This is the only book on the subject of farting you will ever need - or probably want. Farts are a fascinating phenomenon on many levels. A fart can be funny, repulsive, embarrassing, rude, or even dastardly (in the case of a silent one). Farts can also provoke a variety of reactions. Some will laugh, some will be indignant, and other people will simply stop coming around. But the undeniable truth about farting is that everybody does it. Yes, even women.

Pickles' Purple Paint First Steps Three novels by a New York Times–bestselling author—including the Pulitzer Prizewinner The Color Purple—that speak to the African experience in America. The Color Purple is Alice Walker’s stunning, Pulitzer

Prize-winning novel of courage in the face of oppression. Celie grows up in rural Georgia, navigating a childhood of ceaseless abuse. Not only is she poor and despised by the society around her, she's badly treated by her family. As a teenager she begins writing letters directly to God in an attempt to transcend a life that often seems too much to bear. Her letters span twenty years and record a journey of self-discovery and empowerment through the guiding light of a few strong women and her own implacable will to find harmony with herself and her home. In *The Temple of My Familiar*, Celie and Shug from *The Color Purple* follow the lives of a brilliant cast of characters, all dealing in some way with the legacy of the African experience in America. From

recent African immigrants, to a woman who grew up in the mixed-race rainforest communities of South America, to Celie's own granddaughter living in modern-day San Francisco, all must come to understand the brutal stories of their ancestors to come to terms with their own troubled lives. Possessing the *Secret of Joy* portrays Tashi's tribe, the Olinka, where young girls undergo genital mutilation as an initiation into the community. Tashi manages to avoid this fate at first, but when pressed by tribal leaders, she submits. Years later, married and living in America as Evelyn Johnson, Tashi's inner pain emerges. As she questions why such a terrifying, disfiguring sacrifice was required, she sorts through the many levels of subjugation with which she's been

burdened over the years. Hailed by the Washington Post as “one of the best American writers of today,” Alice Walker is a master storyteller and a major voice in modern literary fiction. Includes a new letter written by the author on The Temple of My Familiar.

For more than 200 years the world has accepted that red, yellow and blue - the artists primaries - give new colours when mixed. And for more than 200 years artists have been struggling to mix colours on this basis. In this exciting new book, Michael Wilcox offers a total reassessment of the principles underlying colour mixing. It is the first major break-away from the traditional and limited concepts that have caused

painters and others who work with colour so many problems. Back Cover. *Sketch*. Houghton Mifflin Harcourt
Many years ago, the color purple was available only to a privileged few because the process was very complicated and expensive. Then in 1856, a boy named William Henry Perkin was testing a hypothesis about a cure for malaria and found that his experiment resulted in something else-- something vivid and rare for the times: synthetic purple. Perkin, a pioneer of the modern scientific method, made numerous advances possible, including canned food and chemotherapy. But it was his creation of purple that started it all. This book is a joyous celebration of Perkin's impactful purple.--
