Marketing to Millennials is both an enlightening look at this generation of spend-happy consumers and a practical plan for earning their trust and loyalty. The jokes at the Millennials' expense are plenty, but not nearly as much as the \$200 billion in buying power they now wield as they enter their peak earning and spending years. Love it or loathe it, you are doing business in their domain now, and your future depends on your ability to successfully connect with them. Based on original market research, this book reveals the eight attitudes shared by most Millennials, including how they: Value social networking and aren't shy about sharing opinions Refuse to remain passive consumers but expect to participate in product development and marketing Demand authenticity and transparency Are highly influential, swaying parents and peers Are not all alike; therefore, understanding key segments is invaluable Complete with expert interviews of those doing Millennial marketing right, as well as the new rules for engaging this increasingly vital generation successfully, Marketing to Millennials is the key to persuading the customers who will determine the bottom line for decades to come.

Real-time conversations turn leads into customers Conversational Marketing is the definitive guide to generating better leads and closing more sales. Traditional sales and marketing methods have failed to keep pace with the way modern, internet-savvy consumers purchase goods and services. Modern messaging apps, which allow for real-time conversations and instant feedback, have transformed the way we interact in our personal and professional lives, yet most businesses still rely on 20th century technology to communicate with 21st century customers. Online forms, email inquiries, and follow-up sales calls don't provide the immediacy that modern consumers expect. Conversational marketing and sales are part of a new methodology centered around real-time, one-on-one conversations with customers via chatbots and messaging. By allowing your business to communicate with customers in real time—when it's most convenient for them—conversational marketing improves the customer experience, generates more leads, and helps you convert more leads into customers. Conversational Marketing pioneers David Cancel and Dave Gerhardt explain how to: Merge inbound and outbound tactics into a more productive dialog with customers Integrate conversational marketing techniques into your existing sales and marketing workflow Face-to-face meetings, phone calls, and email exchanges remain important to customer relations, but adding a layer of immediate, individual conversation drives the customer experience—and sales—sky-high.

What is a meatball sundae? It's something messy, disgusting and ineffective, the result of combining two perfectly good things that don't go together. Meatballs are the basic staples, the things people need, the stuff that used to be marketed quite well with TV and other mass market techniques. The topping is new marketing: MySpace, websites, YouTube, and all of the magic that CEOs wish would shine atop their companies. The problem? New marketing is lousy at selling meatballs. When confronted with the myriad opportunities presented by new marketing, people usually ask 'How can we make this stuff work for us?' This, as Seth Godin explains in his remarkable new book, is exactly the wrong question. Mapping out 14 trends that are completely remaking what it means to be a marketer - and by extension transforming what we make and how we make it - Godin shows how the question for any thriving 21st century business must be: 'How can we alter our business to become an organization that thrives on new marketing?' Meatball Sundae is an essential guide to the fundamental shift taking place in the marketing and business world, and shows you how to align your business to it.

Killing your current marketing structure may be the only way to save it! Two of the world's top marketing experts reveal the next level of breakthrough success—transforming your marketing strategy into a standalone profit center. What if everything we currently know about marketing is what is holding us back? Over the last two decades, we've watched the entire world change the way it buys and stays loyal to brands. But, marketing departments are still operating in the same, campaign-centric, product-led operation that they have been following for 75 years. The most

innovative companies around the world have achieved remarkable marketing results by fundamentally changing their approach. By creating value for customers through the use of owned media and the savvy use of content, these businesses have dramatically increased customer loyalty and revenue. Some of them have even taken it to the next step and developed a marketing function that actually pays for itself. Killing Marketing explores how these companies are ending the marketing as we know it—in favor of this new, exciting model. Killing Marketing provides the insight, approaches, and examples you need to understand these disruptive forces in ways that turn your marketing from cost center to revenue creator. This book builds the case for, literally, transforming the purpose of marketing within your organization. Joe Pulizzi and Robert Rose of the Content Marketing Institute show how leading companies are able to sell the very content that propels their marketing strategy. You'll learn how to: * Transform all or part of your marketing operation into a media company * Integrate this new operation into traditional marketing efforts * Develop best practices for attracting and retaining audiences * Build a strategy for competing against traditional media companies * Create a paid/earned media strategy fueled by an owned media strategy Red Bull, Johnson & Johnson, Disney and Arrow Electronics have succeeded in what ten years ago would have been deemed impossible. They continue to market their products as they always have, and, through their content-driven and audience-building initiatives, they drive value outside the day-to-day products they sell—and monetize it directly. Killing Marketing rewrites the rules of marketing—enabling you to make the kind of transition that turns average companies into industry legends.

No Forms. No Spam. No Cold Calls. is a rallying cry for a new generation of sales and marketing leaders who are ready to ditch the traditional strategies, tactics, and technologies that are no longer working to deliver breakthrough results. Every organization wants to predictably grow revenue. The challenge facing sellers and marketers today is that B2B buyers have taken control of the buying journey, making it nearly impossible for business leaders to accurately predict anything, especially revenue growth. Prospects are being bombarded from all sides with forms, emails, and annoying phone calls as they try to research our solutions. So what do they do? They protect themselves by researching anonymously and not revealing themselves to us until their decision is made. That means that as sellers and marketers, we've lost our opportunity to influence the buying journey—that is, if we're still clinging to the traditional lead-based tools and strategies that we're used to. It's time for a new paradigm. Pioneering CMO Latané Conant delivers a step-by-step guide that will transform the way you think about marketing and selling in the modern age. Often challenging but never dull, No Forms. No Spam. No Cold Calls. delivers uncomfortable truths about the status quo—starting with Latané's first breakthrough that our old-school tactics not only treat our future customers like dirt, they also encourage the anonymous buying we're trying to combat. This book challenges sales and marketing leaders to engage customers the right way if you want to achieve predictable revenue growth. Latané lays out exactly how to enable your sales and marketing teams to take pride in the customer experience and finally align on how to put your prospects at the center of everything you do. In doing that, you'll learn to uncover customer demand, prioritize which accounts to work, engage the entire customer buying team, and measure real success. With this customer-first

approach, you'll be able to confidently take down the forms, stop sending bulk emails, and quit making cold calls-and achieve breakthrough results.

Use data, technology, and inbound selling to build a remarkable team and accelerate sales The Sales Acceleration Formula provides a scalable, predictable approach to growing revenue and building a winning sales team. Everyone wants to build the next \$100 million business and author Mark Roberge has actually done it using a unique methodology that he shares with his readers. As an MIT alum with an engineering background, Roberge challenged the conventional methods of scaling sales utilizing the metrics-driven, process-oriented lens through which he was trained to see the world. In this book, he reveals his formulas for success. Readers will learn how to apply data, technology, and inbound selling to every aspect of accelerating sales, including hiring, training, managing, and generating demand. As SVP of Worldwide Sales and Services for software company HubSpot, Mark led hundreds of his employees to the acquisition and retention of the company's first 10,000 customers across more than 60 countries. This book outlines his approach and provides an action plan for others to replicate his success, including the following key elements: Hire the same successful salesperson every time — The Sales Hiring Formula Train every salesperson in the same manner — The Sales Training Formula Hold salespeople accountable to the same sales process — The Sales Management Formula Provide salespeople with the same quality and quantity of leads every month — The Demand Generation Formula Leverage technology to enable better buying for customers and faster selling for salespeople Business owners, sales executives, and investors are all looking to turn their brilliant ideas into the next \$100 million revenue business. Often, the biggest challenge they face is the task of scaling sales. They crave a blueprint for success, but fail to find it because sales has traditionally been referred to as an art form, rather than a science. You can't major in sales in college. Many people question whether sales can even be taught. Executives and entrepreneurs are often left feeling helpless and hopeless. The Sales Acceleration Formula completely alters this paradigm. In today's digital world, in which every action is logged and masses of data sit at our fingertips, building a sales team no longer needs to be an art form. There is a process. Sales can be predictable. A formula does exist.
