The open country of Texas
between the Nueces River
and the Rio Grande was
sparsely settled through
the nineteenth century,
and most of the settlers
who did live there had
Hispanic names that until
recently were rarely
admitted into the pages of
Texas history. In 1935,
however, a descendant of

one of the old Spanish land-grant families in the region—a woman, no less—found an ingenious way to publish the history of her region at a time when neither Tejanos nor women had much voice. She told the story from the perspective of an ancient mesquite tree, under whose branches much South Texas history had passed. Her tale became an invaluable source of folk history but has long been out of print. Now, with important new introductions by Leticia M. Garza-Falcón and Andrés Tijerina, the history witnessed by *El Mesquite* can again inform readers of the way of life that first shaped Texas. Through the voice of the gnarled old tree, Elena Zamora O'Shea tells South Texas political and ethnographic history, filled with details of daily life such as songs, local plants and folk medicines, foods and recipes, peone/patron relations, and the Tejano ranch vocabulary. The work is an important example of the historical-folkloristic literary genre

used by Mexican American writers of the period. Using the literary device of the tree's narration, O'Shea raises issues of culture, discrimination, and prejudice she could not have addressed in her own voice in that day and explicitly states the Mexican American ideology of 1930s Texas. The result is a literary and historic work of lasting value, which clearly articulates the Tejano claim to legitimacy in Texas history. ELENA ZAMORA O'SHEA (1880-1951) was born at Rancho La Noria Cardenena near Peñitas, Hidalgo County, Texas. A long-time schoolteacher, whose posts included one on the famous King Ranch, she wrote this book to help Tejano children know and claim their proud heritage. *City Profiles USA 2008-2009* New York : Ballantine Books
