Training is the first concern of every new puppy owner, and this *Smart Owner's Guide Puppy Training* offers 176 pages of concise guidance to get every owner and puppy on the right track. As *Dog Fancy* Editor-at-Large states in the introduction: "Once your puppy is well trained, he'll be a joy to live with. He will be welcomed in your community and will make you proud whether you're traveling with him, entertaining guests at home or just hanging out with the family." Toward that goal, *Puppy Training* begins with "Part 1: House-Training," written by long-time *Dog Fancy* contributor Bardi McLennan. This section discusses everything the owner needs to know to start off with the puppy in the home, getting him acclimated to the new environment, and teaching him the basic principles of house-training. A detailed chapter titled "The Doggie Den" discusses how to crate-train a puppy and the best ways to use (and not use) a dog crate. The second part of the book, written by award-winning dog trainer and author Miriam Fields-Babineau, is dedicated to "Obedience Training." In this section of the book, the author discusses canine communication, good manners, and socialization. The basic cues are explained, beginning with walking on a loose leash, and progressing to sit, down, stay, come, and stand. Each lesson is broken down into steps and illustrated by photography to assist the owner. A chapter on advanced training coaches the owner on how to work with his or her dog off leash, adding distance and distractions, and more. Critical to the success of every puppy owner is solving potential behavioral issues, and the book offers solutions to various problems, including jumping up, garbage picking, excessive barking, stealing food and other items, counter surfing, cat chasing, door darting, mouthing and chewing. Special training tips are highlighted in the "K9 Advice" sidebars. Entertaining tidbits and smart advice fill up other colorful sidebars in every chapter, which the editors call "It's a Fact," "Smart Tip,"

"Notable & Quotable," and "Did You Know?" The *Smart Owner's Guide* series is the only series that offers readers an online component in which dog owners can join an online club hosted by [dogchannel.com](http://dogchannel.com). At Club Pup, owners can find forums, blogs, and profiles to connect with other new puppy owners, as well as charts and checklists that can be downloaded. Are you a dog lover? Do you want to train your puppy? Are you having issues with your puppy? Well This Book is for you! Dog preparing can be overpowering. Envision the amount of a modification it will be for your canine. It's another procedure that the two gatherings must change in accordance with and in some cases, the alteration is troublesome. In the event that you are an amateur at this, there will be questions and concerns however following the best possible tips and rules can ease numerous issues or deterrents before they happen. What's more, avoid potential risk to make preparing agreeable for canines and they will probably react emphatically to the preparation procedure. A primary issue with dog training is that owners tend to navigate towards training methods that make them happy. Try to recall that the training process must also generate a good feeling for your dog. Today's dog owners are somewhat stuck on the "positive" approach for training methods. This leads to the use or overuse of food, failure to say "no" to him, or refusal to bestow any feelings of discomfort upon him for his wrong doings. This is an error that dog owners make when they are stuck on the positive approach. It becomes difficult to ever discipline a dog when you are constantly overlooking their negative behavior. Dogs are smart and will sometimes refuse to obey usually because they are determined and choose not to do so. When this happens, most realize that there are no consequences with owners who never reprimand them for disobeying. Make a habit of verbally saying "No" when your dog disobeys. This Book Covers: Dog and Puppy Psychology Positive Reinforcement Training Equipment Choosing a Crate Methods of Housebreaking

Housebreaking Dos and Don'ts Top Training Techniques Putting Your Dog on a Schedule Potty Training Process Common Dog Training Mistakes One Week Formula of Housebreaking And much more! It is imperative to create a bond with your dog. Training is a great tool for establishing confidence and respect while creating a bond. If your dog is trained and displays quality manners, he will be easier to manage, comfortable, calm and self-reliant. All these qualities combined present a happy space for you and the dog because you both are clear about the expectations. Research indicates that dogs that have undergone training for obedience are more attentive and in tuned with the commands of owners. This is the foundation for building a strong bond. By giving your dog the guidance he needs through training, it also provides him with increased physical activity, mental stimulation, quality time and responsibilities. Research indicates that the average dog is more impressed by their reward if they have to work for it or earn it. Your pet feels that it's his responsibility or job to obey those commands and it makes him feel accomplished when he does so successfully. You may think it's impossible for dogs to talk back because they're nonverbal. Although they're nonverbal, dogs have a way of talking back or disobeying commands.
