PRESTON MURRAY

Spectrum Social Studies Routledge
Ronald Evans describes and interprets
the continuing battles over the purposes,
content, methods, and theoretical
foundations of the social studies
curriculum. This facinating volume:
addresses the failure of social studies to
reach its potential for dynamic teaching

because of a lack of consensus in the
field; links the ever-changing rhetoric
and policy decisions to their influence on
classroom practice; and helps to clarify
the meaning, direction, and purposes of
social studies instruction in schools.

studies education. More than simply learning about key topics, this collection invites readers to think through some of the most relevant, dynamic, and challenging questions animating social studies education today. With 12 new chapters highlighting recent developments in the field, the second edition features the work of major scholars such as James Banks, Diana Hess, Joel Westheimer, Meira Levinson, Sam Wineburg, Beth Rubin, Keith Barton, Margaret Crocco, and more. Each chapter tackles a specific question on issues such as the difficulties of teaching historical thinking in the classroom, responding to high-stakes testing, teaching patriotism, judging the credibility of Internet sources, and teaching with film and geospatial

technologies. Accessible, compelling, and practical, these chapters—full of rich examples and illustrations—showcase some of the most original thinking in the field, and offer pre- and in-service teachers alike a panoramic window on social studies curricula and instruction and new ways to improve them. Walter C. Parker is Professor and Chair of Social Studies Education and (by courtesy) Professor of Political Science at the University of Washington, Seattle.

Plan and deliver a curriculum to help your students connect with the humanity of others! In the wake of 2020, we need today's young learners to be prepared to develop solutions to a host of entrenched and complex issues, including systemic racism, massive

environmental problems, deep political divisions, and future pandemics that will severely test the effectiveness and equity of our health policies. What better place to start that preparation than with a social studies curriculum that enables elementary students to envision and build a better world? In this engaging guide two experienced social studies educators unpack the oppressions that so often characterize the elementary curriculum—normalization, idealization, heroification, and dramatization—and show how common pitfalls can be replaced with creative solutions. Whether you're a classroom teacher, methods student, or curriculum coordinator, this is a book that can transform your understanding of the social studies disciplines and their power

to disrupt the narratives that maintain current inequities.

The school notebook that you have been looking for! Like no other!, this school single subject notebook comes with all these wonderful features; The distinct cover design of chalkboard with lettering of school subjects lets you organize and identify the notebooks of each subject easier. Plus, matte laminated finish helps repel liquid and toughens the paperback cover, so your notebook will stay with you longer, through the semester and beyond! The perfect size of 8.5 x 11" (close to the size of an A4 paper) provides you ample space to take note on what you learn, and also accommodates well any inserts you

might have from your studies. This book can be tucked easily in any school bags that accommodate general A4 paper. 120 non-perforated lined pages on the paper that is thicker than general notebooks. The book can therefore be used with more variety of pens, giving you the ability to design your note-taking with your own taste. (Extra blank sheets may still be required in case of using it with some marker pens.) The lines are in light grey which can guide your writing perfectly, while they are easier on your eyes and less distracting when you read. The space between each line is 0.34 inches, which is in accordance with the Wide Ruled standardized formats of ruled papers. The pages of this notebook are therefore easier to be written on and reread later. They are also friendly to

younger writers/students, or those who have larger handwriting. Two-inch space near the spine on every page has been reserved to be blank for your possible drawing of study illustrations, taking side notes, or simply scribbling! The reserved space also allows you to always write on flat surface (in the lined areas). Every page comes with its page number, so you can optionally have the first page be the Table of Contents page for the notebook. The Table of Contents would be very helpful when you look for some notes inside the notebook, especially the ones that you wrote some long time ago. Moreover, it gives you the ability to plan and write in chapters or take sequential notes. The book industry perfect binding with spine (the same standard binding as most paperbacks in your library)

allows this notebook to be put on shelf neatly alongside other books that you have. This book comes with the spine text that reads "Social Studies Notebook" and the space thereon that you can write your own notebook volume number, so, once you use up one book, you can continue on the next and develop a series of your own subject notebooks that can be stored on shelf together, chronologically, and looked up later in no time! Elementary-aged children are often positioned as not developmentally ready to learn about race, racism, and injustice. Yet, the classroom materials used in most schools misrepresent history, withhold knowledge about racial injustice, or fail to uplift stories of resilience and resistance. For almost a decade, this groundbreaking resource has been one of the most highly used textbooks in justice-oriented social studies methods courses for grades 3-8. The author has thoroughly revised her bestseller to provide additional lessons that are more deeply situated within the current context of converging pandemics--COVID-19, racism, and impending environmental catastrophe. Grounded in the daily realities of public schools, Agarwal-Rangnath shows

teachers how to use primary and other sources that will offer students new ways of thinking about history while meeting language arts standards for information text proficiency and critical thinking. Educators will also learn how to teach language arts and social studies as complementary subjects. New for the Second Edition: More concrete connections between theory and practice. Additional lesson examples that are centered in today's context of converging pandemics. Reflection questions that challenge readers to think about ways to navigate curricular constraints and standardization in the classroom.

Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why. It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity, history, and the contemporary world. All chapters include lesson ideas, a sample lesson plan with activity sheets, primary source documents, and helpful charts, graphs, photographs, and maps. High school students' responses are woven in throughout. Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer. The traditional curriculum tends to

highlight the Western heritage, and to race through epochs and regions, leaving little time for an in-depth exploration of concepts and historical themes, for the evaluation of primary and secondary sources, and for students to draw their own historical conclusions. Offering an alternative to such pre-packaged textbook outlines and materials, this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it.

Essentials of Elementary Social Studies is a teacher-friendly text that provides comprehensive treatment of classroom planning, instruction, and strategies. Praised for its dynamic approaches and a writing style that is conversational, personal, and professional, this text enables and encourages teachers to

effectively teach elementary social studies using creative and active learning strategies. This fifth edition has been significantly refined with new and relevant topics and strategies needed for effectively teaching elementary social studies. New features include:

- In keeping with the book's emphasis on planning and teaching, an updated chapter on lesson plans. This chapter is designed to provide elementary teachers with new classroom-tested lesson plans and includes two classroom-tested lessons for each grade level (K-6).
- An expanded chapter on planning. This provides additional discussion about long-range planning and includes examples of lesson plans with details to help students be better prepared.
- An updated chapter on technology designed

to better prepare elementary teachers to effectively incorporate technology into social studies instruction. Attention is given to digital history, media literacy, teaching with film and music, popular apps and numerous other types of impactful technology. • An expanded discussion of the Common Core Standards and C3 Framework and how it affects teachers. • An updated chapter titled "Experiencing Social Studies." This chapter focuses on topics such as teaching with drama, role play, field trips, and service learning. • A new eResource containing links to helpful websites and suggestions for further reading.
