Folk Tales and lore are woven into the ancient landscape of Devon: swimming in the rivers, soaring with the buzzards over farms and moors and making soft tracks across the sands of a wild coastline. In Devon Folk Tales for Children you'll find goblins tinkering in the old ore mines, a changeling hare-woman who runs by the light of the moon, and pixies playing on the old pack routes trodden by the hooves of Dartmoor ponies. This beautifully illustrated collection of tales from storyteller and artist Leonie Jane-Grey will take you on a wild and magical adventure through the ancient lands of Devon. You might say that author Anne Miller is like a homeowner who strikes oil while digging a ditch in the backyard. In this book, she shares knowledge she refined from more than 20 years of distilling metaphors. Her book leaves little doubt that metaphors can fuel the engines of your sales success. Its pages are full of colorful, persuasive anecdotes and analogies that follow one another like racecars coming out of Turn Four at Daytona. If you doubt whether her advice will apply to the rubber-meets-the-road realities of sales, just take Miller's ideas out for a test drive. Her primary expertise is in presentations, not sales, which may explain why her roadmap (note the extended metaphor) to success is so much more creative than most sales advice. Miller's book leaves many other tomes in the dust. getAbstract.com thinks sales professionals who read this book and master the art of the metaphor should get ready to take a victory lap or two.

The nullification of Article 370 and enactment of the Citizenship (Amendment) Act (CAA), 2019, had been landmark legislative actions in 2019. Author Sanjay Dixit delves deep into the past and traces the events, actions and their repercussions that finally led to the Union of India introducing these two measures. He looks at these events from all perspectives-historical, social and political. For Article 370, he traces the entire history of Kashmir from its pre-Islamic past and to the events that unfolded at the time of the Partition of India, leading to the initial inclusion of Article 370 in the Constitution of India. Dixit also studies in detail the legal and constitutional labyrinths, discussing the various Presidential Orders and case laws from the Constitutional Bench jurisdiction of the Supreme Court. For CAA, Dixit traces the constitutional history of India from the time of the partition of Bengal in 1905 to the unfortunate events of the Partition in 1947. His study relies heavily on Dr. B.R. Ambedkar's analysis of the reasons for the Partition and the theology of a 'separate nation' that prevailed during the period. The author contends that this same theology has been staging a comeback now in the form of mazhabi pehchan which forms the crux of the anti-CAA protests. The informed position of the author, his lucidity of language and directness of approach lend clarity to his arguments and make this an accessible and important read.
