Educationally Screwed Chronicle Books

Residency is a defining period in a physician's life because it is the decisive stage for personal growth, intellectual challenge and emotional stress. It is a major transitional period transforming a medical student into a practice-ready physician. This role-change for the physician-in-training usually takes place in a new setting and necessitates coping with conflicting demands, heavy responsibility and long work hours. Adding to the residents' burden is the ongoing need to manage their financial, social and work demands. This manual was designed to help medical students on this final critical segment of their journey to become practicing physicians. It will enhance the students' awareness of the potential obstacles along the way and provide them with guidance on how to avoid them. The book includes: selecting an appropriate specialty, maximizing the chances of being selected, surviving residency and beginning practice.

Courage to Say No Fulton Books, Inc.

NATIONAL BESTSELLER • WINNER OF THE NATIONAL BOOK CRITICS CIRCLE'S JOHN LEONARD AWARD • LONGLISTED FOR THE NATIONAL BOOK AWARD NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE WASHINGTON POST AND ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • San Francisco Chronicle • New York • Chicago Tribune • Kansas City Star • GQ • NPR • Christian Science Monitor • Cleveland Plain Dealer In a small rural village in Chechnya, eight-year-old Havaa watches from the woods as Russian soldiers abduct her father in the middle of the night and then set fire to her home. When their lifelong neighbor Akhmed finds Havaa hiding in the forest with a strange blue suitcase, he makes a decision that will forever change their lives. He will seek refuge at the abandoned hospital where the sole remaining doctor, Sonja Rabina, treats the wounded. For Sonja, the arrival of Akhmed and Havaa is an unwelcome surprise. Weary and overburdened, she has no desire to take on additional risk and responsibility. But over the course of five extraordinary days, Sonja's world will shift on its axis and

reveal the intricate pattern of connections that weaves together the pasts of these three unlikely companions and unexpectedly decides their fate. A story of the transcendent power of love in wartime, *A Constellation of Vital Phenomena* is a work of sweeping breadth, profound compassion, and lasting significance. Now with Extra Libris material, including a reader's guide and bonus content from the author. Praise for *A Constellation of Vital Phenomena* "Here, in fresh, graceful prose, is a profound story that dares to be as tender as it is ghastly, a story about desperate lives in a remote land that will quickly seem impossibly close and important. . . . I haven't been so overwhelmed by a novel in years. At the risk of raising your expectations too high, I have to say you simply must read this book."—Ron Charles, *Washington Post* "Extraordinary . . . a 21st century War and Peace . . . Marra seems to derive his astral calm in the face of catastrophe directly from Tolstoy."—Madison Smartt Bell, *New York Times Book Review* "Ambitious and intellectually restless . . . [Marra is] a lover not a fighter, a prose writer who resembles the Joseph Heller of *Catch-22* and the Jonathan Safran Foer of *Everything Is Illuminated*."—Dwight Garner, *New York Times* *Buddhist Circuit in Central India* University of Toronto Press *Life After Residency: A Career Planning Guide* is an insightful, step-by-step guide to achieving a successful and fulfilling career in medicine. As professors at Stanford University Medical Center, Drs. Melissa Berhow, William Feaster, and John Brock-Utne began running seminars to advise their residents not only on creating a curriculum vitae and landing a great job, but also on how to manage student loan payments and avoid pitfalls in the life of a physician. The immense success and ensuing demand for more seminars eventually gave rise to *Life After Residency*—a book which continues the seminar discussions in greater depth and magnitude, while maintaining a conversational writing style. Key topics covered include: preparing for a job interview, evaluating job offers and negotiating contracts, obtaining and maintaining the proper State license, applying for membership onto Medical Staffs, obtaining malpractice insurance, buying a house and investing for eventual retirement, and pursuing non-medical career options. Loaded with sage advice and practical wisdom, *Life After Residency* is an invaluable asset to every resident

during the transition from residency to life thereafter.

Writing Women in Modern China Oxford University Press, USA It is 1946, and a young man stares out his third-story apartment window. He has returned from the war with metastatic cancer and assumes he will die, leaving his wife and infant daughter behind. Instead, he lives another twenty-four years, raising a family of four children, before he succumbs to a second colon cancer. His son, the author, recognizes that there is a hereditary cancer syndrome in the family and resolves to solve the problem as a medical researcher. Eventually, hereditary colorectal cancer is recognized as a medical entity, and multiple genes responsible for this hereditary condition are isolated. However, the mutation responsible in the author's family escaped detection. In 2001, his laboratory identifies the mutation responsible for the problem and develops a specific test for the family. This permits the mutation carriers to obtain life-saving care, altering the natural history of the disease for his family and others.

Chanderi Travel Guide CRC Press

The ultimate survival guide for medical students, interns, residents, and fellows, *Staying Human during Residency Training* provides time-tested advice and the latest information on every aspect of a resident's life – from choosing a residency program, to coping with stress, enhancing self-care, and protecting personal and professional relationships. Allan D. Peterkin, MD, provides hundreds of tips on how to cope with sleep deprivation, time pressures, and ethical and legal issues. This sixth edition is not only updated to reflect the latest research and resources, but also features new material on the latest issues in residency training, including social media use, patient-centred care, the medical humanities, and the “hidden curriculum” of residency. Presenting practical antidotes to cynicism, careerism, and burnout, Peterkin also offers guidance on fostering more empathic connection with patients and deepening relationships with colleagues, friends, and family. Acknowledged by thousands of doctors across North America as an invaluable resource, *Staying Human during Residency Training* has helped to shape notions of trainee well-being for medical educators worldwide. Offering wise, compassionate, and professional counsel, this new edition again shows why it is required reading for medical students and new physicians pursuing postgraduate training.

From Medical School to Residency Fairchild Books

An eye-opening and richly illustrated journey through the clothes worn by artists, and what they reveal to us. From Yves Klein's spotless tailoring to the kaleidoscopic costumes of Yayoi Kusama and Cindy Sherman, from Andy Warhol's denim to Martine Syms's joy in dressing, the clothes worn by artists are tools of expression, storytelling, resistance, and creativity. In *What Artists Wear*, fashion critic and art curator Charlie Porter guides us through the wardrobes of modern artists: in the studio, in performance, at work or at play. For Porter, clothing is a way in: the wild paint-splatters on Jean-Michel Basquiat's designer clothing, Joseph Beuys's shamanistic felt hat, or the functional workwear that defined Agnes Martin's life of spiritual labor. As Porter roams widely from Georgia O'Keeffe's tailoring to David Hockney's bold color blocking to Sondra Perry's intentional casual wear, he weaves his own perceptive analyses with original interviews and contributions from artists and their families and friends. Part love letter, part guide to chic, with more than 300 images, *What Artists Wear* offers a new way of understanding art, combined with a dynamic approach to the clothes we all wear. The result is a radical, gleeful inspiration to see each outfit as a canvas on which to convey an identity or challenge the status quo.

From succinct reportage of contemporary historical circumstances

to comic accounts of twentieth-century urban living to carefully stylized modernist works of fiction, the selections in this anthology reflect the diversity, liveliness, humor, and surprising cosmopolitanism of women's writing from the period. This collection also reveals the ways in which women writers imagined and inscribed new meanings to Chinese feminism. Also included are biographical information on the writers, bibliographical materials, and a critical introduction by Dooling.

Wischnitzer's Residency Manual Taylor & Francis

The New York Times–bestselling volume of mini-memoirs exploring the personal histories we carry in treasured articles of clothing—now a Netflix docuseries. Everyone has a memoir in miniature in at least one piece of clothing. In *Worn Stories*, Emily Spivack has collected over sixty of these clothing-inspired narratives from cultural figures and talented storytellers. First-person accounts range from the everyday to the extraordinary, such as artist Marina Abramovic on the boots she wore to walk the Great Wall of China; musician Rosanne Cash on the purple shirt that belonged to her father; and fashion designer Cynthia Rowley on the Girl Scout sash that informed her business acumen. Other contributors include Greta Gerwig, Heidi Julavits, John Hodgman, Brandi Chastain, Marcus Samuelsson, Piper Kerman, Maira Kalman, Sasha Frere-Jones, Simon Doonan, Albert Maysles, Susan Orlean, Andy Spade, Paola Antonelli, David Carr, Andrew Kuo, and more. By turns funny, tragic, poignant, and celebratory, *Worn Stories* offers a revealing look at the clothes

that protect us, serve as a uniform, assert our identity, or bring back the past—clothes that are encoded with the stories of our lives.

The Chanderi Travel Guide takes the reader on a fascinating journey to this hitherto unexplored but charming destination in Madhya Pradesh. Located in the north of the Malwa Plateau, Chanderi has historically been a coveted military outpost for rulers of the north seeking to make forays into the Deccan. The Khiljis, Mughals and Bundelas successively held sway here, building architectural gems like the Chanderi Fort, Badal Mahal Gate, Jama Masjid and Chaubisi Jain temple. Also dotting the landscape are numerous baolis and dargahs that lend a special feel to the town. The book also has a well-researched section on

Chanderi's weaving tradition that today overshadows its history and legends, with shimmering, gossamer fabrics that have captivated the world.

Design Materials and Making for Social Change spans the two interconnected worlds of the material and the social, at different scales and in different contexts, and explores the value of the knowledge, skills and methods that emerge when design researchers work directly with materials and hold making central to their practice. Through the social entanglements of addressing material impacts, the contributors to this edited volume examine homelessness, diaspora, migration, the erosion of craft skills and communities, dignity in work and family life, the impacts of colonialism, climate crisis, education, mental health and the shifting complexities in collaborating with and across diverse disciplines and stakeholders. This book celebrates the role of materials and making in design research by demonstrating the diverse and complex interplay between disciplines and the cultures it enables, when in search of alternative futures. *Design Materials and Making for Social Change* will be of interest to scholars in materials design, textile design, product design, fashion design, maker culture, systemic design, social design, design for sustainability and circular design.
