dives into the basic SAP S/4HANA configuration settings for FSCM Credit Management. Beginners seeking to better understand the features, as well as consultants looking for information on how to configure the system, will find the information they need. Each chapter contains specific knowledge for both business users and technical support staff. What exactly is a Business

Partner and why do you need one? Explore the Business Partner master record and its relationship to the older master data model. Review settings required in the SAP customizing menu (IMG) for organizational structure and master data, as well as credit limit checking. Walk through the documented credit decision process in SAP. Review integration points with

Accounts Receivable (FI-AR) and Sales and Distribution (SD) in depth. Learn more about additional functionality available including credit limit requests and credit exposure updates. - Basic configuration settings - Integration points with FI-AR and SD - Organizational structure and master data - Business Partner master record Materials Management with SAP

project team, whereby the consultant applies acquired knowledge in this specialist area practically in projects.. The exam is Computer based and you have three Hours to answer 80 Questions. The Questions are (mostly) multiple choice type and there is NO penalty for an incorrect answer. Some of the Questions have more than one correct answer. You must get ALL

the options correct for you to be awarded points. For questions with a single answer, the answers will have a button next to them. You will be able to select only one button. For questions with multiple answers, the answers will have a 'tick box' next to them. This allows you to select multiple answers. You are not allowed to use any reference materials during the certification test (no access to

online documentation or to any SAP system). Clearing the Certification will not automatically lead you to a job. However a Certification with some project experience will certainly open a lot of doors for you. So if you have little or no experience, you should get yourself certified, get some project experience, and then the whole of the SAP World open for you to explore. Helping you with the first

step on you ladder to success is this book! Some UNIQUE features of this Book: - There is NO Other material in the market for the SAP Certified Application Associate - SAP S/4 HANA Production Planning and Manufacturing exam. - The authors have themselves cleared the exam. - All questions are multiple choice format, similar the questions you will get in the actual exam. - Over 125 authentic

questions, testing the exact same concepts that will be tested in Your exam!

Design and Evaluation of an E-Learning Artefact for the Implementation of SAP S/4HANA®
 SAP Press
 The objective of this study is to create a new e-learning artefact for SAP S/4 Hana training

purposes. Based on Design Science Research, a new prototype of an e-learning artefact has been developed. The prototype is grounded on didactic and information systems theories, as well as models. The aim of this new prototype is to transfer knowledge of business processes with the new Enterprise Resource Planning (ERP) SAP S/4 HANA in an effective

and efficient way. The study is validated through an experiment with a treatment and a control group. While the treatment group learns with the new e-learning artefact, the control group keeps with the existing conventional training. Results show that the treatment group have significantly less dropouts than the control group, and that the treatment group could also finalize

the SAP S/4 Hana exercises in less time. This study shows also how companies can benefit significantly using the same approach through a set of guidelines. *SAP S/4HANA Cloud* Independently Published What does SAP HANA mean for you? This book is your introduction to all the essentials: from implementation options to the basics of data modeling and

administration . With cutting-edge coverage of Smart Data Access, Vora, and more, this best-seller has everything you need to take your first steps with SAP HANA.
