sources from around the world makes this history as credible as it is reliable. Invaluable understanding of the framework of modern Christianity—and its trials and tribulations throughout history—has never before been contained in such a captivating work.

How to Think Like an Anthropologist Simon and Schuster

The *Box Social & Other Stories* gathers together nine of James Reaney's short fictions written in the 40s and early 50s and never previously collected in book form. The collection takes its title from a short piece the author originally published in the *University College Undergrad* and which provoked a firestorm of eight hundred angry letters from subscribers when it was republished nationally in the *New Liberty* in the late 40s. It also thwarted the young author's designs on the editorship of the *Undergrad* because of his clear moral unsuitability for such an august position. (This is doubtful, because the *Undergrad* eventually came to be edited, thirty years later, by PQL publisher Tim Inkster.) 'The Box Social' is remarkable, not only that it introduced the theme of date rape to Canadian literature some thirty years before the phrase was coined, but also that it is told from Sylvia's point of view, and yet again that it ends with one of the quietest lines of literary vitriol imaginable ... 'I hated you so much,' she said softly.' If Alice Munro has put the sexually awakening female under glass in *Lives of Girls and Women*, then *The Box Social* could just as easily have been titled *Lives of Boys and Men*. In 'The Bully', the brutality of what passes for etiquette in secondary school is contrasted with the simpler life of the farm personified in Noreen who drops

grain in the shape of letters to feed her chickens -- 'so that when the hens ate the grain they were forced to spell out Noreen's initials or to form a cross and circle. There were just enough hens to make this rather an interesting game. Sometimes, I know, Noreen spelled out whole sentences in this way, a letter or two each night, and I often wondered to whom she was writing up in the sky.'

'The Bully' was included in *The New Oxford Book of Canadian Short Stories* edited by Margaret Atwood and Robert Weaver. The young Margaret Atwood first encountered 'The Bully' as an undergraduate. She read the story, oddly enough, in an anthology edited by Robert Weaver, and the experience was apparently seminal to her own development as a writer of fiction ...
