school, homeschools, and homeschool cooperatives. It is also being used by missionaries and in children's church activities. Beginning with kindergarten, the curriculum contains potentially nine years (kindergarten through grade eight) of solid art instruction (526 pages, 35 weekly themes, 269 art activities, and 137 patterns and posters) all addressing the basic elements and principles of art, academic skills (reading, vocabulary, and much more) and visual/eye/hand coordination skills. Students learn many techniques and grow in their ability for expression and art appreciation. Themes are reinforced from year-to-year by adjusting

comprehension of the material to the grade level and by the abundance of art activities allowing the teacher to select activities to vary the experiences. Levels are organized in a natural learning progression of brain and motor skills that address Bloom's Taxonomy of thinking categories of knowledge, comprehension, and application plus the higher order thinking skills of analysis, synthesis, and evaluation. All themes and activities are integrated with Scripture that also accommodate major seasonal celebrations so important to elementary levels. Included are recommendations for art history and contemporary image

references, connections with core curriculum, complete instructions for teachers and students, and many "helps" for instructors with limited art training. Common materials are used with suggestions for substitutes. All lessons are analyzed for National Visual Art Standards for teachers required by administrators to explain the content value.
