What really sets the best managers above the rest? It's their power to build a cadre of employees who have great inner work lives—consistently positive emotions; strong motivation; and favorable perceptions of the organization, their work, and their colleagues. The worst managers undermine inner work life, often unwittingly. As Teresa Amabile and Steven Kramer explain in *The Progress Principle*, seemingly mundane workday events can make or break employees' inner work lives. But it's forward momentum in meaningful work—progress—that creates the best inner work lives. Through rigorous analysis of nearly 12,000 diary entries provided by 238 employees in 7 companies, the authors explain how managers can foster progress and enhance inner work life every day. The book shows how to remove obstacles to progress, including meaningless tasks and toxic relationships. It also explains how to activate two forces that enable progress: (1) catalysts—events that directly facilitate project work, such as clear goals and autonomy—and (2) nourishers—interpersonal events that uplift workers, including encouragement and demonstrations of respect and collegiality. Brimming with honest examples from the companies studied, *The Progress Principle* equips aspiring and seasoned leaders alike with the insights they need to maximize their people's performance.

And I'm betting that once inspired, you'll actually make something happen."

But Are You Making Any Money? Random House

Bud Carter's fascination with quotes likely started when he was an award-winning radio news editor, then a TV anchorman, and ultimately the publisher/editor of an issues and business weekly newspaper. After he moved to Atlanta, he was recruited to become Vistage's first Chairman and began collecting the "salient snippets" shared by the speakers appearing before his groups. Since the 1987 start-up, Carter and his groups have heard more than 1,000 speaker presentations, and he has now published twelve editions of their pithy quotes. Carter and his wife reside in suburban Atlanta where he serves on a number of boards including (no surprise here) that of the Reporter Newspaper chain. Carter professes a passion for baseball and jazz, strives for mediocrity on the racquetball court, and says he has spent a lifetime in pursuit of the perfect barbecue. And more pithy quotes.

WHAT VALUABLE COMPANY IS NOBODY BUILDING? The next Bill Gates will not build an operating system. The next Larry Page or Sergey Brin won't make a search engine. If you are copying these

guys, you aren't learning from them. It's easier to copy a model than to make something new: doing what we already know how to do takes the world from 1 to n, adding more of something familiar. Every new creation goes from 0 to 1. This book is about how to get there. 'Peter Thiel has built multiple breakthrough companies, and Zero to One shows how.' ELON MUSK, CEO of SpaceX and Tesla 'This book delivers completely new and refreshing ideas on how to create value in the world.' MARK ZUCKERBERG, CEO of Facebook 'When a risk taker writes a book, read it. In the case of Peter Thiel, read it twice. Or, to be safe, three times. This is a classic.'
