Native Foodways is the first scholarly collection of essays devoted exclusively to the interplay of Indigenous religious traditions and foodways in North America. Drawing on diverse methodologies, the essays discuss significant confluences in selected examples of these religious traditions and foodways, providing rich individual case studies informed by relevant historical, ethnographic, and comparative data. Many of the essays demonstrate how narrative and active elements of selected

Indigenous North American religious traditions have provided templates for interactive relationships with particular animals and plants, rooted in detailed information about their local environments. In return, these animals and plants have provided these Native American communities with sustenance. Other essays provide analyses of additional contemporary and historical North American Indigenous foodways while also addressing issues of tradition and cultural change. Scholars and other readers interested in ecology, climate change, world hunger, colonization, religious studies, and cultural studies will find this book to be a valuable resource.

Career Construction Theory Simon and Schuster

Special education law and practice have undergone profound transformation over the past 50 years. Students with disabilities are now more likely to receive a free and appropriate education in the least restrictive environment possible; however, the ideals of the law have not always been manifested in effective practice. Although special education services are vastly better today than they were in the early years of public education, current policies and practices continue to result in the under-education of many children with disabilities. This book illustrates key failures of the system within the context of real children's experiences. The case study approach gives voice to the students, families, and educators who have been let down by the special education process. The goal is to shed light on the flaws and injustices of the status quo. After identifying these problems, the authors offer sound solutions. Section 1 is devoted to issues surrounding identification of students with learning disabilities. These topics include occurrence of inconsistencies in assessment and diagnoses, understanding the struggles of the "slow learner," and the interference of behavioral challenges with students' educational performance. Section 2 addresses problems within the evaluation process that negatively influence diagnoses. Discussions include disproportionate representation of students from low socioeconomic backgrounds as well as students of color and bilingual students. Section 3 highlights significant concerns with service provision within the special education realm. The narratives throughout the book present stories of children on the receiving end of a severely fractured special education system. Recommendations focus on solving specific problems, such as inconsistent identification processes and categories, disproportionate representation, ill-conceived IEPs, ineffective specially designed instruction, and poorly implemented RTI programs. The book's methodological approach affirms that there is much room for reform within both the special education system and the public education system as a whole. This book will be an excellent resource for graduate-level students, practitioners, and teachers in the fields of special education, disability studies, early intervention, school psychology, and child and family services. Additionally, it will be of interest to social workers, counselors, and researchers.

Hail to UNCP! recounts one of the most unique and compelling stories in higher education--a school founded in 1887 to train Lumbee Indian teachers that evolved into a four-year university and constituent institution of the internationally acclaimed University of North Carolina system. The University of North Carolina at Pembroke had humble beginnings with fifteen students and one teacher. As the only state-supported, four-year college for American Indians in the nation (1939-1953), the institution successfully navigated the challenges of internal and tribal factionalism, budget crises, Jim Crow segregation, the Great Depression, integration, and rapid expansion, to grow into a campus with more than 6,200 students--recognized today as the most diverse in North Carolina and the southern United States.

The book details the extraordinary spirit of the institution and the courageous foresight of Lumbee leaders who struggled to establish the school during challenging times following the Civil War and Reconstruction. Hail to UNCP! also focuses on what the institution has meant, and still means, to the Lumbee people, to students and alumni past and present, and to the people of the area it serves. This remarkable story highlights luminaries from the institution's history and the defining moments that shaped the interconnected histories of the institution, the Lumbee and other Indian peoples, and southeastern North Carolina. Hail to UNCP! was awarded a 2014 Willie Parker Peace History Book Award by the North Carolina Society of Historians.

In *The Native South*, Tim Alan Garrison and Greg O'Brien assemble contributions from leading ethnohistorians of the American South in a state-of-the-field volume of Native American history from the sixteenth to the twenty-first century. Spanning such subjects as Seminole-African American kinship systems, Cherokee notions of guilt and innocence in evolving tribal jurisprudence, Indian captives and American empire, and second-wave feminist activism among Cherokee women in the 1970s, *The Native South* offers a dynamic examination of ethnohistorical methodology and evolving research subjects in southern Native American history. Theda Perdue and Michael Green, pioneers in the modern historiography of the Native South who developed it into a major field of scholarly inquiry today, speak in interviews with the editors about how that field evolved in the late twentieth century after the foundational work of James Mooney, John Swanton, Angie Debo, and Charles Hudson. For scholars, graduate students, and undergraduates in this field of American history, this collection offers original essays by Mika♦la Adams, James Taylor Carson, Tim Alan Garrison, Izumi Ishii, Malinda Maynor Lowery, Rowena McClinton, David A. Nichols, Greg O'Brien, Meg Devlin O'Sullivan, Julie L. Reed, Christina Snyder, and Rose Strelau.

In this comprehensive history of the Illinois Chapter of the Black Panther Party (ILBPP), Chicago native Jakobi Williams demonstrates that the city's Black Power movement was both a response to and an extension of the city's civil rights movement. Williams focuses on the life and violent death of Fred Hampton, a charismatic leader who served as president of the NAACP Youth Council and continued to pursue a civil rights agenda when he became chairman of the revolutionary Chicago-based Black Panther Party. Framing the story of Hampton and the ILBPP as a social and political history and using, for the first time, sealed secret police files in Chicago and interviews conducted with often reticent former members of the ILBPP, Williams explores how Hampton helped develop racial coalitions between the ILBPP and other local activists and organizations. Williams also recounts the history of the original Rainbow Coalition, created in response to Richard J. Daley's Democratic machine, to show how the Panthers worked to create an antiracist, anticclass coalition to fight urban renewal, political corruption, and police brutality.

Offering a strategic orientation to crisis management, this fully updated edition of *Crisis Management: Leading in the New Strategy Landscape, Second Edition* by William "Rick" Crandall, John A. Parnell, and John E. Spillan helps readers understand the importance of planning for crises within the wider framework of an organization's regular strategic management process. This strikingly engaging and easy-to-follow text focuses on a four-stage crisis management framework: 1) Landscape Survey: identifying potential crisis vulnerabilities, 2) Strategic Planning:

organizing the crisis management team and writing the plan, 3) Crisis Management: addressing the crisis when it occurs, and 4) Organizational Learning: applying lessons from crises so they will be prevented or mitigated in the future.

Three-dimensional (3D) immersive virtual worlds have been touted as being capable of facilitating highly interactive, engaging, multimodal learning experiences. Much of the evidence gathered to support these claims has been anecdotal but the potential that these environments hold to solve traditional problems in online and technology-mediated education—primarily learner isolation and student disengagement—has resulted in considerable investments in virtual world platforms like Second Life, OpenSimulator, and Open Wonderland by both professors and institutions. To justify this ongoing and sustained investment, institutions and proponents of simulated learning environments must assemble a robust body of evidence that illustrates the most effective use of this powerful learning tool. In this authoritative collection, a team of international experts outline the emerging trends and developments in the use of 3D virtual worlds for teaching and learning. They explore aspects of learner interaction with virtual worlds, such as user wayfinding in Second Life, communication modes and perceived presence, and accessibility issues for elderly or disabled learners. They also examine advanced technologies that hold potential for the enhancement of learner immersion and discuss best practices in the design and implementation of virtual world-based learning interventions and tasks. By evaluating and documenting different methods, approaches, and strategies, the contributors to *Learning in Virtual Worlds* offer important information and insight to both scholars and practitioners in the field.

The Rise of Liberal Religion Springer

Winner of the Frank S. and Elizabeth D. Brewer Best First Book Prize of the American Society of Church History Named a Society for U. S. Intellectual History Notable Title in American Intellectual History The story of liberal religion in the twentieth century, Matthew S. Hedstrom contends, is a story of cultural ascendancy. This may come as a surprise—most scholarship in American religious history, after all, equates the numerical decline of the Protestant mainline with the failure of religious liberalism. Yet a look beyond the pews, into the wider culture, reveals a more complex and fascinating story, one Hedstrom tells in *The Rise of Liberal Religion*. Hedstrom attends especially to the critically important yet little-studied arena of religious book culture—particularly the religious middlebrow of mid-century—as the site where religious liberalism was most effectively popularized. By looking at book weeks, book clubs, public libraries, new publishing enterprises, key authors and bestsellers, wartime reading programs, and fan mail, among other sources, Hedstrom is able to provide a rich, on-the-ground account of the men, women, and organizations that drove religious liberalism's cultural rise in the 1920s, 1930s, and 1940s. Critically, by the post-WWII period the religious middlebrow had expanded beyond its Protestant roots, using mystical and psychological spirituality as a platform for interreligious exchange. This compelling history of religion and book culture not only shows how reading and book buying were critical twentieth-century religious practices, but also provides a model for thinking about the relationship of religion to consumer culture more broadly. In this way, *The Rise*

of Liberal Religion offers both innovative cultural history and new ways of seeing the imprint of liberal religion in our own times.

Brutal Intimacy is the first book to explore the fascinating films of contemporary France, ranging from mainstream genre spectacles to arthouse experiments, and from wildly popular hits to films that deliberately alienate the viewer. Twenty-first-century France is a major source of international cinema—diverse and dynamic, embattled yet prosperous—a national cinema offering something for everyone. Tim Palmer investigates France's growing population of women filmmakers, its buoyant vanguard of first-time filmmakers, the rise of the controversial cinema du corps, and France's cinema icons: auteurs like Olivier Assayas, Claire Denis, Bruno Dumont, Gaspar Noé, and stars such as Vincent Cassel and Jean Dujardin. Analyzing dozens of breakthrough films, *Brutal Intimacy* situates infamous titles alongside many yet to be studied in the English language. Drawing on interviews and the testimony of leading film artists, *Brutal Intimacy* promises to be an influential treatment of French cinema today, its evolving rivalry with Hollywood, and its ambitious pursuits of audiences in Europe, North America, and around the world.

The Lumbee Indians Wesleyan University Press

Jamestown, the Lost Colony of Roanoke, and Plymouth Rock are central to America's mythic origin stories. Then, we are told, the main characters—the "friendly" Native Americans who met the settlers—disappeared. But the history of the Lumbee Tribe of North Carolina demands that we tell a different story. As the largest tribe east of the Mississippi and one of the largest in the country, the Lumbees have survived in their original homelands, maintaining a distinct identity as Indians in a biracial South. In this passionately written, sweeping work of history, Malinda Maynor Lowery narrates the Lumbees' extraordinary story as never before. The Lumbees' journey as a people sheds new light on America's defining moments, from the first encounters with Europeans to the present day. How and why did the Lumbees both fight to establish the United States and resist the encroachments of its government? How have they not just survived, but thrived, through Civil War, Jim Crow, the civil rights movement, and the war on drugs, to ultimately establish their own constitutional government in the twenty-first century? Their fight for full federal acknowledgment continues to this day, while the Lumbee people's struggle for justice and self-determination continues to transform our view of the American experience. Readers of this book will never see Native American history the same way.

"In Sickness and In Health" lets you walk in the shoes of a young woman who was diagnosed with Multiple Myeloma, cancer of the plasma cells. During her treatment process, she kept a journalized account of her daily and weekly activities. This book shows how her faith was tested time and time again; not only in dealing with the cancer, but with many other life-changing situations that seemingly occurred all at the same time. You will see, as she had to learn, that you must trust God in sickness and in health.

Part of the Brooks/Cole Empowerment Series, this ninth edition integrates the core competencies and practice behaviors outlined in the 2008 Educational Policy and Accreditation Standards

(EPAS) set by the Council on Social Work Education (CSWE). This classic text helps students recognize ethical issues and dilemmas, reason carefully about ethical issues, clarify their ethical aspirations at the level demanded by the profession, and achieve a more ethical stance in their practice. It places ethical decision making within the context of professional ethics and provides useful guidelines, including two ethical screens to help social work practitioners identify priorities among competing ethical obligations. Developed specifically for social workers, it features numerous case-like exemplars based on real-world practice, drawn from a variety of social work settings. This comprehensive and uniquely focused text is equally effective as a core resource for social work ethics courses, or as a valuable supplement within introductory, practice, or practicum courses. MacNolia Cox won the Akron District Spelling Bee, and at the age of 13 she became the first African American to reach the final round of the national competition. The Southern judges, it is thought, kept her from winning by presenting a word not on the official list. The word that tripped MacNolia, ironically, was "nemesis." When she died 40 years later, the girl who "was almost/ The national spelling champ" had become a cleaning woman, a grandmother, and "the best damn maid in town." Cox's

ambition and her later frustration find incisive shape in this remarkably varied meditation on ambition, racism, discouragement and ennui, where successive pages can bring to mind a handbook of poetic forms (a double sestina, Japanese-inspired syllabics, a blues ghazal and prose poems based on definitions of prepositions), Ann Carson's "TV Men" poems, Rita Dove's Thomas and Beulah and the documentary film Spellbound. Jordan (Rise) begins in Cox's later life, giving voice to her husband, John Montiere, at "The Moment Before He Asks MacNolia Out on a Date," then to MacNolia herself when in 1970 her son dies just after his return from Vietnam. As counterpoints, Jordan intersperses poems about African-Americans who won more lasting public acclaim, among them Richard Pryor, Josephine Baker and the great labor organizer and orator A. Philip Randolph. Jordan's most quotable poems, however, return to the voice of the 13-year-old speller, who "learned the word chiaroscuro/ By rolling it on my tongue// Like cotton candy the color/ Of day and night."
