Psychoanalytic theory has been the subject of attacks from philosophers, cultural critics and scientists who have questioned the cogency of its reasoning as well as the soundness of its premises. Nevertheless, when used to shed light on horror cinema, psychoanalysis in its various forms has proven to be a fruitful and provocative interpretative tool. This volume seeks to find the proper place of psychoanalytic thought in critical discussion of cinema in a series of essays that debate its legitimacy, utility and validity as applied to the horror genre. It distinguishes itself from previous work in this area through the

self-consciousness with which psychoanalytic concepts are employed and the theorization that coexists with interpretations of particular horror films and subgenres.

"According to Guins, these new "control technologies" are designed to embody an ethos of neoliberal governance - through the very media that have been previously presumed to warrant management, legislation, and policing. Repositioned within a discourse of empowerment, security, and choice, the action of regulation, he reveals, has been relocated into the hands of users."--BOOK JACKET.

*Creepy Crawling* Creation Books

A sweeping new look at the unheralded transformation that is eroding the foundations of American exceptionalism. Americans today find themselves mired in an era of uncertainty and

frustration. The nation's safety net is pulling apart under its own weight; political compromise is viewed as a form of defeat; and our faith in the enduring concept of American exceptionalism appears increasingly outdated. But the American Age may not be ending. In *The Vanishing Neighbor*, Marc J. Dunkelman identifies an epochal shift in the structure of American life—a shift unnoticed by many. Routines that once put doctors and lawyers in touch with grocers and plumbers—interactions that encouraged debate and cultivated compromise—have changed dramatically since the postwar era. Both technology and the new routines of everyday life connect tight-knit circles and expand the breadth of our social landscapes, but they've sapped the commonplace, incidental interactions that for centuries have built local communities and fostered healthy debate. The disappearance of these once-central relationships—between people who are familiar but not close, or friendly but not intimate—lies at the root of America's economic woes and political gridlock. The institutions that were erected to support what Tocqueville called the "township"—that unique locus of the power of citizens—are failing because they haven't yet been molded to the realities of the new American community. It's time we moved beyond the debate over whether the changes being made to American life are good or bad and focus instead on understanding the tradeoffs. Our cities are less racially segregated than in decades past, but we've become less cognizant of what's happening in the lives of people from different economic backgrounds, education levels, or age groups. Familiar divisions have been replaced by cross-cutting networks—with profound effects for the way we resolve conflicts,

spur innovation, and care for those in need. The good news is that the very transformation at the heart of our current anxiety holds the promise of more hope and prosperity than would have been possible under the old order. *The Vanishing Neighbor* argues persuasively that to win the future we need to adapt yesterday's institutions to the realities of the twenty-first-century American community.

The original edition of *Planks of Reason* was the first academic critical anthology on horror. In retrospect, it appeared as a kind of homage to the "golden age" of the American horror film, as this genre played an increasing role in film culture and American life. The original material represented the history of the genre through the early 1980s and is a crucial part of the book's value, then and now. The first edition helped legitimize academic writing on the horror genre by addressing breakthrough works of such directors as John Carpenter, Tobe Hooper, George Romero, David Cronenberg, and Wes Craven. This revised edition retains the spirit of the original, but also offers new takes on rediscovered classics and recent developments in the genre. In addition to reprinting 17 essays, including Robin Wood's "An Introduction to the American Horror Film," this revised edition features a new essay on the yuppie horror film by editor Barry Keith Grant, as well as an updated analysis of *The Texas Chainsaw Massacre* by co-editor Christopher Sharrett. Other new essays focus on William Castle's *The Tingler* and Roger Corman's *Pit and the Pendulum*, and the recent wave of Japanese horror films. Contains more than 60 photos.

*Rhett & Link's Book of Mythicality* Harlequin

This is the first book to provide a comprehensive and systematic account of the phenomenon of cinematic remaking. Drawing upon recent theories of genre and intertextuality, *Film Remakes* describes remaking as both an elastic concept and a complex situation, one enabled and limited by the interrelated roles and practices of industry, critics and audiences. This approach to remaking is developed across three broad sections: the first, remaking as industrial category, deals with issues of production, including commerce and authors; the second, remaking as textual category, considers genre, plots and structures; and the third, remaking as critical category, investigates issues of reception, including audiences and institutions. The film remake emerges as a particular case of repetition, a function of cinematic and discursive fields that is maintained by historically specific practices, such as copyright law and authorship, canon formation and media literacy, film criticism and re-viewing. These points are made through the lively discussion of numerous historical and contemporary examples, including the remaking of classics (*Double Indemnity*, *All That Heaven Allows*, *Psycho*), foreign art-films (*Yojimbo*, *Solaris*, *Le Samourai*), cult movies (*Gun Crazy*, *Planet of the Apes*, *Dawn of the Dead*), and television properties (*Batman*, *The Addams Family*, *Charlie's Angels*).

#### Step Change

"Psychologist and mother Madeline Levine looks at the history of television and movie violence in the United States. She translates into everyday language the results of over four decades of research on the effects of media violence - research that up until now has been inaccessible to most parents. Using a "developmental approach," Dr. Levine helps parents understand that children at different ages think about, understand, and experience the world in very different ways. An appreciation of these differences in how children "see" things is critical if parents are to make wise choices about what is appropriate and what is potentially harmful to their children. Using research findings, common sense, and personal experience, Dr. Levine demonstrates that violence is not generic - and neither are children: the movie that may be instructive and appropriate for an eleven-year-old may be traumatic and overwhelming for a seven-year-old. Parents frequently underestimate the impact of violent television on their children and may be surprised at what children find upsetting." "Dr. Levine argues that the issue of media violence is not trivial, that our society is increasingly at risk not only for higher levels of violence but for a greater tolerance and acceptance of this violence. In spite of efforts from both sides of the political spectrum to claim media violence as a political issue, Dr. Levine insists this is a parenting and citizenship issue. She looks at how parents, government, schools, and the media itself can best approach the problem. The book concludes with a list of resources to help parents become active in media

reform."--BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

No one likes change. Too often it's viewed as something that must be endured; something to 'get through' as fast as possible so that everything can 'return to normal'. We need to change our view of change and see it for the opportunity it really is. *Step Change: The Leader's Journey* helps leaders to become gifted and skilful at moving through the change process gracefully and productively. Based on Joseph Campbell's 'hero's journey', *Step Change: The Leader's Journey* offers a universal road map of change from step-1 (comfort zone) through to step-12 (post-delivery inspiration). The journey travels through four distinct phases of 'discover', 'decide', 'develop' and 'deliver'. *Step Change* provides a proven formula for change, both personal and organisational, which allows us to know where we are on the Change Wheel and what to expect from each step, including what it looks and feels like at each step. By identifying what causes change to fail at each step as well as tools to navigate past the pitfalls and dead ends that leave us stuck at a particular step or retreating to the comfort zone, the change cycle can be understood and mastered. The book provides the ideal structure for senior managers, human resource managers, coaches and business leaders to follow in order to embed change across their teams and organisation.

After being on staff for nearly a month, the youth director was suddenly summoned into the senior pastor's office. The pastor quickly shut the door and, skipping all pleasantries, boldly

announced: "I'd love to help you, I just don't have time for you." Uncertain of how to respond and with no questions allowed, the youth director was dismissed. That was the last meeting he ever had with the senior pastor. Weren't there supposed to be ample amounts of excitement for the newly appointed, fresh youth director? This fresh, but now confused, youth director wanted to do a good job, but had no idea where to begin. He was young and everyone was too busy to mentor him--even when he had asked for help. Perhaps you're in a similar situation but you're hesitant to admit it out loud. This book is a practical guide aimed at helping anyone struggling with escaping the tempting, isolated island of youth ministry and building a network of kingdom-minded students, parents, and church members focused on living for Jesus Christ in what sometimes seems like a Jesus-less world.

One of the Believer's Best Books of the Year: One woman's journey through that awkward period between being born and dying. A modern odyssey about trying to find one's home in the world, this collection of wickedly funny and offbeat vignettes touches upon quantum physics; the Donner Party; arctic exploration; Greek mythology; Rocky I, II, V, IV, VI, and III respectively; and literary immortality. Dating Tips for the Unemployed "melds novel, autobiography, and all manner of asides as [the author] flails at art, love, and friendship with the wry intelligence of someone just wise enough to realize they have no idea what they're doing. A flat-out joy to read" (O, The Oprah Magazine). "In engaging episodes, Iris-the-character neurotically navigates dating in New York City, smokes pot on Greek islands with hapless lovers, drinks too much, deals with disapproving

family, and eats a lot of cannoli. Smyles's surreal, lyrical voice elevates these everyday scenarios into the realm of the fantastic and absurd. Included in the book are hilariously stylized advertisements full of false promises, such as 'Health Secrets of the Roman Empire' and 'Have Your Portrait Painted By An Elephant!' all for a price. Smyles is sharp, melancholy, and wickedly funny. She is unafraid to reveal and revel in her character's flaws because it is what makes them so achingly, relatably human." —Interview "Something like a cocktail of Dorothy Parker, James Joyce, and Philip Roth iced, sweetened, and blended." —The Nervous Breakdown "Whimsy, satire, and rollicking social commentary . . . Ms. Smyles is a misanthrope-of-the-people, a standout on the order of Fran Lebowitz." —The East Hampton Star

100 American Horror Films Crown Archetype

"[A] well-plotted survey." Total Film In 100 American Horror Films, Barry Keith Grant presents entries on 100 films from one of American cinema's longest-standing, most diverse and most

popular genres, representing its rich history from the silent era - D.W. Griffith's *The Avenging Conscience* of 1915 - to contemporary productions - Jordan Peele's 2017 *Get Out*. In his introduction, Grant provides an overview of the genre's history, a context for the films addressed in the individual entries, and discusses the specific relations between American culture and horror. All of the entries are informed by the question of what makes the specific film being discussed a horror film, the importance of its place within the history of the genre, and, where relevant, the film is also contextualized within specifically American culture and history. Each entry also considers the film's most salient textual features, provides important insight into its production, and offers both established and original critical insight and interpretation. The 100 films selected for inclusion represent the broadest historical range, and are drawn from every decade of American film-making, movies from major and minor studios, examples of the different types or subgenres of horror, such as psychological thriller, monster terror, gothic horror, home invasion, torture porn, and parody, as well as the different types of horror monsters, including werewolves, vampires, zombies, mummies, mutants, ghosts, and serial killers. *Eaten Alive at a Chainsaw Massacre* Edinburgh University Press

David Rowell is a professional journalist and an impassioned amateur musician. He's spent decades behind a drum kit, pondering the musical relationship between equipment and emotion. In *Wherever the Sound Takes You*, he explores the essence of music's meaning with a vast spectrum of players, trying to understand their connection to their chosen instrument, what they've put themselves through for their music, and what

they feel when they play. This wide-ranging and openhearted book blossoms outward from there. Rowell visits clubs, concert halls, street corners, and open mics, traveling from the Rock and Roll Hall of Fame in Cleveland to a death metal festival in Maryland, with stops along the way in the Swiss Alps and Appalachia. His keen reportorial eye treats us to in-depth portraits of musicians from platinum-selling legend Peter Frampton to a devout Christian who spends his days alone in a storage unit bashing away on one of the largest drum sets in the world. Rowell illuminates the feelings that both spur music's creation and emerge from its performance, as well as the physical instruments that enables their expression. With an uncommon sensitivity and grace, he charts the pleasure and pain of musicians consumed with what they do—as all of us listen in.

From the moment Bette Davis served up a dead rat to Joan Crawford in *What Ever Happened to Baby Jane?* a subset of camp horror films was born. The 'Hag Horror' genre exploited the former Oscar-winners and glamour queens who had effectively built Hollywood, transforming them into grotesque caricatures that revealed a cultural disdain for older women. In *Crazy Old Ladies: The Story of Hag Horror*, Caroline Young traces the development of this genre, from its origins in *Sunset Boulevard* and *All About Eve*, through to the horror movie phenomenon following the huge success of *Psycho*. Films like *Strait-Jacket*,

Lady in a Cage, What's the Matter with Helen? and Rosemary's Baby reveal the fears around the growing feminist movement, a clash between tradition and youth, and a shift in notions of celebrity. Above all, Crazy Old Ladies is a timely overview of the subgenre, to reveal the sometimes painful stories of what happened to iconic, ageing actresses once their career as leading ladies was considered over.
