*We Were Gonna Have
a Baby, But We Had an
Angel Instead* Unbound
Publishing
A baby can be a good
excuse to skip a party,

but . . . goodbye alone
time, hello awkward
new social obligations.
All parents want the
same things: to
balance work and
home life, to raise
happy kids, to never
attend a baby
drumming class, and to
build a secret room in

their home where they can hide (preferably not the bathroom). Yes, an introverted parent would more keenly want to be free of the slew of attention and expectations that accompany both pregnancy and parenthood, but even the most outgoing person is sure to reach their limit eventually. Here, with laugh-out-loud humor and well-earned experience, Julie Vick offers coping mechanisms for everything from sharing the news that you are becoming a parent to the moment the baby is born (one way or another, it will happen), from managing doctor's visits to handling playdates. She offers advice on finding childcare and ignoring the nursing versus

formula conversation with strangers. Witty yet valuable, her tips, checklists, and the occasional chart focus on the time from pregnancy through preschool.

American Motherhood
Bijou Hunter

A.D. 3486 Aeden was suffering. The Reapers had finally been destroyed, leaving the planet scarred and countless creatures lost. The process of recovery had begun, but it will take lifetimes to repair the damage inflicted upon the planet. Now is a time of recuperation, new growth, and family... and new hope in a future that had almost been lost. Balance must be restored for the planet to fulfill its purpose, even as Taylor finds new life blossoming within her.

However, recent events have attracted unwanted attention. The Xathen are coming to investigate, and no act of intrusion goes unpunished. When the Xathen arrive, Taylor finds herself an invader on a world that is not her own, in command of forces she barely comprehends. With the Orion Spur once again on the brink of destruction, the only thing that stands between the Xathen and the unsuspecting Commonwealth is... Taylor Neeran.

Through vivid and powerful storytelling,

Blessed Youth:

Breaking the Silence

about Mental Illness with Children and Teens will remove the barriers of stigma and shame associated with mental illness in children and teens. Readers will know they are not alone and be reminded of God's grace and loving presence in the midst of the heartache and struggle of mental illness. In addition to stories of children and youth experiencing mental health challenges, Blessed Youth includes practical resources such as prayers and a guide for having age-appropriate talks with children about warning signs and how to get help for themselves and friends. Ultimately, this important resource offers hope and help for everyone who loves a child or youth with

mental health challenges. Also available is *Blessed Youth Survival Guide*, a pocket-size companion guide for youth. *American Magazine* W. W. Norton & Company A six-year journey: six losses and three beautiful angels. After losing her son Jude in August 2020, a spark was ignited in Carmen Grover as she read through every diary that she kept for each of her babies. Rather than have them remain stacked under her bed, Carmen decided that her journals would make a difference. The result has been an honest and poignant compilation of the ups and downs of Carmen's experience with pregnancy loss, from rolling in the grass and convulsing on the kitchen floor in her

cycle of grief, to seeing the strength she could gain in the signs and special moments all around her. *A Diary to My Babies: Journeying Through Pregnancy Loss* shines a light on the darkness of pregnancy loss, while also showing there is no right way to grieve. And through her incredible journey, Carmen hopes the story of her family and her babies just might help others to heal. *Southern Medical Journal* *Making Babies the Hard Way* How far would you go to have a baby? *Making Babies the Hard Way* is a frank account of one couple's discovery that they cannot have children of their own, and their ensuing struggle through four years of fertility treatment. One

in six couples worldwide seek assistance to conceive and 80 per cent of couples undergoing fertility treatment are currently unsuccessful. Writing with humour and honesty, Caroline Gallup describes the social, emotional, spiritual and physical impact of infertility on her and her husband, Bruce, including feelings of bereavement for the absent child, the unavoidable sense of inadequacy and the day-to-day difficulties of financial pressure. As well as telling her own moving story, she also offers information and guidance for others who are infertile, or who are considering or undergoing treatment. This courageous and poignant book will be

of interest to couples who cannot conceive and those who are undergoing treatment, as well as their families and friends.

Making Babies: Stumbling into Motherhood Little, Brown Spark

Cyra has fled to relative safety with two of her Alphas, but her other two Alphas have gone missing... Everything in Cyra's life seems to have gone wrong since she attended the Night Gala, an exclusive event for rich shifters, a few weeks ago. She escaped the party with her four fated Alphas, hydra Zack, griffin Spence, cerberus Max and centaur Liam in tow. Only to go on the run from the paparazzi and Cyra's parents as news articles about them started to

appear. When Cyra finally found some control back over her life, her parents sued Max for defamation because he dared to try to expose her parents' lies. With Max back in his hometown trying to defend himself and expose even more of Cyra's parents' lies, Zack at his side to make sure he makes it back alive, things fall apart even further. The morning that Max is supposed to show up in court, the apartment that Cyra, Spence and Liam are hiding in is attacked, forcing Cyra to transform into her phoenix shape for the first time in decades as she desperately tries to protect Liam and they barely make it out alive. When a local centaur clan takes them in, the three find

out that Max and Zack also tried to get to safety, only that it backfired and the two are now missing. Winter is approaching quickly, which makes safe travel in the mountains where the centaur clan lives complicated. Add to that that Cyra is pregnant with four babies, the whole world now seems to be searching for the near-legendary Omega phoenix for their own goals and Max and Zack could be anywhere right now. The five mates are doing everything they can to find each other and make it through the winter alive, but will it be enough? This is the third book in the Her Shifter Harem's Babies series, a paranormal Omegaverse reverse

harem #WhyChoose story. This book may include any of these elements: steamy scenes, 'I need tissues NOW' moments, cries of 'why, oh, why' and cliffhangers that make you bite your nails (and curse the author).

?This story includes MF and MM scenes.

Babies Don't Make Small Talk (So Why Should I?): The Introvert's Guide to Surviving Parenthood
Mouse Moon Press

Thanks to new reproductive technologies and new ways of forming families, the world of parenting is opening up as never before. What defines a legal family? Should there be any restrictions on buying and selling eggs and sperm, or hiring "surrogate mothers"? How many parents can

a child have? While there's no going back to the traditional family, Mary Lyndon Shanley shows us that we don't have to live in moral chaos. She offers a new vision of family law that puts each child's right to be cared for at its center, while also taking into account the complex needs of every family member.

By the Year 2000:
BABY! What have you resolved to do by the year 2000? Susan Kennedy's going to have a baby...by the time she turns forty. Which is in the year 2000. It's something she's wanted—planned—for the past decade. Now she's got everything

she needs to go ahead. A nice home, a successful career, a loving family. Everything except for a husband. She used to have a husband—Michael Kennedy—and that's the man she wants for her baby's father. She only needs Michael's "biological" contribution, though. But then, when Susan's pregnant, she discovers two unexpected complications: 1. She loves Michael more than ever and wants him to be her husband again—and a father to his child. 2. There isn't goin to be one baby, but two—she's having twins!

American Illustrated Magazine Harlequin
WINNER OF THE PEN
ACKERLEY PRIZE 2016
'Beautifully written and

brutally honest'
Sunday Times 'Her account is astonishingly moving and her prose nothing short of hypnotic'
Independent When Alice Jolly's second child was stillborn and all subsequent attempts to have another baby failed, she began to consider every possible option, no matter how unorthodox. Shot through with humour and full of hope, *Dead Babies and Seaside Towns* is an intensely personal account of the search for an alternative way to create a family. As she battles through miscarriage, IVF and failed adoption attempts, Alice finds comfort in the faded charm of Britain's crumbling seaside towns. The journey

ultimately leads her and her husband to a small town in Minnesota, and to two remarkable women who offer to make the impossible possible. In this beautifully written book, Alice Jolly describes with a novelist's skill the events that many others have lived through – even if they may feel compelled to keep them hidden. Her decision not to hide but to share them, without a trace of self-pity, turns *Dead Babies and Seaside Towns* into a universal story: one that begins in tragedy but ends in joy.

Making Babies the Hard Way Harlequin
Who is white, and why should we care? There was a time when the immigrants of New York City's Lower East Side—the Irish, the

Poles, the Italians, the Russian Jews—were not white, but now “they” are. There was a time when the French-speaking working classes of Quebec were told to “speak white,” that is, to speak English. Whiteness is an allegorical category before it is demographic. This volume gathers together some of the most influential scholars of privilege and marginalization in philosophy, sociology, economics, psychology, literature, and history to examine the idea of whiteness. Drawing from their diverse racial backgrounds and national origins, these scholars weave their theoretical insights into essays critically informed by personal narrative. This

approach, known as “braided narrative,” animates the work of award-winning author Eula Biss. Moved by Biss’s fresh and incisive analysis, the editors have assembled some of the most creative voices in this dialogue, coming together across the disciplines. Along with the editors, the contributors are Eduardo Bonilla-Silva, Nyla R. Branscombe, Drucilla Cornell, Lewis R. Gordon, Paget Henry, Ernest-Marie Mbonda, Peggy McIntosh, Mark McMorris, Marilyn Nissim-Sabat, Victor Ray, Lilia Moritz Schwarcz, Louise Seamster, Tracie L. Stewart, George Yancy, and Heidi A. Zetzer. Guernsey Breeders' Journal The Countryman Press

MAKING PLANS, MAKING FRIENDS...MAKING A BABY? Elaine Lowry is a divorcée with a plan: to have a baby on her own. Why shouldn't she have the child she always dreamed of—the child her ex-husband is now having with his new wife! As if it's not enough that he's taken the house and, with it, her social standing. Enter sinfully handsome lawyer-for-the-opposing side Mitch Ryder. Feeling guilty about the part he played in Elaine's divorce, he takes over as landlord on her apartment before it's sold right from under her. Mitch offers himself as a daddy candidate on one condition: their marriage needs to be all business. But Mitch can't help the tender

protective feelings he has for Elaine, especially when they make love for the first time. And besides, who says business comes before pleasure?

HEAT ♡ HUMOR ♡ HEA
Life's been trying to break Sissy Mullen since the day she was born. Though her violent father nearly ran her into the ground, she's finally free. Nathan "Butch" Davies doesn't like people. Bailey Johansson and Nick Davies' quiet middle son is better at busting

heads than making conversation. The Reapers enforcer will need to leave his comfort zone if he hopes to show Sissy that he's the man she doesn't know she needs. Unfortunately, claiming the woman he loves means pissing off his older brother and stirring up trouble between the Reapers' local chapter and Conroe's former overlords. Trigger warning: *Don't Do Me Wrong* contains details of past child abuse, graphic sexual content, violent situations, and extreme profanity. The book is only appropriate for adult readers age 18+.

the rest would break your heart." —Colm Tóibín

Anne Enright is one of the most acclaimed novelists of her generation. The *Gathering* won the 2007 Man Booker Prize, and her follow-up novel, *The Forgotten Waltz*, garnered universal praise for her luminous language and deep insight into relationships. Now, in *Making Babies*, Enright offers a new kind of memoir: an unapologetic look at the very personal experience of becoming a mother. With a refreshing no-nonsense attitude, Enright opens up about the birth and first two years of her children's lives. Enright was married for eighteen years before she and her husband Martin, a playwright, decided to

have children. Already a confident, successful writer, Enright continued to work in her native Ireland after each of her two babies was born. While each baby slept, those first two years of life, Enright wrote, in dispatches, about the mess, the glory, and the raw shock of motherhood. Here, unfiltered and irreverent, are Enright's keen reactions to the pains of pregnancy, the joys of breast milk, and the all-too-common pressures to be the "perfect" parent. Supremely observant and endlessly quizzical, Enright is never saccharine, always witty, but also deeply loving. Already a bestseller in the UK, *Making Babies* brings Enright's

autobiographical writing to American readers for the first time. Tender and candid, it captures beautifully just what it's like for a working woman to become a mother. The result is a moving chronicle of parenthood from one of the most distinctive and gifted authors writing today.

Intercession Penn State Press
Making Babies offers a proven 3-month program designed to help any woman get pregnant. Fertility medicine today is all about aggressive surgical, chemical, and technological intervention, but Dr. David and Blakeway know a better way. Starting by identifying "fertility types," they cover everything from recognizing the causes

of fertility problems to making lifestyle choices that enhance fertility to trying surprising strategies such as taking cough medicine, decreasing doses of fertility drugs, or getting acupuncture along with IVF. *Making Babies* is a must-have for every woman trying to conceive, whether naturally or through medical intervention. Dr. David and Blakeway are revolutionizing the fertility field, one baby at a time.

Diseases of Children

A young boy describes his feelings about the death of a baby in his family.

Child Health Programs and Proposals

The Pentateuch, or The Five Books of Moses, is a fascinating odyssey

of a nation in the making. Yet, underneath the tales that reveal human nature at its zenith and at its nadir lies an ocean of wisdom that, if uncovered, can alter reality itself. Dr. Michael Laitman's *Disclosing a Portion: the inner mechanics of the Torah* uncovers some of that wisdom in a manner none other has done before. Throughout the year, each week observant Jews read a different portion of the Pentateuch (which they refer to as the "Torah"). Each portion deals with a different topic, and is titled according to the first word, or words, in the portion. As you read through the portions, you will discover that each of the protagonists in the

stories we've known for so long is not a myth, but a living force within. These forces direct and determine your path in life, and when you come to know them, you come to know your true self. Take your time to delve into the text, and

portion by portion you will find new meanings that will enrich and empower you as you become the happy, confident person that you dream of being.
