AUBREY MIDDLETON

The First Forty Days Pinter & Martin Publishers

This fully illustrated autobiography recounts Sheila Kitzinger's life from her childhood, with a mother who was a feminist before the term was invented, her student days in Oxford to her pioneering work in anthropology and tireless campaigning for women's rights and improvement in maternity services. An inspiration to many, Kitzinger talks candidly about her set-backs and failures as well as her achievements, the sexual exploitation and abuse that she encountered in her continuous and untiring struggle against the medicalization of childbirth."

Birth Matters Bantam

Includes chapter by Dr. John Gray, author of the best-selling, *Men are from Mars, Women are from Venus!* Over one million cesarean sections are performed each year in America. Only one-half of these invasive procedures are medically necessary. In the name of technological progress, hundreds of thousands of women have been coerced into relinquishing a most cherished right—the

right to give birth in a gentle, supportive environment, free of medical interventions. Many of these women suffer needlessly because they place their trust completely in doctors who view medical intervention and cesarean sections as a birthing panacea. American culture has conditioned women to fear pregnancy and childbirth. Now, more than ever, it is important for women to learn all the facts before giving birth. For instance, how many women know that cesarean delivery carries approximately four times the risk of maternal mortality compared to vaginal delivery? Or that being able to fully trust their own instincts and knowing how to accurately interpret the messages the body sends may be more important to a healthy delivery than any medical equipment? Women deserve to know this kind of information in order to see beyond the external considerations of childbirth so they can put themselves back in touch with the simple, peaceful, natural process of bringing a child into this world. *Trust Your Body! Trust Your Baby!* empowers women to face the challenges, fears, and decisions involved in giving birth today. Through anecdotal experiences, facts figures, and the contributions of well-known authors in the field, this rich volume offers fresh approaches to the aggressive procedures embraced by many doctors and women of child-bearing age. The physical, psychological, and cultural implications of cesarean

sections are thoroughly examined. Also explored are many time-tested techniques such as visualization, massage, and exercises that can reposition breech babies as well as other invaluable hints for avoiding unnecessary cesarean sections. Completing this unique work is a detailed discussion of associated issues such as VBAC, the husband's role in childbirth, circumcision, and the far-reaching effects natural delivery can have on the baby's entire life. Appendices provide valuable information about questions to ask your doctor, steps in forming a successful birth plan, and sources for further guidance. Through insightful education and an understanding that can only come through experience, Henkart show how every woman possesses the ability to overcome the fear and uncertainty commonly associated with birthing in the 90s. When this ability is fully realized, women can once again hold the key to making childbirth the powerful, wondrous, life experience it is meant to be.

Natural Childbirth the Bradley Way HarperCollins

"What a gift to new and expecting moms. You have no idea the mountain and rollercoaster you're about to embark on, but Nurture somehow gives you a peek in and gives you essential information to help ground you." –Catherine McCord, founder of Weelicious and One Potato A comprehensive

and judgement-free pregnancy companion: Nurture is the only all-in-one pregnancy and birthing book for modern mothers-to-be and their partners who want a more integrative approach. Author Erica Chidi Cohen has assisted countless births and helped hundreds of families ease into their new roles through her work as a doula. Nurture covers everything from the beginning months of pregnancy to the baby's first weeks. This empowering book includes:

- Supportive self-care and mindfulness exercises, trimester-specific holistic remedies, nourishing foods and recipes for every month of pregnancy, and expert tips for every birth environment.
- More than 40 charming and helpful illustrations, charts, and lists can be found throughout.
- Dozens of important topics that every modern mom needs to know including fetal development, making choices for a hospital, home or birth center birth, the basics of breastfeeding, tips on what to expect postpartum, and more.

Nurture is an all-inclusive pregnancy and birthing guide book that gives soon-to-be mothers and their partners the information they need to make decisions, feel confident, and enjoy the beauty of creating new life. Nurture is a thoughtful and helpful gift for expecting mothers and their partners. Erica Chidi is co-founder and CEO of Loom in Los Angeles, CA. She began her work in San Francisco, volunteering as a doula within the prison system, working with pregnant inmates. She went on to build a successful doula and health education practice in Los Angeles and has been featured in *Women's Health*, *Vogue*, *Goop*, *The Cut* and *Marie Claire*.

Birth Models That Work Penguin

After labor, it's time for rest: A gentle guide to *zuo yuezi*, the ancient Chinese practice of postpartum self-care, including sixty simple recipes. The first forty days after the birth of a child offer an essential and fleeting period of rest and recovery for the new mother. Based on Heng Ou's own postpartum experience with *zuo yuezi*, a set period of "confinement" in which a woman remains at home focusing on healing and bonding with her baby, *The First Forty Days* revives the lost art of caring for the mother after birth. As modern mothers are pushed to prematurely "bounce back" after delivering their babies, and are often left alone to face the physical and emotional challenges of this new stage of their lives, the first forty days provide a lifeline—a source of connection, nourishment, and guidance. This book includes sixty simple recipes for healing soups, replenishing meals and snacks, and calming and lactation-boosting teas, all formulated to support the unique needs of the new mother. In addition to recipes, this warm and encouraging guide offers advice on arranging a system of help during the postpartum period, navigating relationship challenges, and honoring the significance of pregnancy and birth. Fully illustrated, it is a practical guide and inspirational read for all new mothers and mothers-to-be—the perfect ally during the first weeks with a new baby. "Bringing our attention back to the importance of the postpartum period for new mothers helps to create space for this essential period of integration and recovery. . . an invaluable companion during the first 40 days and beyond." —Ricki Lake & Abby Epstein, filmmakers, *The Business of Being Born*

INSTANT NEW YORK TIMES BESTSELLER • WALL STREET JOURNAL BESTSELLER • #1 GLOBE AND MAIL BESTSELLER • USA TODAY BESTSELLER You are not broken. Being a woman is not a diagnosis. Take your body back with the groundbreaking new science for women in *Hormone Intelligence*. Hormonal. We all know what it means when we hear it – and feel it. While hormonal shifts are natural throughout women's lives, too many experience distressing period symptoms, struggle daily with PCOS, endometriosis, a fertility challenge, pain, low sex drive, sleep problems, acne, bloating, hot flashes, and more – all due to hormone-related problems. And too many are unable to get the answers they're really seeking from their doctors. There is a solution. In *Hormone Intelligence*, Yale trained and internationally renowned women's health expert, Dr. Aviva Romm, helps you identify the root causes of your symptoms and guides you through a 6-week proven program to achieve lifelong hormonal and gynecologic health. Using a holistic, dietary and lifestyle changing approach, *Hormone Intelligence* goes beyond treating symptoms to the deeper factors impacting women's health, so you can reclaim your body, hormones, and self. Inside *Hormone Intelligence*, you'll find:

- *Hormone Health 101*: Understand the key components of the hormone epidemic and associated dietary and lifestyle triggers.
- *Symptoms and Root Causes Demystified*: Discover what your symptoms are saying about your hormones with quizzes, checklists, trackers, and more.
- *A 6-Week Action Plan*: Learn what foods you should indulge and avoid, how to repair your microbiome to support hormone health, how to identify environmental hormone disruptors, engage your body's natural detoxification systems and reduce hidden inflammation, and the lifestyle changes that lead to happy, healthy hormones.
- *Delicious, done-for-you meal plans* to take you through the entire program, including vegan options.

Hormone Intelligence is an

invitation to a whole new relationship with your body and hormones, the exhale you've been waiting for, and the first step on the road to realizing that a diagnosis does not have to be your destiny. Extended references, a complete index, and additional resources for *Hormone Intelligence* can be found at the author's website.

[Your Best Birth](#) John Hunt Publishing

When Harriet Hall graduated from medical school in 1970 and entered the Air Force, she was in a distinct minority. As the second woman ever to do an Air Force internship, she had to fight for acceptance. Even a patient's 3 year old daughter proclaimed, "Oh, Daddy! That's not a doctor, that's a lady." She was refused a residency, paid less than her male counterparts, couldn't live on base, and couldn't claim her husband as a dependent because he wasn't a wife. After six years as a general medical officer in Franco's Spain, she became a family practice specialist and a flight surgeon, doing everything from delivering babies to flying a B-52. She earned her pilot's license despite being told "Women aren't supposed to fly," and eventually retired from the Air Force as a full colonel. She is witness to an era when society was beginning to accept women in traditionally male jobs but didn't entirely like the idea yet. A somewhat warped sense of humor kept her afloat, and it spices the stories she tells about her own experiences and the patients and colleagues she encountered.

More Than a Body Independently Published

How we raise young children is one of today's most highly personalized and sharply politicized issues, in part because each of us can claim some level of "expertise." The debate has intensified as discoveries about our development-in the womb and in the first months and years-have reached the popular media. How can we use our burgeoning knowledge to assure the well-being of all young children, for their own sake as well as for the sake of our nation? Drawing from new findings, this book presents important conclusions about nature-versus-nurture, the impact of being born into a working family, the effect of politics on programs for children, the costs and benefits of intervention, and other issues. The committee issues a series of challenges to decision makers regarding the quality of child care, issues of racial and ethnic diversity, the integration of children's cognitive and emotional development, and more. Authoritative yet accessible, *From Neurons to Neighborhoods* presents the evidence about "brain wiring" and how kids learn to speak, think, and regulate their behavior. It examines the effect of the climate-family, child care, community-within which the child grows.

Birth Settings in America Simon and Schuster

The world first met Ricki Lake in 1988 as Tracy Turnblad in the film *Hairspray*. Weighing in at just over 200 pounds, the 5'3" teenager challenged what it meant to be an overweight woman in America: this fat girl got the guy, was part of the in crowd, and could sing and dance like nobody was watching. When she got her own talk show at twenty-four, Ricki had been transformed. She was a slender, mature woman whose long-running show changed daytime television forever. And when Ricki left it all behind to follow her heart and produce *The Business of Being Born*, we once again saw her in a new light, as a passionate advocate who wasn't afraid to stand up for her beliefs and work for change. Ricki Lake's life has been a series of rebirths—from fat to skinny, married to divorced, rich to poor, and more. In her intimate, bold, and relatable book, Ricki shows us how her unique life in the spotlight offers wisdom to anyone who has ever struggled in her own skin. She takes us behind the scenes of her troubled childhood—filled with food issues, abuse, and an unabashed yearning for a better life outside of her suburban home. She pulls back the curtain on her talk show and her early days as a "fat actress," and she shows how she reinvented herself as an author, filmmaker, and much beloved finalist on *Dancing with the Stars*. Ricki weathered near-bankruptcy and an extremely difficult divorce, but, as she writes, life always hands you the unexpected—so you should never say never. Much to her surprise, Ricki has dated some of Hollywood's most eligible bachelors, appeared on the cover of *Us Weekly* magazine in a swimsuit, and fell in love when she least expected it. And now she's ready to talk about it all. *Never Say Never* is an inspiring, entertaining, and down-to-earth account of one woman who defied the odds and refused to give up. By trusting her gut and following her heart, Ricki Lake turned an unconventional life into an unparalleled triumph, and this memoir stands as a hopeful, hilarious, and honest exploration of how any woman can do the same.

[The Business of Baby](#) Praeger

An inclusive, non-judgmental, and empowering guide to pregnancy, childbirth, and postpartum life that puts mothers first, offering straightforward guidance on all the options and issues that matter most to them (and their partners) when preparing for a baby. In *Birth Without Fear*, January

Harshe—founder of the global online community *Birth Without Fear*—delivers an honest, positive, and passionate message of empowerment surrounding everything that involves having a baby. It's a guide that fills in the considerable cracks in the information available to women and families when they're preparing to welcome a child—covering care provider choices, medical freedom, birth options, breastfeeding, intimacy, postpartum depression, and much more. *Birth Without Fear* shows moms, dads, partners, and families how to choose the best provider for them, how to trust in themselves and the birth process, and how to seek the necessary help after the baby has arrived. In addition, it will educate them about their rights—and how to use their voice to exercise them—as well as how to cope with the messy postpartum feelings many people aren't willing to talk about. Unlike other pregnancy books, *Birth Without Fear* will also help partners understand what mothers are going through, as well as discuss the challenges that they, too, will face—and how they can navigate them. Shattering long-held myths and beliefs surrounding pregnancy, birth, and the postpartum experience, *Birth Without Fear* is an accessible, reassuring, and ultimately inspiring guide to taking charge of pregnancy, childbirth, and beyond.

[Sweetening the Pill](#) Simon and Schuster

The classic book on home birth. Stories of the experiences of parents and midwives during the birth process plus a technical manual for midwives, nurses, and doctors. Includes information on prenatal care and nutrition, labor, delivery techniques, care of the new baby, and breast-feeding. *Trust Your Body! Trust Your Baby!* Hachette UK

In this volume, which reaffirms the uncompromising brilliance of his mind, Cioran strips the human condition down to its most basic components, birth and death, suggesting that disaster lies not in the prospect of death but in the fact of birth, "that laughable accident." In the lucid, aphoristic style that characterizes his work, Cioran writes of time and death, God and religion, suicide and suffering, and the temptation to silence. Through sharp observation and patient contemplation, Cioran cuts to the heart of the human experience. "A love of Cioran creates an urge to press his writing into someone's hand, and is followed by an equal urge to pull it away as poison."—*The New Yorker* "In the company of Nietzsche and Kierkegaard."—*Publishers Weekly* "No modern writer twists the knife with Cioran's dexterity. . . . His writing . . . is informed with the bitterness of genuine compassion."—*Boston Phoenix*

[A Passion for Birth](#) Harvard Common Press

Photographs and text describe the baby's nine-month journey from conception to birth. Suggested level: intermediate, secondary.

[Never Say Never](#) Running Press Adult

By the mid-twentieth century, two things appeared destined for extinction in the United States: the practice of home birth and the profession of midwifery. In 1940, close to half of all U.S. births took place in the hospital, and the trend was increasing. By 1970, the percentage of hospital births reached an all-time high of 99.4%, and the obstetrician, rather than the midwife, assumed nearly complete control over what had become an entirely medicalized procedure. Then, seemingly out of nowhere, an explosion of new alternative organizations, publications, and conferences cropped up, documenting a very different demographic trend; by 1977, the percentage of out-of-hospital births had more than doubled. Home birth was making a comeback, but why? The executive director of the American College of Obstetricians and Gynecologists publicly noted in 1977 the "rising tide of demand for home delivery," describing it as an "anti-intellectual-anti-science revolt." A quiet revolution spread across cities and suburbs, towns and farms, as individuals challenged legal, institutional and medical protocols by choosing unlicensed midwives to catch their babies at home. *Coming Home* analyzes the ideas, values, and experiences that led to this quiet revolution and its long-term consequences for our understanding of birth, medicine, and culture. Who were these self-proclaimed midwives and how did they learn their trade? Because the United States had virtually eliminated midwifery in most areas by the mid-twentieth century, most of them had little knowledge of or exposure to the historic practice, drawing primarily on obstetrical texts, trial and error, and sometimes instruction from aging home birth physicians to learn their craft. While their constituents were primarily drawn from the educated white middle class, their model of care (which ultimately drew on the wisdom and practice of a more diverse, global pool of midwives) had the potential to transform birth practices for all women, both in and out of the hospital.

Women Aren't Supposed to Fly Our Sunday Visitor

Full of honest advice and inclusive options, *Why Did No One Tell Me This?* is the funny, personality-filled, illustrated guide to pregnancy, birth, and beyond that modern parents have been waiting for. Pregnancy and childbirth are full of big questions -- what if my baby is enormous? Will my water

break naturally? What even goes into a 'birth plan'? How on earth am I going to keep this child alive once it's here? And where do I turn for advice that will really work for me and my life? In *Why Did No One Tell Me This?* doulas and reproductive health experts Natalia Hailes and Ash Spivak answer these questions and more for today's wellness-focused, intersectional parents-to-be. Drawing on years of experience in their birth doula practice Brilliant Bodies, Natalia and Ash guide readers through the entire process, from the earliest stages of pregnancy to the jungle of postpartum feelings and responsibilities. Bite-sized pieces of advice are interspersed with vibrant illustrations by artist Louise Reimer to break down the doubts and fears that often surround childbirth, empowering readers to explore their own individual needs, know their rights, and find their voice both during and after pregnancy. By addressing common fears, incorporating regular tips for partners, and providing information on a wide array of birth and parents styles, this unique and inclusive guide is the perfect tool for a new generation of parents.

Unassisted HomeBirth Houghton Mifflin

Single mom, jazz singer, salsa dancer, traveler, and midwife to more than 700 babies, Cara Muhlhahn holds nothing back—in her life or in this memoir. As a teenager, Cara's family home burnt to the ground. That tragedy led her on a journey that would span a variety of countries and cultures. While she was in Morocco, a woman suffered from a fatal injury. Grieving the unnecessary death, Cara resolved that, next time, she would know what to do to save a life. In this fascinating and searingly honest memoir, Cara reveals what eventually led her to support women in one of the most significant experiences of their lives. Balancing science with intuition, parenthood with her work, and sacrifice with joy, Cara shows us what it means to be alive and to live a life of purpose. Just as readers are fascinated by Carly Fiorina's or Elizabeth Gilbert's journeys, they will find great inspiration in Cara's journey to live her calling. Whether you read about her in *Vogue* or the *New York Times*; saw her in the documentary *The Business of Being Born*, by filmmakers Ricki Lake and Abby Epstein; or are learning about her for the first time here, you are sure to be inspired by her remarkable story.

Born a Crime Univ of California Press

Through information, her own experience, and client stories, Geneva Montano presents birthing people with the opportunity to create a pregnancy and birth where their babies are heard and trusted, where they are invited to tap into the innate knowing within their wombs and the opportunity to exit the popular birth narrative that is mired in fear, blame, and doubt. Her compassionately connected approach offers comfort in the midst of the challenges that new parents face. It anchors them in the ancient wisdom of spirit and body to address common fears and choices that arise for many birthing families. Wisdom from the Womb delivers empowerment through the art of storytelling and humor, the evidence of science and anecdote, the practices of peaceful stillness and aligned movement, and the ability we all have to listen to and trust ourselves and our babies. Proceeds from this book will be donated to Colorado Community Birth, a

non-profit organization that offers volunteer birth services to people who would not otherwise be able to access them and mentorship to people who want to guide birthing people through the process as midwives and doulas. "Geneva's compelling stories will take you on a journey of understanding the importance of MotherBaby love and connection that begins in the womb and that will guide you to claim your power in birth and parenthood. This is a midwife's tale of transformation that will support you in connecting to your baby and your body and will open you to the miracles of birth in new ways. Birth is a day that impacts and sets the foundation for your baby and your relationships. There is no greater investment than in preparing for birth with love and connection. Geneva gives you a treasure of knowledge that will engage and inspire you and your baby to a lifelong relationship of trust and love." -Debra Pascali-Bonaro, author, *Orgasmic Birth* "In an experience that feels like there are countless decisions to be made, Geneva carves an intuitive path to bringing your baby smoothly and calmly into the world with her beautiful words and wisdom. Her book gently reminds you that, no matter your experience in pregnancy or birth, the answers you seek are within your womb." -Ricki Lake & Abby Epstein, filmmakers, *The Business of Being Born* Geneva Montano is a Colorado native and mother of four. She has been a birth worker since 2003 and has attended over 650 births in homes, birth centers, and hospitals. Geneva has had a lifelong passion for spirituality, art, and self-exploration. She believes that each birth teaches her and her clients the life lessons they have been seeking. Geneva is a Registered and Certified Professional Midwife, Certified Doula, Registered Yoga teacher, prenatal and postnatal yoga teacher, CPR instructor, body and energy worker, doula trainer, author, artist, and activist. She is certified in womb massage, holistic healing of the pregnant and postpartum bodies, NLP, quantum transformation, and more. She loves teaching, listening to people's stories with her ears, heart, and hands, and being a vessel for transmitting divine healing to bodies and spirits. Midwife. Doula. Spirit Medicine. www.GenevaMontano.com

Labor of Love Book Publishing Company (TN)

The delivery of high quality and equitable care for both mothers and newborns is complex and requires efforts across many sectors. The United States spends more on childbirth than any other country in the world, yet outcomes are worse than other high-resource countries, and even worse for Black and Native American women. There are a variety of factors that influence childbirth, including social determinants such as income, educational levels, access to care, financing, transportation, structural racism and geographic variability in birth settings. It is important to reevaluate the United States' approach to maternal and newborn care through the lens of these factors across multiple disciplines. *Birth Settings in America: Outcomes, Quality, Access, and Choice* reviews and evaluates maternal and newborn care in the United States, the epidemiology of social and clinical risks in pregnancy and childbirth, birth settings research, and access to and choice of birth settings.

Being Born Abrams

#1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong'o, *Time*), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by *The New York Times*, *USA Today*, *San Francisco Chronicle*, *NPR*, *Esquire*, *Newsday*, and *Booklist* Trevor Noah’s unlikely path from apartheid South Africa to the desk of *The Daily Show* began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. *Born a Crime* is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man’s relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother’s unconventional, unconditional love.

Ina May's Guide to Breastfeeding One World

Millions of healthy women take a powerful medication every day from their mid-teens to menopause - the Pill - but few know how this drug works or the potential side effects. Contrary to cultural myth, the birth-control pill impacts on every organ and function of the body, and yet most women do not even think of it as a drug. Depression, anxiety, paranoia, rage, panic attacks - just a few of the effects of the Pill on half of the over 80% of women who pop these tablets during their lifetimes. When the Pill was released, it was thought that women would not submit to taking a medication each day when they were not sick. Now the Pill is making women sick. However, there are a growing number of women looking for non-hormonal alternatives for preventing pregnancy. In a bid to spark the backlash against hormonal contraceptives, this book asks: Why can't we criticize the Pill?
