education provider: the military. Woven through this issue is the common thread of sound adult education practice. Addressing applications specific to the military but relevant to civilian providers, it highlight the importance of developing the critical thinking and problem-solving skills essential for military leaders in an increasingly complex world. Chapters also address the intersection of higher education and particular military populations, including civilian

employees, active-duty personnel, veterans, and spouses. Finally, the sourcebook provides a glimpse into the future of both military education and adult education, highlighting the increasing bond between the two and their growing importance in the lifelong education of all Americans. This is 136th volume of the Jossey-Bass quarterly report series *New Directions for Adult and Continuing Education*. Noted for its depth of coverage, it explores issues of common interest

to instructors, administrators, counselors, and policymakers in a broad range of settings, such as colleges and universities, extension programs, businesses, libraries, and museums.

*Achieving in an Imperfect System: Avoiding the Fifth Point of Contact: The Gray Zone* By: Darren W. Hargrove SGM(R)  
*Achieving in an Imperfect System* is about your character and how to

avoid situations that call your character into question. Simply put, gracefully eat sh\*t instead of kissing ass to be successful and not have your character to ever be in question. That is the difference between the haves and have-nots. Even doing the right things does not always equate to the success you want or deserve. Inspire future leaders to not measure their success only by promotions; this is a trap because it is not guaranteed. Even the Monday-through-Friday,

nine-to-five leader can get promoted. Remember, being successful is different from being great! Things will not always come when you want them. You may have to go through many other things to get to where you want to be in life.

THAT SABBATH Princeton Review "Cuentos Tejanos" is a recounting of stories, legends, and people who helped forge the personality and character of the State of Texas, in particular in the Wild Horse Desert region South of the Nueces River and north of the Rio Grande. Many of these tales are historical in nature and

others are legends, accounts that were told by a campfire or converted to "Corridos" - ballads - by the Tejano. Some are academically inclined with sources and citations, but most are just stories told from generation to generation that have survived the test of time and must not be forgotten. You will also learn about many of the personalities that helped settled the area. You will read about conquistadores, generals, and feats of bravery. You will read folk stories -

some that will tickle your feelings and send shivers down your spine. You will be amazed at the depth of history this area has and wonder why it's not in the history books for our children to learn and retell. This is "Cuentos Tejanos." It is about tales of the Wild Horse Desert of Texas where wild Spanish mustangs roamed from the beaches of the Gulf of Mexico to the Brush Country of South Texas and the plains for the Rio Grande Valley delta. Most of the stories are by Dr. Manuel C.

Flores, Jr., professor of journalism and communications at Texas A&M University-Kingsville. He is a well-regarded Tejano historian and has made countless lectures and talks on the subject. He also has written two books, has chapters in two other books and his academic work has appeared in journals like the Journal of South Texas. Other stories are written by journalists and historians who felt their stories must also be told. "Cuentos Tejanos" translates to "Tejano

Tales," and thus the subtitle "Tales of Life in the Wild Horse Desert."

From missile launch sites to Soviet espionage, experience the Cold War deep in the heart of Texas. In an era when miscalculation or a mistake could lead to global annihilation, Texas operated 12 Atlas F intercontinental ballistic missile launch sites near Abilene's Dyess Air Force Base. Nuclear-capable Nike Hercules surface-to-

air antiaircraft missiles protected Austin and the Metroplex from a Soviet bomber attack. An American pilot stationed at Laughlin Air Force Base near Del Rio was the only fatality of the Cuban Missile Crisis. After he was accused of spying for the Soviet Union, former Ranger College professor Maurice Halperin fled the country. Amarillo's Pantex plant, where three employees died in a 1977 explosion, maintains the security and reliability of the nation's nuclear weapons arsenal. Landry

The U.S. military has been

continuously engaged in foreign conflicts for over two decades. The strains that these deployments, the associated increases in operational tempo, and the general challenges of military life affect not only service members but also the people who depend on them and who support them as they support the nation — their families. Family members provide support to service members while they serve or when they have difficulties; family problems can interfere with the ability of service

members to deploy or remain in theater; and family members are central influences on whether members continue to serve. In addition, rising family diversity and complexity will likely increase the difficulty of creating military policies, programs and practices that adequately support families in the performance of military duties. Strengthening the Military Family Readiness System for a Changing American Society examines the challenges

and opportunities facing military families and what is known about effective strategies for supporting and protecting military children and families, as well as lessons to be learned from these experiences. This report offers recommendations regarding what is needed to strengthen the support system for military families.

We know from the Scriptures that on the day

following the crucifixion, Jewish leaders demanded of Pilate that he provide guards for Jesus' tomb. However, no other significant events during that day are mentioned. It is easy to imagine that something transpired. Did the disciples gather together to mourn? Possibly. Many friends had followed Jesus to Jerusalem; did they just turn on their heels and return to their homes? Probably not. Assuming that some mourners wanted to get together, where might that have

been? Had we been there to join an assembly of followers, relatives, friends, and perhaps even "outsiders," could we have possibly witnessed the first Christian church service? Read and enjoy! *National Defense Authorization Act for Fiscal Year 2000* WestBow Press  
Throughout America and around the world, the United States has been known as a beacon of hope and opportunity, the land of the free and the home of the brave. Sadly, from the crumbling urban

ghetto of Detroit to the cash-strapped shores of California to the rust belt of the Midwest, America is not living up to that promise. Except in Texas. While unemployment soars elsewhere, Texans are hard at work. While small businesses across the country are going under, Texas entrepreneurs are thriving. While large companies are being squeezed by taxes, regulations and unions, more and more corporations are moving to Texas to grow and

expand. While people of faith are ridiculed and marginalized in most cities on both coasts, in Texas churches and synagogues are bursting at the seams. How did Texas embrace what the rest of America seems to have forgotten? In Lonestar America, popular talk radio show host Mark Davis presents a powerful case for economic prosperity, individual freedom, strong families, and even stronger pride of place - alive and kicking in Texas, and easily exportable to the

rest of America. Davis shows how Texas has done it, how some "honorary Texans" in other states (governors and even local communities) have adopted some of the same policies and approaches, and how states across the country can reclaim the promise of the American dream. *Inadequate Water Supply and Sewage Disposal Facilities Associated with "colonias" Along the United States and Mexican Border* John Wiley & Sons
